## FINANCIAL REVIEW

The PNC Financial Services Group, Inc.

This Financial Review, including the Consolidated Financial Highlights, should be read together with our unaudited Consolidated Financial Statements and unaudited Statistical Information included elsewhere in this Quarterly Report on Form 10-Q (the "Report" or "Form 10-Q") and with Items 6, 7, 8 and 9A of our 2022 Annual Report on Form 10-K (our "2022 Form 10-K"). For information regarding certain business, regulatory and legal risks, see the following: the Risk Management section of this Financial Review and of Item 7 in our 2022 Form 10-K; Item 1 A Risk Factors included in this Report and our 2022 Form 10-K; and the Commitments and Legal Proceedings Notes included in this Report and Item 8 of our 2022 Form 10-K. Also, see the Cautionary Statement Regarding Forward-Looking Information section in this Financial Review and the Critical Accounting Estimates and Judgments section in this Financial Review and in our 2022 Form 10-K for certain other factors that could cause actual results or future events to differ, perhaps materially, from historical performance and from those anticipated in the forward-looking statements included in this Report. See Note 14 Segment Reporting for a reconciliation of total business segment earnings to total PNC consolidated net income as reported on a GAAP basis. In this Report, "PNC," "we" or "us" refers to The PNC Financial Services Group, Inc. and its subsidiaries on a consolidated basis (except when referring to PNC as a public company, its common stock or other securities issued by PNC, which just refer to The PNC Financial Services Group, Inc.). References to The PNC Financial Services Group, Inc. or to any of its subsidiaries are specifically made where applicable.

See page 103 for a glossary of certain terms and acronyms used in this Report.

## Executive Summary

Headquartered in Pittsburgh, Pennsylvania, we are one of the largest diversified financial institutions in the U.S. We have businesses engaged in retail banking, including residential mortgage, corporate and institutional banking and asset management, providing many of our products and services nationally. Our retail branch network is located coast-to-coast. We also have strategic international offices in four countries outside the U.S.

## Key Strategic Goals

At PNC we manage our company for the long term. We are focused on the fundamentals of growing customers, loans, deposits and revenue and improving profitability, while investing for the future and managing risk, expenses and capital. We continue to invest in our products, markets and brand, and embrace our commitments to our customers, shareholders, employees and the communities where we do business.

We strive to serve our customers and expand and deepen relationships by offering a broad range of deposit, credit and fee-based products and services. We are focused on delivering those products and services to our customers with the goal of addressing their financial objectives and needs. Our business model is built on customer loyalty and engagement, understanding our customers' financial goals and offering our diverse products and services to help them achieve financial well-being. Our approach is concentrated on organically growing and deepening client relationships across our businesses that meet our risk/return measures.

We are focused on our strategic priorities, which are designed to enhance value over the long term, and consist of:

- Expanding our leading banking franchise to new markets and digital platforms,
- Deepening customer relationships by delivering a superior banking experience and financial solutions, and
- Leveraging technology to create efficiencies that help us better serve customers.

Our capital and liquidity priorities are to support customers, fund business investments and return excess capital to shareholders, while maintaining appropriate capital in light of economic conditions, the Basel III framework and other regulatory expectations. For more detail, see the Capital Highlights portion of this Executive Summary, the Liquidity and Capital Management portion of the Risk Management section of this Financial Review and the Supervision and Regulation section in Item 1 Business of our 2022 Form 10-K.

## Presentation of Noninterest Income

In the fourth quarter of 2022, PNC updated the name of the noninterest income line item "Capital markets related" to "Capital markets and advisory." This update did not impact the components of the category. All periods presented herein reflect these changes. For a description of each updated noninterest income revenue stream, see Note 1 Accounting Policies in our 2022 Form 10-K.

## Selected Financial Data

The following tables include selected financial data, which should be reviewed in conjunction with the Consolidated Financial Statements and Notes included in Item 1 of this Report as well as the other disclosures in this Report concerning our historical financial performance, our future prospects and the risks associated with our business and financial performance.

## Income Statement Highlights

Net income of $\$ 1.7$ billion, or $\$ 3.98$ per diluted common share, for the first quarter of 2023 increased $\$ 146$ million, or $9 \%$, compared to $\$ 1.5$ billion, or $\$ 3.47$ per diluted common share, for the fourth quarter of 2022, primarily due to a lower provision for credit losses and a decline in expenses, partially offset by decreased net interest income and noninterest income.

- For the three months ended March 31, 2023 compared to the three months ended December 31, 2022:
- Total revenue decreased $\$ 160$ million, or $3 \%$, to $\$ 5.6$ billion.
- Net interest income of $\$ 3.6$ billion decreased $\$ 99$ million, or $3 \%$, driven by two fewer days in the quarter and higher funding costs, partially offset by higher yields on interest-earning assets.
- Net interest margin decreased 8 basis points to $2.84 \%$ as higher yields on interest-earning assets were more than offset by increased funding costs.
- Noninterest income decreased $\$ 61$ million, or $3 \%$, and included lower merger and acquisition advisory activity as well as seasonally lower consumer transaction volumes.
- Provision for credit losses of $\$ 235$ million in the first quarter of 2023 included the impact of updated economic assumptions and changes in portfolio composition and quality. The fourth quarter of 2022 included a provision for credit losses of $\$ 408$ million.
- Noninterest expense decreased $\$ 153$ million, or $4 \%$, to $\$ 3.3$ billion, reflecting strong expense control and lower personnel costs, primarily due to lower variable compensation related to decreased business activity as well as seasonally lower benefits expense.
- We generated positive operating leverage of $2 \%$.

Net income of $\$ 1.7$ billion, or $\$ 3.98$ per diluted common share, for the first quarter of 2023 increased $\$ 265$ million, or $19 \%$, compared to $\$ 1.4$ billion, or $\$ 3.23$ per diluted common share, for the first quarter of 2022 , as a result of higher net interest income and noninterest income, partially offset by a higher provision for credit losses and increased expenses.

- For the three months ended March 31, 2023 compared to the three months ended March 31, 2022:
- Total revenue increased $\$ 911$ million, or $19 \%$, to $\$ 5.6$ billion.
- Net interest income increased $\$ 781$ million, or $28 \%$, as a result of higher interest-earning asset yields and balances, partially offset by higher funding costs.
- Net interest margin increased 56 basis points, reflecting the benefit of higher yields on interestearning assets.
- Noninterest income increased $\$ 130$ million, or $7 \%$, as a result of business growth across the franchise as well as higher private equity revenue, partially offset by the impact of lower average equity markets.
- Noninterest expense increased $\$ 149$ million, or $5 \%$, due to higher personnel costs, an increased FDIC assessment rate and continued investments in technology and marketing to support business growth.
- We generated positive operating leverage of $15 \%$.

For additional detail, see the Consolidated Income Statement Review section of this Financial Review.

## Balance Sheet Highlights

Our balance sheet was strong and well positioned at March 31, 2023. In comparison to December 31, 2022:

- Total assets increased modestly, to $\$ 561.8$ billion.
- Total loans remained largely stable at $\$ 326.5$ billion.
- Total commercial loans increased modestly to $\$ 225.4$ billion as new production and higher utilization of loan commitments were largely offset by payoffs and maturities.
- Total consumer loans were relatively stable at $\$ 101.1$ billion as increases in home equity, residential mortgages and automobile loans were offset by declines in the remaining portfolios as paydowns outpaced new originations.
- Investment securities decreased $\$ 1.1$ billion to $\$ 138.2$ billion, due to prepayments and maturities outpacing purchases, partially offset by the favorable impact of interest rate changes on net unrealized losses for available for sale securities.
- Interest-earning deposits with banks, primarily with the Federal Reserve Bank, increased $\$ 6.5$ billion, or $24 \%$, to $\$ 33.9$ billion, primarily due to higher borrowed funds and deposits. In the first quarter of 2023, Interest-earning deposits with banks also included a $\$ 1.0$ billion uninsured deposit with First Republic Bank. The deposit was acquired out of First Republic Bank's receivership on May 1, 2023, and will be repaid to PNC.
- Total deposits increased $\$ 551$ million to $\$ 436.8$ billion as a result of higher consumer time deposits, partially offset by seasonally lower commercial deposits, and reflected a continued shift from noninterest-bearing to interest-bearing deposit products as interest rates have risen.
- Borrowed funds increased $\$ 2.1$ billion, or $4 \%$, to $\$ 60.8$ billion as a result of parent company senior debt issuances in January 2023.

For additional detail, see the Consolidated Balance Sheet Review section of this Financial Review.

## Credit Quality Highlights

The first quarter of 2023 reflected solid credit quality performance.

- At March 31, 2023 compared to December 31, 2022:
- Nonperforming assets of $\$ 2.0$ billion were stable.
- Overall loan delinquencies of $\$ 1.3$ billion decreased $\$ 164$ million, or $11 \%$, driven by lower consumer and commercial loan delinquencies.
- The ACL related to loans, which consists of the ALLL and the allowance for unfunded lending related commitments, totaled $\$ 5.4$ billion at both March 31, 2023 and December 31, 2022. During the three months ended March 31, 2023, reserves reflected our updated economic assumptions and changes in portfolio composition and quality. ACL to total loans was $1.66 \%$ and $1.67 \%$ at March 31, 2023 and December 31, 2022, respectively.
- Net charge-offs of $\$ 195$ million, or $0.24 \%$ of average loans, in the first quarter of 2023 decreased $\$ 29$ million, or $13 \%$, compared to $\$ 224$ million, or $0.28 \%$ of average loans, for the fourth quarter of 2022 , due to lower consumer and commercial net charge-offs.

For additional detail see the Credit Risk Management portion of the Risk Management section of this Financial Review.

## Capital and Liquidity Highlights

We maintained our strong capital and liquidity positions.

- Common shareholders' equity of $\$ 41.8$ billion at March 31, 2023, increased $\$ 1.8$ billion, or $4 \%$, compared to December 31, 2022, driven by the benefit of net income and an increase in AOCI, partially offset by common dividends paid and share repurchases during the first quarter of 2023.
- In the first quarter of 2023, PNC returned $\$ 1.0$ billion of capital to shareholders, reflecting $\$ 0.6$ billion of dividends on common shares and $\$ 0.4$ billion of common share repurchases, representing 2.4 million shares.
- Consistent with the SCB framework, which allows for capital returns in amounts in excess of the SCB minimum levels, our Board of Directors has authorized a repurchase framework under the previously approved repurchase program of up to 100 million common shares, of which approximately $47 \%$ were still available for repurchase at March 31, 2023. Due to recent market volatility and increased economic uncertainty, share repurchase activity is expected to be reduced in the second quarter of 2023 compared to recent quarters. PNC continues to evaluate and may adjust share repurchase activity, as actual amounts and timing are dependent on market and economic conditions as well as other factors. PNC's SCB for the four-quarter period that began October 1, 2022 is $2.9 \%$.
- On April 3, 2023, the PNC Board of Directors declared a quarterly cash dividend on common stock of $\$ 1.50$ per share payable on May 5, 2023.
- Our CET1 ratio increased to 9.2\% at March 31, 2023 from 9.1\% at December 31, 2022.
- PNC elected a five-year transition provision effective March 31, 2020 to delay until December 31, 2021 the full impact of the CECL standard on regulatory capital, followed by a three-year transition period. Effective for the first quarter of 2022, PNC is now in the three-year transition period, and the full impact of the CECL standard is being phased-in to regulatory capital through December 31, 2024. The fully implemented ratios reflect the full impact of CECL and exclude the benefits of this transition provision. The CET1 fully implemented ratio was $9.1 \%$ at March 31, 2023 compared to $8.9 \%$ at December 31, 2022.
- PNC's average LCR for the three months ended March 31, 2023 was $108 \%$ and exceeded the regulatory minimum requirement throughout the quarter.

See the Liquidity and Capital Management portion of the Risk Management section of this Financial Review for more detail on our 2023 liquidity and capital actions as well as our capital ratios.

PNC's ability to take certain capital actions, including returning capital to shareholders, is subject to PNC meeting or exceeding an SCB established by the Federal Reserve Board in connection with the Federal Reserve Board's CCAR process. For additional information, see Capital Management in the Risk Management section in this Financial Review and the Supervision and Regulation section in our 2022 Form 10-K.

## Business Outlook

Statements regarding our business outlook are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. Our forward-looking financial statements are subject to the risk that economic and financial market conditions will be substantially different than those we are currently expecting and do not take into account potential legal and regulatory contingencies. These statements are based on our views that:

- The economy continues to expand in the first half of 2023, but economic growth is slowing in response to the ongoing Federal Reserve monetary policy tightening to slow inflation. This has led to large increases in both short- and long-term interest rates. With much higher mortgage rates the housing market is already in contraction, with steep drops in existing

4 The PNC Financial Services Group, Inc. - Form 10-Q
home sales and single-family housing starts, and a modest decline in house prices. Other sectors where interest rates play an outsized role, such as business investment and consumer spending on durable goods, will contract over 2023.

- PNC's baseline outlook is for a recession starting in the second half of 2023, with real GDP contracting less than $1 \%$ before recovery starts in the first half of 2024 as the Federal Reserve lowers interest rates in response to a deteriorating labor market and slower inflation. The unemployment rate will increase throughout 2023, peaking at above $5 \%$ in the second half of 2024. Inflation will slow with the recession and be back to the Federal Reserve's $2 \%$ long-term objective by mid-2024.
- PNC expects the FOMC to raise the federal funds rate by 25 basis points in May. This would bring the federal funds rate to a range of $5.00 \%$ to $5.25 \%$ by early-May. PNC expects a federal funds rate cut of 25 basis points in early 2024 as inflation moves toward the FOMC's 2\% long-term objective.

For the second quarter of 2023, compared to the first quarter of 2023, we expect:

- Average loans to be stable,
- Net interest income to be down $2 \%$ to $4 \%$,
- Fee income to be stable to down $1 \%$,
- Other noninterest income, excluding net securities gains and Visa activity, to be $\$ 200$ million to $\$ 250$ million,
- Revenue to be down approximately $3 \%$,
- Noninterest expense to be up $1 \%$ to $2 \%$, and
- Net loan charge-offs to be $\$ 200$ million to $\$ 250$ million.

For the full year 2023, compared to the full year of 2022, we expect:

- Average loans to be up $5 \%$ to $7 \%$,
- Period-end loans to be up $1 \%$ to $3 \%$,
- Revenue to be up $4 \%$ to $5 \%$,
- Noninterest expense to be up $2 \%$ to $3 \%$, and
- The effective tax rate to be approximately $18 \%$.

We cannot provide, without unreasonable effort, a meaningful or accurate reconciliation of forward-looking non-GAAP measures to their most directly comparable GAAP financial measures. This is due to the inherent difficulty of forecasting the timing and amounts necessary for the reconciliation when such amounts are subject to events that cannot be reasonably predicted, as noted in our Cautionary Statement. Accordingly, we cannot address the probable significance of unavailable information.

See the Cautionary Statement Regarding Forward-Looking Information section in this Financial Review and Item 1A Risk Factors included in this Report and in our 2022 Form 10-K for other factors that could cause future events to differ, perhaps materially, from those anticipated in these forward-looking statements.

## Consolidated Income Statement Review

Our Consolidated Income Statement is presented in Item 1 of this Report.
Net income of $\$ 1.7$ billion, or $\$ 3.98$ per diluted common share, for the first quarter of 2023 increased $\$ 146$ million, or $9 \%$, compared to $\$ 1.5$ billion, or $\$ 3.47$ per diluted common share, for the fourth quarter of 2022 , primarily due to a lower provision for credit losses and a decline in expenses, partially offset by decreased net interest income and noninterest income. Net income increased \$265 million, or $19 \%$, compared to $\$ 1.4$ billion, or $\$ 3.23$ per diluted common share for the first quarter of 2022 , as a result of higher net interest income and noninterest income, partially offset by a higher provision for credit losses and increased expenses.

(a) Interest income calculated as taxable-equivalent interest income. To provide more meaningful comparisons of interest income and yields for all interest-earning assets, as well as net interest margins, we use interest income on a taxable-equivalent basis in calculating average yields and net interest margins by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement. For more information, see Reconciliation of Taxable-Equivalent Net Interest Income (non-GAAP) in the Statistical Information (Unaudited) section in Item 1 of this Report.

Changes in net interest income and margin result from the interaction of the volume and composition of interest-earning assets and related yields, interest-bearing liabilities and related rates paid, and noninterest-bearing sources of funding. See the Statistical Information (Unaudited) - Average Consolidated Balance Sheet And Net Interest Analysis section of this Report.

Net interest income decreased $\$ 99$ million, or $3 \%$, for the first quarter of 2023 compared to the fourth quarter of 2022, driven by two fewer days in the quarter and higher funding costs, partially offset by higher yields on interest-earning assets. Net interest income increased $\$ 781$ million, or $28 \%$, for the first quarter of 2023 compared to the same period in 2022, as a result of higher interest-earning asset yields and balances, partially offset by higher funding costs. Net interest margin decreased 8 basis points compared to the fourth quarter of 2022 as higher yields on interest-earning assets were more than offset by increased funding costs. Compared to the first quarter of 2022, net interest margin increased 56 basis points, reflecting the benefit of higher yields on interest-earning assets.

Average investment securities of $\$ 143.4$ billion were relatively stable for the first quarter of 2023 compared to the fourth quarter of 2022. Compared to the first quarter of 2022, average investment securities increased $\$ 9.5$ billion, or $7 \%$, reflecting net purchases, primarily of agency residential mortgage-backed securities. Average investment securities represented $28 \%$ of average interest-earning assets for the first quarter of 2023 and the fourth quarter of 2022, and $27 \%$ for the first quarter of 2022.

Average loans of $\$ 325.5$ billion for the first quarter of 2023 increased $\$ 3.7$ billion compared to the fourth quarter of 2022, primarily driven by growth in PNC's corporate banking business during the fourth quarter of 2022. In comparison to the first quarter of 2022, average loans increased $\$ 34.8$ billion, or $12 \%$, reflecting growth in both commercial and consumer loans. Average loans represented $64 \%$ of average interest-earning assets for both the first quarter of 2023 and the fourth quarter of 2022 , and $59 \%$ for the first quarter of 2022.

Average interest-earning deposits with banks of $\$ 34.1$ billion for the first quarter of 2023 , increased $\$ 3.7$ billion, or $12 \%$ compared to the fourth quarter of 2022, primarily due to higher borrowed funds and deposits. Compared to the first quarter of 2022, average interest-earning deposits with banks decreased $\$ 28.5$ billion, or $46 \%$, primarily due to higher loans outstanding.

Average interest-bearing deposits of $\$ 315.1$ billion for the first quarter of 2023 increased $\$ 13.6$ billion, or $5 \%$, and $\$ 15.5$ billion, or $5 \%$, compared to the fourth and first quarters of 2022, respectively. Both comparisons reflected a continued shift from noninterestbearing to interest-bearing deposits, as interest rates have risen. In total, average interest-bearing deposits represented $83 \%$ of average interest-bearing liabilities for the first quarter of $2023,84 \%$ for the fourth quarter of 2022 and $91 \%$ for the first quarter of 2022.

Average borrowed funds of $\$ 63.0$ billion for the first quarter of 2023 increased $\$ 3.7$ billion, or $6 \%$, compared to the fourth quarter of 2022, driven by parent company senior debt issuances in January 2023. Compared to the first quarter of 2022, average borrowed funds increased $\$ 32.7$ billion, or $108 \%$ due to increased FHLB borrowings and senior debt issuances.

Further details regarding average loans and deposits are included in the Business Segments Review section of this Financial Review.

## Noninterest Income

Table 4: Noninterest Income

Noninterest income as a percentage of total revenue was $36 \%$ for both the first quarter of 2023 and the fourth quarter of 2022 compared to $40 \%$ for the first quarter of 2022 .

Asset management and brokerage fees increased compared to the fourth quarter of 2022, reflecting the impact of higher average equity markets and increased annuity sales. The decrease compared to the first quarter of 2022 reflected the impact of lower average equity markets. PNC's discretionary client assets under management of $\$ 177$ billion at March 31, 2023 increased from $\$ 173$ billion at December 31, 2022, primarily as a result of higher spot equity markets. PNC's discretionary client assets under management decreased from $\$ 182$ billion at March 31, 2022, driven by lower spot equity markets.

Capital markets and advisory fees decreased compared to the fourth quarter of 2022 driven by lower merger and acquisition advisory fees. The increase compared to the first quarter of 2022 included higher asset backed financing, merger and acquisition advisory and underwriting fees.

Card and cash management revenue decreased compared to the fourth quarter of 2022, reflecting seasonally lower consumer transaction volumes. The increase in the first quarter of 2022 comparison was primarily due to increased treasury management product revenue and higher consumer spending.

Lending and deposit services increased compared to both the fourth and first quarters of 2022, primarily driven by increased client activity.

Residential and commercial mortgage decreased compared to the fourth quarter of 2022 due to lower results from residential mortgage servicing rights valuation, net of economic hedge. The increase compared to the first quarter of 2022 was driven by modestly higher commercial and residential banking activities.

Other noninterest income increased compared to both the fourth quarter and first quarter of 2022. The increase compared to the first quarter of 2022 included the impact of higher private equity revenue. The first quarter of 2023 included $\$ 45$ million of negative Visa Class B fair value adjustments compared to $\$ 41$ million of negative adjustments in the fourth quarter of 2022, and $\$ 4$ million of positive adjustments for the first quarter of 2022.

## Noninterest Expense

Noninterest expense decreased compared to the fourth quarter of 2022, reflecting strong expense control and lower personnel costs, primarily due to lower variable compensation related to decreased business activity as well as seasonally lower benefits expense. The increase compared to the first quarter of 2022 was due to higher personnel costs, increased technology costs and marketing to support business growth. In both comparisons, the increase in other noninterest expense included the impact of a higher FDIC assessment rate, which resulted in an additional $\$ 25$ million of expense in the first quarter of 2023.

## Effective Income Tax Rate

The effective income tax rate was $17.2 \%$ in the first quarter of 2023 , compared to $17.7 \%$ in the fourth quarter of 2022 , and $17.3 \%$ for the same period in 2022.

| Total provision for (recapture of) credit losses | \$ | 235 | \$ | 408 | \$ | (173) | \$ | 235 | \$ | (208) | \$ | 443 |

Provision for credit losses of $\$ 235$ million in the first quarter of 2023 included the impact of updated economic assumptions and changes in portfolio composition and quality. The fourth quarter of 2022 included a provision for credit losses of $\$ 408$ million. The first quarter of 2022 included a recapture of credit losses of $\$ 208$ million.

## Consolidated Balance Sheet Review

The summarized balance sheet data in Table 7 is based upon our Consolidated Balance Sheet in Item 1 of this Report.

## Table 7: Summarized Balance Sheet Data

Our balance sheet was strong and well positioned at March 31, 2023. In comparison to December 31, 2022:

- Total assets increased modestly, and included higher Federal Reserve Bank balances.
- Total liabilities were largely stable.
- Total equity increased due to the benefit of net income, a preferred stock issuance and an improvement in AOCI, partially offset by dividends paid and common share repurchases.

The ACL related to loans totaled $\$ 5.4$ billion at both March 31, 2023 and December 31, 2022. During the three months ended March 31,2023 , reserves reflected our updated economic assumptions and changes in portfolio composition and quality. See the following for additional information regarding our ACL related to loans:

- Allowance for Credit Losses in the Credit Risk Management section of this Financial Review,
- Critical Accounting Estimates and Judgments section of this Financial Review, and
- Note 3 Loans and Related Allowance for Credit Losses.

The following discussion provides additional information about the major components of our balance sheet. Information regarding our capital and regulatory compliance is included in the Liquidity and Capital Management portion of the Risk Management section in this Financial Review and in Note 20 Regulatory Matters in our 2022 Form 10-K.

## Loans

| Total consumer |  | 101,063 |  | 100,976 |  | 87 | - |
| Total loans | \$ | 326,475 | \$ | 326,025 | \$ | 450 | - |

Commercial loans increased modestly as an increase in commercial and industrial loans was offset by declines in both commercial real estate and equipment lease financing.

Consumer loans were relatively stable as increases in home equity, residential mortgages and automobile loans were offset by declines in the remaining portfolios as paydowns outpaced new originations.

For additional information regarding our loan portfolio see the Credit Risk Management portion of the Risk Management section in this Financial Review and Note 3 Loans and Related Allowance for Credit Losses.

## Investment Securities

Investment securities of $\$ 138.2$ billion at March 31, 2023 decreased $\$ 1.1$ billion, compared to December 31, 2022, due to prepayments and maturities outpacing purchases, partially offset by the favorable impact of interest rate changes on net unrealized losses for available for sale securities.

The level and composition of the investment securities portfolio fluctuates over time based on many factors, including market conditions, loan and deposit growth and balance sheet management activities. We manage our investment securities portfolio to optimize returns, while providing a reliable source of liquidity for our banking and other activities, considering the LCR, NSFR and other internal and external guidelines and constraints.

| Total investment securities (f) | \$ | 141,996 | \$ | 134,645 | \$ | 143,743 | \$ | 134,438 |

(a) Of our total securities portfolio, $97 \%$ were rated AAA/AA at both March 31, 2023 and December 31, 2022.
(b) Amortized cost is presented net of the allowance for investment securities, which totaled $\$ 148$ million at March 31, 2023 and primarily related to non-agency commercial mortgage-backed securities. The comparable amount at December 31, 2022 was $\$ 149$ million.
(c) Collateralized primarily by office buildings, multifamily housing, retail properties, lodging properties and industrial properties.
(d) Collateralized primarily by corporate debt, government guaranteed education loans and other consumer credit products.
(e) Includes state and municipal securities.
(f) Includes available for sale and held to maturity securities, which are recorded on our balance sheet at fair value and amortized cost, respectively.

Table 9 presents our investment securities portfolio by amortized cost and fair value. The relationship of fair value to amortized cost at March 31, 2023 compared to December 31, 2022 primarily reflected the impact of lower interest rates on the valuation of fixed rate securities. We continually monitor the credit risk in our portfolio and maintain the allowance for investment securities at an appropriate level to absorb expected credit losses on our investment securities portfolio for the remaining contractual term of the securities adjusted for expected prepayments. See Note 2 Investment Securities for additional details regarding the allowance for investment securities.

The duration of investment securities was 4.4 years and 4.5 years at March 31, 2023 and December 31, 2022, respectively. We estimate that at March 31, 2023 the effective duration of investment securities was 4.4 years for an immediate 50 basis points parallel increase in interest rates and 4.4 years for an immediate 50 basis points parallel decrease in interest rates. Comparable amounts at December 31, 2022 for the effective duration of investment securities were 4.4 years and 4.5 years, respectively.

Based on expected prepayment speeds, the weighted-average expected maturity of the investment securities portfolio was 5.8 years at March 31, 2023 compared to 6.0 years at December 31, 2022.

| Total funding sources | \$ | 497,655 | \$ | 494,995 | \$ | 2,660 | $1 \%$ |

Total deposits increased modestly as a result of higher consumer time deposits, partially offset by seasonally lower commercial deposits. In addition, noninterest-bearing balances decreased due to the continued shift into interest-bearing deposit products as interest rates have risen.

Borrowed funds increased due to parent company senior debt issuances in January 2023.

The level and composition of borrowed funds fluctuates over time based on many factors, including market conditions, loan, investment securities and deposit growth and capital considerations. We manage our borrowed funds to provide a reliable source of liquidity for our banking and other activities, considering our LCR and NSFR requirements and other internal and external guidelines and constraints. See the Liquidity and Capital Management portion of the Risk Management section in this Financial Review for additional information regarding our liquidity and capital activities. See Note 7 Borrowed Funds in this Report and Note 10 Borrowed Funds in our 2022 Form 10-K for additional information related to our borrowings.

## Shareholders' Equity

Total shareholders' equity was $\$ 49.0$ billion at March 31, 2023, an increase of $\$ 3.2$ billion compared to December 31, 2022, as increases related to net income of $\$ 1.7$ billion, a preferred stock issuance of $\$ 1.5$ billion and an improvement in AOCI of $\$ 1.1$ billion were partially offset by dividends paid of $\$ 0.7$ billion and common share repurchases of $\$ 0.4$ billion.

## Business Segments Review

We have three reportable business segments:

- Retail Banking
- Corporate \& Institutional Banking
- Asset Management Group

Business segment results and a description of each business are included in Note 14 Segment Reporting. Certain amounts included in this Business Segments Review differ from those amounts shown in Note 14, primarily due to the presentation in this Financial Review of business net interest income on a taxable-equivalent basis.

Net interest income in business segment results reflects our internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.

Total business segment financial results differ from total consolidated net income. The impact of these differences is reflected in the "Other" category as shown in Table 78 in Note 14 Segment Reporting. "Other" includes residual activities that do not meet the criteria for disclosure as a separate reportable business, such as asset and liability management activities, including net securities gains or losses, ACL for investment securities, certain trading activities, certain runoff consumer loan portfolios, private equity investments, intercompany eliminations, certain corporate overhead, tax adjustments that are not allocated to business segments, exited businesses and differences between business segment performance reporting and financial statement reporting (GAAP).

## Retail Banking

Retail Banking's core strategy is to build lifelong, primary relationships by creating a sense of financial well-being and ease for our clients. Over time, we seek to deepen those relationships by meeting the broad range of our clients' financial needs across savings, liquidity, lending, payments, investment and retirement solutions. We work to deliver these solutions in the most seamless and efficient way possible, meeting our customers where they want to be met - whether in a branch, through digital channels, at an ATM or through our phone-based customer contact centers - while continuously optimizing the cost to sell and service. We believe that, over time, we can grow our customer base, enhance the breadth and depth of our client relationships and improve our efficiency through differentiated products and leading digital channels.

*- Not Meaningful
(a) Represents mortgage loan servicing balances for third parties and the related income.
(b) Presented as of period end, except for average customer-related statistics and net charge-offs, which are both shown for the three months ended.
(c) Servicing fees net of impact of decrease in MSR value due to passage of time, including the impact from regularly scheduled loan principal payments, prepayments and loans paid off during the period.
(d) Mortgages with borrowers as part of residential real estate purchase transactions.
(e) Percentage of total consumer and business banking deposit transactions processed at an ATM or through our mobile banking application.
(f) Represents consumer checking relationships that process the majority of their transactions through non-teller channels.
(g) Reflects all branches and solution centers excluding standalone mortgage offices and satellite offices (e.g., drive-ups, electronic branches and retirement centers) that provide limited products and/or services.
(h) Includes cash and money market balances.

Retail Banking earnings for the first three months of 2023 increased $\$ 307$ million compared to the same period in 2022 primarily due to increased net interest income, partially offset by an increased provision for credit losses, and higher noninterest expense.

Net interest income increased in the comparison primarily due to wider interest rate spreads on the value of deposits, partially offset by narrower interest rate spreads on the value of loans.

Noninterest income was relatively stable in the comparison.
Provision for credit losses included the impact of updated economic assumptions and changes in portfolio composition and quality.
Noninterest expense increased in the comparison, and included increased technology costs and higher marketing spend.
Retail Banking average total loans increased in the first three months of 2023 compared to the same period in 2022. Average consumer loans increased $5 \%$ driven by higher residential real estate and home equity loans as a result of new volume and draws on existing accounts outpacing liquidations, as well as growth in credit card loans due to new account production and purchase volume increases. The increase was partially offset by a decline in automobile, education and other consumer loans as paydowns outpaced new
originations. Average commercial loans decreased primarily due to forgiveness of PPP loans, largely offset by growth in dealer segment balances.

Our focus on growing primary customer relationships is at the core of our deposit strategy in Retail, which is based on attracting and retaining stable, low-cost deposits as a key funding source for PNC. We have taken a disciplined approach to pricing, focused on retaining relationship-based balances and executing on targeted deposit growth and retention strategies aimed at more rate sensitive customers. Our goal with regard to deposits is to optimize balances, economics and long-term customer growth. In the first three months of 2023, average total deposits decreased compared to the same period in 2022, reflecting the impact of inflationary pressures and competitive pricing dynamics.

As part of our strategic focus on growing customers and meeting their financial needs, we have established a coast-to-coast network of retail branches, solution centers and ATMs that operate alongside PNC's suite of digital capabilities. Over time, we plan to continue to convert a portion of branches into solution centers, which have a distinctive layout and the capability to support transactions, sales and advice using a combination of technology and personalized banker assistance.

Retail Banking continues to enhance the customer experience with refinements to product and service offerings that drive value for consumers and small businesses. We are focused on meeting the financial needs of customers by providing a broad range of liquidity, banking, payments and investment products.

## Corporate \& Institutional Banking

Corporate \& Institutional Banking's strategy is to be the leading relationship-based provider of traditional banking products and services to its customers through the economic cycles. We aim to grow our market share and drive higher returns by delivering valueadded solutions that help our clients better run their organizations, all while maintaining prudent risk and expense management. We continue to focus on building client relationships where the risk-return profile is attractive.

(d) Represents net interest income and noninterest income from loan servicing, net of reduction in commercial mortgage servicing rights due to amortization expense and payoffs. Commercial mortgage servicing rights valuation, net of economic hedge is shown separately.
(e) As of March 31.

Corporate \& Institutional Banking earnings in the first three months of 2023 increased $\$ 103$ million compared to the same period in 2022 driven by higher net interest income and noninterest income, partially offset by increased noninterest expense and a lower provision recapture.

Net interest income increased in the comparison primarily due to wider interest rate spreads on the value of deposits and higher average loan balances, partially offset by narrower interest rate spreads on the value of loans and lower average deposit balances.

Noninterest income increased in the comparison and included higher capital markets and advisory fees and growth in treasury management product revenue.

Noninterest expense increased in the comparison due to continued investments to support business growth.
Average loans increased compared to the three months ended March 31, 2022 due to increases in Corporate Banking, Real Estate and Business Credit, partially offset by a decrease in Commercial Banking:

- Corporate Banking provides lending, equipment finance, treasury management and capital markets products and services to mid-sized and large corporations, and government and not-for-profit entities. Average loans for this business increased driven by strong new production throughout 2022 and higher average utilization of loan commitments.
- Real Estate provides banking, financing and servicing solutions for commercial real estate clients across the country. Average loans for this business increased largely due to new production throughout 2022, partially offset by a lower average utilization of loan commitments.
- Business Credit provides asset-based lending and equipment financing solutions. The loan and lease portfolio is relatively high yielding, with acceptable risk as the loans are mainly secured by business assets. Average loans for this business increased primarily driven by new production and higher utilization of loan commitments.
- Commercial Banking provides lending, treasury management and capital markets related products and services to smaller corporations and businesses. Average loans for this business declined primarily driven by PPP loan forgiveness and lower average utilization of loan commitments.

The deposit strategy of Corporate \& Institutional Banking is to remain disciplined on pricing and focused on growing and retaining relationship-based balances over time, executing on customer and segment-specific deposit growth strategies and continuing to provide funding and liquidity to PNC. Average total deposits decreased compared to the three months ended March 31, 2022, reflecting the impact of competitive pricing dynamics. We continue to actively monitor the interest rate environment and make adjustments to our deposit strategy in response to evolving market conditions, bank funding needs and client relationship dynamics.

Following the BBVA acquisition in 2021 and our de novo expansion efforts, we are now a coast-to-coast franchise and have a presence in the largest 30 U.S. metropolitan statistical areas. These expanded locations complement Corporate \& Institutional Banking's existing national businesses with a significant presence in these cities, and our full suite of commercial products and services are offered nationally.

## Product Revenue

In addition to credit and deposit products for commercial customers, Corporate \& Institutional Banking offers other services, including treasury management, capital markets and advisory products and services and commercial mortgage banking activities, for customers of all business segments. On a consolidated basis, the revenue from these other services is included in net interest income and noninterest income, as appropriate. From a business perspective, the majority of the revenue and expense related to these services is reflected in the Corporate \& Institutional Banking segment results, and the remainder is reflected in the results of other businesses where the customer relationship exists. The Other Information section in Table 13 includes the consolidated revenue to PNC for treasury management and commercial mortgage banking services. A discussion of the consolidated revenue from these services follows.

The Treasury Management business provides corporations with cash and investment management services, receivables and disbursement management services, funds transfer services, international payment services and access to online/mobile information management and reporting services. Treasury management revenue is reported in noninterest income and net interest income. Noninterest income includes treasury management product revenue less earnings credits provided to customers on compensating deposit balances used to pay for products and services. Net interest income includes funding credit from all treasury management customer deposit balances. Compared to the first three months of 2022, treasury management revenue increased due to wider interest rate spreads on the value of deposits and higher noninterest income.

Commercial mortgage banking activities include revenue derived from commercial mortgage servicing (both net interest income and noninterest income), revenue derived from commercial mortgage loans held for sale and hedges related to those activities. Total revenue from commercial mortgage banking activities increased in the comparison primarily due to a higher benefit from commercial mortgage servicing rights valuation, net of economic hedge and higher revenue from commercial mortgage loans held for sale, partially offset by lower commercial mortgage servicing income.

Capital markets and advisory includes services and activities primarily related to merger and acquisition advisory, equity capital markets advisory, asset-backed financing, loan syndication, securities underwriting and customer-related trading. The increase in capital markets and advisory fees in the comparison was mostly driven by higher fees and credit valuation on customer-related derivative activities as well as asset-backed financing and underwriting fees.

## Asset Management Group

The Asset Management Group strives to be the leading relationship-based provider of investment, planning, credit and cash management solutions and fiduciary services to affluent individuals and institutions by endeavoring to proactively deliver value-added ideas, solutions and exceptional service. Asset Management Group's priorities are to serve our clients' financial objectives, grow and deepen customer relationships and deliver solid financial performance with prudent risk and expense management.

The Asset Management Group consists of two primary businesses: PNC Private Bank and Institutional Asset Management.
The PNC Private Bank is focused on being a premier private bank in each of the markets it serves. This business seeks to deliver high quality banking, trust, and investment management services to our emerging affluent, high net worth and ultra high net worth clients through a broad array of products and services.

Institutional Asset Management provides outsourced chief investment officer, custody, private real estate, cash and fixed income client solutions, and retirement plan fiduciary investment services to institutional clients including corporations, healthcare systems, insurance companies, unions, municipalities and non-profits.

Asset Management Group earnings in the first three months of 2023 decreased $\$ 50$ million compared to the same period in 2022 primarily driven by higher noninterest expense, lower noninterest income and a decrease in net interest income.

Net interest income decreased in the comparison due to a decline in average deposits as well as narrower interest rate spreads on the value of loans.

Noninterest income decreased in the comparison primarily attributable to the asset management fee impact from lower average equity markets.

Noninterest expense increased in the comparison reflecting continued investments to support business growth.
Discretionary client assets under management decreased in comparison to the prior year, primarily due to lower equity markets as of March 31, 2023.

## Risk Management

The Risk Management section included in Item 7 of our 2022 Form 10-K describes our enterprise risk management framework including risk culture, enterprise strategy, risk governance and oversight framework, risk identification, risk assessments, risk controls and monitoring, and risk aggregation and reporting. Additionally, our 2022 Form 10-K provides an analysis of the firm's Capital Management and our key areas of risk, which include, but are not limited to, Credit, Market, Liquidity and Operational (including Compliance and Information Security).

## Credit Risk Management

Credit risk, including our credit risk management processes, is described in further detail in the Credit Risk Management section of our 2022 Form 10-K. The following provides additional information around our loan portfolio, which is our most significant concentration of credit risk.

Table 15: Details of Loans
In billions

We use several credit quality indicators, as further detailed in Note 3 Loans and Related Allowance for Credit Losses, to monitor and measure our exposure to credit risk within our loan portfolio. The following provides additional information about the significant loan classes that comprise our Commercial and Consumer portfolio segments.

## Commercial

## Commercial and Industrial

Commercial and industrial loans comprised 56\% of our total loan portfolio at both March 31, 2023 and December 31, 2022. The majority of our commercial and industrial loans are secured by collateral that provides a secondary source of repayment for the loan should the borrower experience cash generation difficulties. Examples of this collateral include short-term assets, such as accounts receivable, inventory and securities, and long-lived assets, such as equipment, owner-occupied real estate and other business assets.

We actively manage our commercial and industrial loans to assess any changes (both positive and negative) in the level of credit risk at both the borrower and portfolio level. To evaluate the level of credit risk, we assign internal risk ratings reflecting our estimates of the borrower's PD and LGD for each related credit facility. This two-dimensional credit risk rating methodology provides granularity in the risk monitoring process and is updated on an ongoing basis through our credit risk management processes. In addition to monitoring the level of credit risk, we also monitor concentrations of credit risk pertaining to both specific industries and geographies that may exist in our portfolio. Our commercial and industrial portfolio is well-diversified across industries as shown in the following table which provides a breakout by industry classification (classified based on the North American Industry Classification System).

## Commercial Real Estate

Commercial real estate loans comprised $\$ 22.2$ billion related to commercial mortgages on income-producing properties, $\$ 6.7$ billion of real estate construction project loans and $\$ 7.1$ billion of intermediate-term financing loans as of March 31, 2023. Comparable amounts as of December 31, 2022 were $\$ 22.3$ billion, $\$ 6.4$ billion and $\$ 7.6$ billion, respectively.

We monitor credit risk associated with our commercial real estate loans similar to commercial and industrial loans by analyzing PD and LGD. Additionally, risks associated with these types of credit activities tend to be correlated to the loan structure, collateral location and quality, project progress and business environment. These attributes are also monitored and utilized in assessing credit risk. The portfolio is geographically diverse due to the nature of our business involving clients throughout the U.S.

The following table presents our commercial real estate loans by geography and property type:

As remote work continues to be a feasible alternative and notable portions of leased space remain unoccupied, real estate related to the office sector is an area of continuing uncertainty. We continue to closely monitor and manage our office portfolio for elevated levels of credit risk given the ongoing shift in office demand.

At March 31, 2023, our outstanding loan balances in the office portfolio totaled $\$ 8.9$ billion, or $2.7 \%$ of total loans, while additional unfunded loan commitments totaled $\$ 0.4$ billion. Nonperforming loans totaled $3.5 \%$ of total office loans outstanding at March 31, 2023, while criticized loans totaled $20.0 \%$ of this portfolio. At March 31, 2023, $0.2 \%$ of total office loans outstanding were 30 or more days delinquent. We have established reserves against these loans that we believe appropriately reflect the expected credit losses in the portfolio as of March 31, 2023.

Our office portfolio is well diversified geographically across our coast-to-coast franchise. From a tenancy category perspective, 58\% of this portfolio represents multi-tenant properties at March 31, 2023, which is an area where we have noted increased stress. The remaining $42 \%$ of the portfolio is comprised of single-tenant, government tenant, and medical office tenant.

## Consumer

## Residential Real Estate

Residential real estate loans primarily consisted of residential mortgage loans at both March 31, 2023 and December 31, 2022.
We obtain loan attributes at origination, including FICO scores and LTVs, and we update these and other credit metrics at least quarterly. We track borrower performance monthly. We also segment the mortgage portfolio into pools based on product type (e.g., nonconforming or conforming). This information is used for internal reporting and risk management. As part of our overall risk analysis and monitoring, we also segment the portfolio based upon loan delinquency, nonperforming status, modification and bankruptcy status, FICO scores, LTV and geographic concentrations. Loan performance is evaluated by source originators and loan servicers.

The following table presents certain key statistics related to our residential real estate portfolio:

We originate residential mortgage loans nationwide through our national mortgage business as well as within our branch network. Residential mortgage loans underwritten to agency standards, including conforming loan amount limits, are typically sold with servicing retained by us. We also originate nonconforming residential mortgage loans that do not meet agency standards, which we retain on our balance sheet. Our portfolio of originated nonconforming residential mortgage loans totaled $\$ 40.9$ billion at March 31, 2023 with $44 \%$ located in California. Comparable amounts at December 31, 2022 were $\$ 40.6$ billion and $44 \%$, respectively.

## Home Equity

Home equity loans comprised $\$ 19.9$ billion of home equity lines of credit and $\$ 6.3$ billion of closed-end home equity installment loans at March 31, 2023. Comparable amounts were $\$ 19.5$ billion and $\$ 6.5$ billion as of December 31, 2022, respectively. Home equity lines of credit are a variable interest rate product with fixed rate conversion options available to certain borrowers.

Similar to residential real estate loans, we track borrower performance of this portfolio on a monthly basis. We also segment the population into pools based on product type (e.g., home equity loans, brokered home equity loans, home equity lines of credit, or brokered home equity lines of credit) and track the historical performance of any related mortgage loans regardless of whether we hold such liens. This information is used for internal reporting and risk management. As part of our overall risk analysis and monitoring, we also segment the portfolio based upon loan delinquency, nonperforming status, modification and bankruptcy status, FICO scores, LTV, lien position and geographic concentration.

The credit performance of the majority of the home equity portfolio where we hold the first lien position is superior to the portion of the portfolio where we hold the second lien position but do not hold the first lien. Lien position information is generally determined at the time of origination and monitored on an ongoing basis for risk management purposes. We use a third-party service provider to obtain updated loan information, including lien and collateral data that is aggregated from public and private sources.

The following table presents certain key statistics related to our home equity portfolio:

## Automobile

Auto loans comprised $\$ 13.8$ billion in the indirect auto portfolio and $\$ 1.1$ billion in the direct auto portfolio as of March 31, 2023. Comparable amounts as of December 31, 2022 were $\$ 13.7$ billion and $\$ 1.1$ billion, respectively. The indirect auto portfolio consists of loans originated primarily through franchised dealers, including from expansion into new markets. This business is strategically aligned with our core retail banking business.

The following table presents certain key statistics related to our indirect and direct auto portfolios:

## Table 20: Auto Loan Statistics

(a) Weighted-averages calculated for the twelve months ended March 31, 2023 and December 31, 2022, respectively.
(b) Calculated using the auto enhanced FICO scale.

We continue to focus on borrowers with strong credit profiles as evidenced by the weighted-average loan origination FICO scores noted in Table 20. We offer both new and used auto financing to customers through our various channels. At March 31, 2023, the portfolio balance was composed of $48 \%$ new vehicle loans and $52 \%$ used vehicle loans. Comparable amounts at December 31, 2022 were $50 \%$ and $50 \%$, respectively.

The auto loan portfolio's performance is measured monthly, including updated collateral values that are obtained monthly and updated FICO scores that are obtained at least quarterly. For internal reporting and risk management, we analyze the portfolio by product channel and product type and regularly evaluate default and delinquency experience. As part of our overall risk analysis and monitoring, we segment the portfolio by geography, channel, collateral attributes and credit metrics which include FICO score, LTV and term.

## Nonperforming Assets and Loan Delinquencies

## Nonperforming Assets

Nonperforming assets include nonperforming loans and leases for which ultimate collectability of the full amount of contractual principal and interest is not probable and include nonperforming loans whose terms were modified as a result of a borrower's financial difficulty and PCD loans, OREO and foreclosed assets. Loans held for sale, certain government insured or guaranteed loans and loans accounted for under the fair value option are excluded from nonperforming loans. See Note 1 Accounting Policies of this Report for details on our nonaccrual policies.

The following table presents a summary of nonperforming assets by major category:

## Table 21: Nonperforming Assets by Type

| Allowance for credit losses to nonperforming loans (c) |  | 269 \% |  | 274 \% |  |  |  |

(a) In connection with the adoption of ASU 2022-02 Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures, nonperforming loans as of March 31, 2023 include certain loans where terms were modified as a result of a borrower's financial difficulty. Prior period amounts included nonperforming TDRs, for which accounting guidance was eliminated effective January 1, 2023. See Note 1 Accounting Policies and the Loan Modifications to Borrowers Experiencing Financial Difficulty section of Note 3 Loans and Related Allowance for more information on our adoption of this ASU.
(b) Excludes most unsecured consumer loans and lines of credit, which are charged off after 120 to 180 days past due and are not placed on nonperforming status.
(c) Calculated excluding allowances for investment securities and other financial assets.

The following table provides details on the change in nonperforming assets for the three months ended March 31, 2023 and 2022:

## Table 22: Change in Nonperforming Assets

| In millions | 2023 | 2022 |  |
| :--- | ---: | ---: | ---: |
| January 1 | $\$$ | 2,019 | $\$$ |
| New nonperforming assets | 2,506 |  |  |
| Charge-offs and valuation adjustments | $(122)$ | 342 |  |
| Principal activity, including paydowns and payoffs | $(172)$ | $(274)$ |  |
| Asset sales and transfers to loans held for sale | $(46)$ | $(21)$ |  |
| Returned to performing status | $(83)$ | $(171)$ |  |
| March 31 | $\$$ | 2,048 | $\$$ |

As of March 31, 2023, approximately $98 \%$ of total nonperforming loans were secured by collateral, which lessened reserve requirements and is expected to reduce credit losses.

## Loan Delinquencies

We regularly monitor the level of loan delinquencies and believe these levels may be a key indicator of credit quality in our loan portfolio. Measurement of delinquency status is based on the contractual terms of each loan. Loans that are 30 days or more past due in terms of payment are considered delinquent. Loan delinquencies include government insured or guaranteed loans, loans accounted for under the fair value option and PCD loans. Amounts exclude loans held for sale.

We manage credit risk based on the risk profile of the borrower, repayment sources, underlying collateral, and other support given current events, economic conditions and expectations. We refine our practices to meet the changing environment resulting from rising inflation levels, labor-related supply chain pressures, higher interest rates and structural and secular changes fostered by the pandemic. To mitigate losses and enhance customer support, we offer loan modifications and collection programs to assist our customers. Under

26 The PNC Financial Services Group, Inc. - Form 10-Q
the CARES Act credit reporting rules, certain loans modified due to COVID-19 related hardships are not being reported as past due as of March 31, 2023 and December 31, 2022 based on the contractual terms of the loan, even where borrowers may not be making payments on their loans during the modification period.

The following table presents a summary of accruing loans past due by delinquency status:
Table 23: Accruing Loans Past Due (a)

| Dollars in millions | Amount |  |  |  |  |  |  | \% of Total Loans Outstanding |  |

| Accruing loans past due 90 days or more |  | 456 |  | 482 |  | (26) | (5)\% | 0.14 \% | 0.15 \% |
| Total accruing loans past due | \$ | 1,326 | \$ | 1,490 | \$ | (164) | (11)\% | 0.41 \% | 0.46 \% |

(a) Past due loan amounts include government insured or guaranteed loans of $\$ 0.4$ billion at both March 31, 2023 and December 31, 2022.

The decrease in accruing loans past due from December 31, 2022 was the result of lower delinquencies in both the consumer and commercial portfolios.

Accruing loans past due 90 days or more continue to accrue interest because they are (i) well secured by collateral and are in the process of collection, (ii) managed in homogeneous portfolios with specified charge-off timeframes adhering to regulatory guidelines, or (iii) certain government insured or guaranteed loans. As such, they are excluded from nonperforming loans.

## Loan Modifications

We provide relief to our customers experiencing financial hardships through a variety of solutions. Commercial loan and lease modifications are based on each individual borrower's situation, while consumer loan modifications are evaluated under our hardship relief programs.

On January 1, 2023, we adopted ASU 2022-02 Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures, which eliminates the accounting guidance for TDRs and enhances the disclosure requirements for certain loan modifications when a borrower is experiencing financial difficulty. Refer to Note 1 Accounting Policies and Note 3 Loans and Related Allowance for Credit Losses for additional information on our adoption of this ASU.

## Allowance for Credit Losses

Our determination of the ACL is based on historical loss and performance experience, current economic conditions, reasonable and supportable forecasts of future conditions and other relevant factors, including current borrower and/or transaction characteristics. We maintain the ACL at an appropriate level for expected losses on our existing investment securities, loans, equipment finance leases, trade receivables and other financial assets and off-balance sheet credit exposures and determine this allowance based on assessments of the remaining estimated contractual term as of the balance sheet date.

See Note 1 Accounting Policies for additional discussion of our ACL, including details of our methodologies. Also see the Critical Accounting Estimates and Judgments section of this Report for further discussion of the assumptions used in the determination of the ACL as of March 31, 2023.

The following table summarizes our ACL related to loans:

Total net charge-offs increased $\$ 58$ million, or $42 \%$, for the first quarter of 2023 compared to the same period in 2022. The increase in the comparison was attributable to higher net charge-offs in our commercial portfolio, most notably within the commercial and industrial loan class, partially offset by lower consumer net charge-offs.

See Note 1 Accounting Policies in our 2022 Form 10-K and Note 3 Loans and Related Allowance for Credit Losses of this Report for additional information.

## Liquidity and Capital Management

Liquidity risk, including our liquidity monitoring measures and tools, is described in further detail in the Liquidity and Capital Management section of our 2022 Form 10-K.

One of the ways we monitor our liquidity is by reference to the LCR, a regulatory minimum liquidity requirement designed to ensure that covered banking organizations maintain an adequate level of liquidity to meet net liquidity needs over the course of a hypothetical 30-day stress scenario. PNC and PNC Bank calculate the LCR daily and are required to maintain a regulatory minimum of $100 \%$. The LCR for each of PNC and PNC Bank exceeded the regulatory minimum requirement throughout the first quarter of 2023. Fluctuations in our average LCR result from changes to the components of the calculation, including high-quality liquid assets and net cash outflows, as a result of ongoing business activity.

The NSFR is designed to measure the stability of the maturity structure of assets and liabilities of banking organizations over a oneyear time horizon. PNC and PNC Bank calculate the NSFR on an ongoing basis and are required to maintain a regulatory minimum of $100 \%$. The NSFR for each of PNC and PNC Bank exceeded the regulatory minimum requirement throughout the first quarter of 2023.

We provide additional information regarding regulatory liquidity requirements and their potential impact on us in the Supervision and Regulation section of Item 1 Business and Item 1A Risk Factors of our 2022 Form 10-K.

## Sources of Liquidity

Our largest source of liquidity on a consolidated basis is the customer deposit base generated by our banking businesses. These deposits provide relatively stable and low-cost funding. Total deposits increased to $\$ 436.8$ billion at March 31, 2023 from $\$ 436.3$ billion at December 31, 2022, and included a continued shift from noninterest-bearing to interest-bearing deposit products, as interest rates have risen. As of March 31, 2023, uninsured deposits represented approximately $43 \%$ of our total deposit base. The majority of our uninsured deposits are related to commercial operating and relationship accounts, which we define as commercial deposit customers who utilize two or more PNC products. See the Funding Sources portion of the Consolidated Balance Sheet Review and Business Segments Review sections of this Financial Review for additional information on our deposits and related strategies. Additionally, certain liquid assets as well as unused borrowing capacity from a number of sources are also available to manage our liquidity position.

At March 31, 2023, our liquid assets consisted of cash and due from banks and short-term investments (federal funds sold, resale agreements, trading securities and interest-earning deposits with banks) totaling $\$ 43.5$ billion and securities available for sale totaling $\$ 43.2$ billion. The level of liquid assets fluctuates over time based on many factors, including market conditions, loan and deposit growth and balance sheet management activities. PNC pledges securities as collateral to secure public and trust deposits, repurchase agreements and for other purposes. Pledged securities included $\$ 28.1$ billion of securities held to maturity and an immaterial amount of available for sale and trading securities.

We also obtain liquidity through various forms of funding, including long-term debt (senior notes, subordinated debt and FHLB borrowings) and short-term borrowings (securities sold under repurchase agreements, commercial paper and other short-term borrowings). See the Funding Sources section of the Consolidated Balance Sheet Review in this Financial Review, Note 7 Borrowed Funds included in this Report and Note 10 Borrowed Funds in the Notes To Consolidated Financial Statements included in Item 8 of our 2022 Form 10-K for additional information related to our borrowings.

Total senior and subordinated debt, on a consolidated basis, increased due to the following activity:

## Table 26: Senior and Subordinated Debt

| In billions |  | 2023 |
| :--- | :---: | :---: |
| January 1 | 23.0 |  |
| Issuances | $\$$ | 2.7 |
| Calls and maturities | $(0.8)$ |  |
| Other | 0.4 |  |
| March 31 | $\$ 2.3$ |  |

## Bank Liquidity

Under PNC Bank's 2014 bank note program, as amended, PNC Bank may from time to time offer up to $\$ 40.0$ billion aggregate principal amount outstanding at any one time of its unsecured senior and subordinated notes with maturity dates more than nine months (in the case of senior notes) and five years or more (in the case of subordinated notes) from their date of issue. At March 31, 2023, PNC Bank had $\$ 7.9$ billion of notes outstanding under this program of which $\$ 4.8$ billion were senior notes and $\$ 3.1$ billion were subordinated notes.

PNC Bank maintains additional secured borrowing capacity with the FHLB-Pittsburgh and through the Federal Reserve Bank discount window. The Federal Reserve Bank, however, is not viewed as a primary means of funding our routine business activities, but rather as a potential source of liquidity in a stressed environment or during a market disruption. At March 31, 2023, our unused secured borrowing capacity at the FHLB-Pittsburgh and the Federal Reserve Bank totaled $\$ 72.3$ billion.

In March 2023, following the failures of Silicon Valley Bank and Signature Bank, the Federal Reserve created a new Bank Term Funding Program as an additional source of liquidity against high-quality securities. The program offers loans of up to one year in length to eligible depository institutions, including PNC Bank, pledging certain qualifying assets as collateral, provided that such collateral was owned by the borrower as of March 12, 2023. See the Recent Regulatory Developments section in this Financial Review and Item 1A Risk Factors for further detail on the risks related to the recent turmoil in the financial services industry and responsive measures to manage it.

PNC Bank has the ability to offer up to $\$ 10.0$ billion of its commercial paper to provide additional liquidity. At March 31, 2023, there were no issuances outstanding under this program.

Additionally, PNC Bank may also access funding from the parent company through deposits placed at the bank, or through issuing its senior unsecured notes.

## Parent Company Liquidity

In addition to managing liquidity risk at the bank level, we monitor the parent company's liquidity. The parent company's contractual obligations consist primarily of debt service related to parent company borrowings and funding non-bank affiliates. Additionally, the parent company maintains liquidity to fund discretionary activities such as paying dividends to our shareholders, share repurchases and acquisitions.

At March 31, 2023, available parent company liquidity totaled $\$ 13.9$ billion. Parent company liquidity is held in intercompany cash and investments. For investments with longer durations, the related maturities are aligned with scheduled cash needs, such as the maturity of parent company debt obligations.

The principal source of parent company liquidity is the dividends or other capital distributions it receives from PNC Bank, which may be impacted by the following:

- Bank-level capital needs,
- Laws, regulations and the results of supervisory activities,
- Corporate policies,
- Contractual restrictions, and
- Other factors.

There are statutory and regulatory limitations on the ability of a national bank to pay dividends or make other capital distributions or to extend credit to the parent company or its non-bank subsidiaries. The amount available for dividend payments by PNC Bank to the parent company without prior regulatory approval was $\$ 3.6$ billion at March 31, 2023. See Note 20 Regulatory Matters in the Notes To Consolidated Financial Statements included in Item 8 of our 2022 Form 10-K for further discussion of these limitations.

In addition to dividends from PNC Bank, other sources of parent company liquidity include cash and investments, as well as dividends and loan repayments from other subsidiaries and dividends or distributions from equity investments. We can also generate liquidity for the parent company and PNC's non-bank subsidiaries through the issuance of debt and equity securities, including certain capital instruments, in public or private markets and commercial paper. Authorized by the Board of Directors, the parent company has the ability to offer up to $\$ 5.0$ billion of commercial paper to provide additional liquidity. At March 31, 2023, there were no commercial paper issuances outstanding.

The following table details Parent Company note issuances in the first quarter of 2023:
Table 27: Parent Company Notes Issued

| Issuance Date | Amount | Description of Issuance |
| :--- | :--- | :--- |
| January 19, 2023 | $\$ 1.25$ billion | \$1.25 billion of senior fixed-to-floating green bond notes with a maturity date of January 26, 2027. Parent company senior and subordinated debt outstanding totaled $\$ 16.0$ billion and $\$ 13.1$ billion at March 31, 2023 and December 31, 2022, respectively.

## Contractual Obligations and Commitments

We have contractual obligations representing required future payments on borrowed funds, time deposits, leases, pension and postretirement benefits and purchase obligations. See the Liquidity and Capital Management portion of the Risk Management section of our 2022 Form 10-K for more information on these future cash outflows. Additionally, in the normal course of business we have various commitments outstanding, certain of which are not included on our Consolidated Balance Sheet. We provide information on our commitments in Note 8 Commitments.

## Credit Ratings

PNC's credit ratings affect the cost and availability of short and long-term funding, collateral requirements for certain derivative instruments and the ability to offer certain products.

In general, rating agencies base their ratings on many quantitative and qualitative factors, including capital adequacy, liquidity, asset quality, business mix, level and quality of earnings, and the current legislative and regulatory environment, including implied government support. A decrease, or potential decrease, in credit ratings could impact access to the capital markets and/or increase the cost of debt, and thereby adversely affect liquidity and financial condition.

The following table presents credit ratings for PNC and PNC Bank as of March 31, 2023:

## Table 28: Credit Ratings for PNC and PNC Bank

## Capital Management

Detailed information on our capital management processes and activities is included in the Supervision and Regulation section of Item 1 of our 2022 Form 10-K.

We manage our funding and capital positions by making adjustments to our balance sheet size and composition, issuing or redeeming debt, issuing equity or other capital instruments, executing treasury stock transactions and capital redemptions or repurchases, and managing dividend policies and retaining earnings.

On February 7, 2023, PNC issued 1,500,000 depositary shares each representing $1 / 100$ th ownership in a share of $6.250 \%$ fixed-rate reset non-cumulative perpetual preferred stock, Series W, with a par value of $\$ 1$ per share.

In the first quarter of 2023, PNC returned $\$ 1.0$ billion of capital to shareholders, reflecting $\$ 0.6$ billion of dividends on common shares and $\$ 0.4$ billion of common share repurchases, representing 2.4 million shares. Consistent with the SCB framework, which allows for capital return of amounts in excess of the SCB minimum levels, our Board of Directors has authorized a repurchase framework under the previously approved repurchase program of up to 100 million common shares, of which approximately $47 \%$ were still available for repurchase at March 31, 2023. Due to recent market volatility and increased economic uncertainty, share repurchase activity is expected to be reduced in the second quarter of 2023 compared to recent quarters. PNC continues to evaluate and may adjust share repurchase activity, as actual amounts and timing are dependent on market and economic conditions as well as other factors. PNC's SCB for the four-quarter period that began October 1, 2022 is $2.9 \%$.

On April 3, 2023, the PNC Board of Directors declared a quarterly cash dividend on common stock of $\$ 1.50$ per share payable on May 5, 2023.

On April 5, 2023, PNC submitted its 2023 Capital Plan to the Federal Reserve under the Federal Reserve's CCAR process. We anticipate that the Federal Reserve will provide the updated SCB requirement on a preliminary basis to PNC by June 30, 2023. The updated SCB will become effective October 1, 2023. Refer to the Supervision and Regulation section in our 2022 Form 10-K for additional information on CCAR and the SCB framework.

| Leverage (g) |  | 8.5 \% |  | 8.4 \% |
| Supplementary leverage ratio (e) |  | 7.2 \% |  | 7.1 \% |

(a) The ratios are calculated to reflect PNC's election to adopt the CECL five-year transition provisions. Effective for the first quarter 2022, PNC is now in the three-year transition period and the full impact of the CECL standard is being phased-in to regulatory capital through December 31, 2024.
(b) The ratios are calculated to reflect the full impact of CECL and excludes the benefits of the optional five-year transition.
(c) As permitted, PNC and PNC Bank have elected to exclude AOCI related to both available for sale securities and pension and other post-retirement plans from CET1 capital.
(d) Basel III standardized approach risk-weighted assets are based on the Basel III standardized approach rules and include credit and market risk-weighted assets.
(e) The Supplementary leverage ratio is calculated based on Tier 1 capital divided by Supplementary leverage exposure, which takes into account the quarterly average of both on balance sheet assets as well as certain off-balance sheet items, including loan commitments and potential future exposure under derivative contracts.
(f) All ratios are calculated using the regulatory capital methodology applicable to PNC and calculated based on the standardized approach.
(g) Leverage ratio is calculated based on Tier 1 capital divided by Average quarterly adjusted total assets.

PNC's regulatory risk-based capital ratios are calculated using the standardized approach for determining risk-weighted assets. Under the standardized approach for determining credit risk-weighted assets, exposures are generally assigned a pre-defined risk weight. Exposures to high volatility commercial real estate, nonaccruals, financial difficulty modifications, past due exposures and equity exposures are generally subject to higher risk weights than other types of exposures.

The regulatory agencies have adopted a rule permitting certain banks, including PNC, to delay the estimated impact on regulatory capital stemming from implementing CECL. CECL's estimated impact on CET1 capital, as defined by the rule, is the change in retained earnings at adoption plus or minus $25 \%$ of the change in CECL ACL at the balance sheet date, excluding the allowance for PCD loans, compared to CECL ACL at adoption. Effective for the first quarter of 2022, PNC is now in the three-year transition period, and the full impact of the CECL standard is being phased-in to regulatory capital through December 31, 2024. See additional discussion of this rule in the Supervision and Regulation section of Item 1 Business and Item 1A Risk Factors of our 2022 Form 10-K.

At March 31, 2023, PNC and PNC Bank were considered "well capitalized," based on applicable U.S. regulatory capital ratio requirements. To qualify as "well capitalized," PNC must have Basel III capital ratios of at least 6\% for Tier 1 risk-based capital and $10 \%$ for Total risk-based capital, and PNC Bank must have Basel III capital ratios of at least $6.5 \%$ for Common equity Tier 1 riskbased capital, $8 \%$ for Tier 1 risk-based capital, $10 \%$ for Total risk-based capital and a Leverage ratio of at least $5 \%$.

Federal banking regulators have stated that they expect the largest U.S. BHCs, including PNC, to have a level of regulatory capital well in excess of the regulatory minimum and have required the largest U.S. BHCs, including PNC, to have a capital buffer sufficient
to withstand losses and allow them to meet the credit needs of their customers through estimated stress scenarios. We seek to manage our capital consistent with these regulatory principles, and we believe that our March 31, 2023 capital levels were aligned with them.

We provide additional information regarding regulatory capital requirements and some of their potential impacts on us in the Supervision and Regulation section of Item 1 Business, Item 1A Risk Factors and Note 20 Regulatory Matters in the Notes To Consolidated Financial Statements in Item 8 of our 2022 Form 10-K.

## Market Risk Management

See the Market Risk Management portion of the Risk Management Section in our 2022 Form 10-K for additional discussion regarding market risk.

## Market Risk Management - Interest Rate Risk

Interest rate risk results primarily from our traditional banking activities of gathering deposits and extending loans. Many factors, including economic and financial conditions, movements in interest rates and consumer preferences, affect the difference between the interest that we earn on assets and the interest that we pay on liabilities and the level of our noninterest-bearing funding sources. Due to the repricing term mismatches and embedded options inherent in certain of these products, changes in market interest rates not only affect expected near-term earnings, but also the economic values of these assets and liabilities.

Our Asset and Liability Management group centrally manages interest rate risk as prescribed in our risk management policies, which are approved by management's Asset and Liability Committee and the Risk Committee of the Board of Directors.

Sensitivity results and market interest rate benchmarks for the first quarters of 2023 and 2022 follow:

## Table 30: Interest Sensitivity Analysis

|  | First Quarter 2023 | First Quarter 2022 |
| :---: | :---: | :---: |
| Net Interest Income Sensitivity Simulation |  |  |
| Effect on net interest income in first year from gradual interest rate change over the following 12 months of: |  |  |
| 100 basis point increase | 0.5 \% | 4.6 \% |
| 100 basis point decrease (a) | (0.6)\% | N/A |
| Effect on net interest income in second year from gradual interest rate change over the preceding 12 months of: |  |  |
| 100 basis point increase | 1.3 \% | 7.3 \% |
| 100 basis point decrease (a) | (1.8)\% | N/A |

(a) Due to the prevailing low interest rate environment post pandemic, the reporting of Net interest income sensitivities for the 100 basis point decrease scenario was suspended from the first quarter of 2020 to the first quarter of 2022.

In addition to measuring the effect on net interest income assuming parallel changes in current interest rates, we routinely simulate the effects of a number of nonparallel interest rate environments. Table 31 reflects the percentage change in net interest income over the next two 12-month periods, assuming (i) the PNC Economist's most likely rate forecast, (ii) implied market forward rates and (iii) yield curve slope flattening (a 100 basis point yield curve slope flattening between one-month and ten-year rates superimposed on current base rates) scenario.

All changes in forecasted net interest income are relative to results in a base rate scenario where current market rates are assumed to remain unchanged over the forecast horizon.

## Table 31: Net Interest Income Sensitivity to Alternative Rate Scenarios

|  | March 31, 2023 |  |  |
| :---: | :---: | :---: | :---: |
|  | PNC <br> Economist | Market <br> Forward | Slope Flattening |
| First year sensitivity | (0.2)\% | 1.9 \% | (0.6)\% |
| Second year sensitivity | 1.3 \% | 2.1 \% | (2.8)\% |

When forecasting net interest income, we make assumptions about interest rates and the shape of the yield curve, the volume and characteristics of new business and the behavior of existing on- and off-balance sheet positions. These assumptions determine the future level of simulated net interest income in the base interest rate scenario and the other interest rate scenarios presented in Tables 30 and 31 . These simulations assume that as assets and liabilities mature, they are replaced or repriced at then-current market rates.

The following graph presents the SOFR curves for the base rate scenario and each of the alternate scenarios one year forward:
Table 32: Alternate Interest Rate Scenarios: One Year Forward

The first quarter 2023 interest sensitivity analyses indicate that our Consolidated Balance Sheet is positioned to benefit from an increase in interest rates and an upward sloping interest rate yield curve. We believe that we have the deposit funding base and balance sheet flexibility to adjust, where appropriate and permissible, to changing interest rates and market conditions.

## LIBOR Transition

The scheduled cessation of the requirement that banks submit rates for the calculation of LIBOR after June 30, 2023 presents risks to the financial instruments originated, held or serviced by PNC that use LIBOR as a reference rate. For more discussion regarding the transition from LIBOR, see Item 1 Risk Factors and the Risk Management section in Item 7 of our 2022 Form 10-K.

As of December 31, 2021, PNC Bank ceased entering into new contracts with a LIBOR reference rate, except on a limited basis, as permissible. PNC is offering conforming adjustable-rate mortgages using SOFR instead of USD LIBOR, in line with Fannie Mae and Freddie Mac requirements, nonconforming adjustable-rate residential mortgages using SOFR and private education loans using Prime. Alternative rates, primarily SOFR and BSBY, are currently offered to our corporate and commercial customers. The focus for all lines of business is planning for the cessation event in June 2023 and client communication and outreach.

The Federal Reserve adopted a final rule effective February 27, 2023 that implements the Adjustable Interest Rate LIBOR Act (the "LIBOR Act") by identifying benchmark rates based on SOFR that will replace LIBOR in certain financial contracts after June 30, 2023. The final rule identifies replacement benchmark rates based on SOFR to replace overnight, one-month, three-month, six-month, and 12 -month LIBOR contracts subject to the LIBOR Act. These contracts include U.S. contracts that do not mature before publication of LIBOR ends June 30, 2023, and that lack adequate fallback provisions that would replace LIBOR with a practicable replacement benchmark rate.

In addition to the previously announced transition of PNC's Series O, Series R and Series S preferred stock to three-month CME Term SOFR plus a tenor spread adjustment of $0.26161 \%$ per annum ("Adjusted 3-Month CME Term SOFR"), PNC will also rely on the LIBOR Act and its implementing regulations to transition the calculation of interest on the junior subordinated debentures issued by The PNC Financial Services Group, Inc. and owned by PNC Capital Trust C, a wholly-owned finance subsidiary of The PNC Financial Services Group, Inc., as well as the calculation of distributions on the trust preferred securities issued by PNC Capital Trust C. Adjusted 3-Month CME Term SOFR will be the replacement reference rate and will be used with respect to interest or distribution periods, as applicable, with determination dates occurring after June 30, 2023. Further, two series of debt securities issued by a predecessor banking subsidiary, National City Bank, will also rely on the LIBOR Act to transition the calculation of interest. The National City Bank Notes due April 1, 2043 will use Adjusted 3-Month CME Term SOFR as the replacement reference rate for interest periods with determination dates occurring after June 30, 2023. The National City Bank Notes due April 1, 2037 will use onemonth CME Term SOFR plus a tenor spread adjustment of $0.11448 \%$ per annum as the replacement reference rate with respect to interest periods with determination dates occurring after June 30, 2023.

PNC is actively working to address other contracts without sufficient fallbacks in advance of LIBOR cessation; however, PNC does expect to leverage the LIBOR Act for its intended purpose to address difficult exposures when necessary. We anticipate these exposures to be a small subset of our overall portfolio.

## Market Risk Management - Customer-Related Trading Risk

We engage in fixed income securities, derivatives and foreign exchange transactions to support our customers' investing and hedging activities. These transactions, related hedges and the credit valuation adjustment related to our customer derivatives portfolio are marked-to-market daily and reported as customer-related trading activities. We do not engage in proprietary trading of these products.

We use VaR as the primary means to measure and monitor market risk in customer-related trading activities. VaR is used to estimate the probability of portfolio losses based on the statistical analysis of historical market risk factors. VaR is calculated for each of the portfolios that comprise our customer-related trading activities of which the majority are covered positions as defined by the Market Risk Rule. VaR is computed with positions and market risk factors updated daily to ensure each portfolio is operating within its acceptable limits.

See the Market Risk Management - Customer-Related Trading Risk section of our 2022 Form 10-K for more information on our models used to calculate VaR and our backtesting process. Customer-related trading revenue was $\$ 84$ million for the three months ended March 31, 2023, compared to $\$ 88$ million for the three months ended March 31, 2022. The decrease was mainly due to lower derivative client sales revenue, offset by increases in client related trading results.

## Market Risk Management - Equity And Other Investment Risk

Equity investment risk is the risk of potential losses associated with investing in both private and public equity markets. In addition to extending credit, taking deposits, underwriting securities and trading financial instruments, we make and manage direct investments in a variety of transactions, including management buyouts, recapitalizations and growth financings in a variety of industries. We also have investments in affiliated and non-affiliated funds that make similar investments in private equity, consistent with regulatory limitations. The economic and/or book value of these investments and other assets are directly affected by changes in market factors.

Various PNC business units manage our equity and other investment activities. Our businesses are responsible for making investment decisions within the approved policy limits and associated guidelines.

A summary of our equity investments follows:

## Table 33: Equity Investments Summary

|  |  | March 31 |  | December 31 | Change |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Dollars in millions |  | 2023 | 2022 | $\$$ | $\%$ |  |
| Tax credit investments | $\$$ | 4,056 | $\$$ | 4,308 | $\$$ | $(252)$ |
| Private equity and other |  | 4,267 | $(6) \%$ |  |  |  |
| Total | $\$$ | 8,323 | $\$$ | 8,129 | 138 | $3 \%$ |

## Tax Credit Investments

Included in our equity investments are direct tax credit investments and equity investments held by consolidated entities. These tax credit investment balances included unfunded commitments totaling $\$ 2.4$ billion and $\$ 2.5$ billion at March 31, 2023 and December 31, 2022, respectively. These unfunded commitments are included in Other liabilities on our Consolidated Balance Sheet.

Note 5 Loan Sale and Servicing Activities and Variable Interest Entities in the Notes To Consolidated Financial Statements in Item 8 of our 2022 Form 10-K has further information on tax credit investments.

## Private Equity and Other

The largest component of our other equity investments is our private equity portfolio. The private equity portfolio is an illiquid portfolio consisting of mezzanine and equity investments that vary by industry, stage and type of investment. Private equity investments carried at estimated fair value totaled $\$ 2.0$ billion and $\$ 1.8$ billion at March 31, 2023 and December 31, 2022, respectively. As of March 31, 2023, $\$ 1.8$ billion was invested directly in a variety of companies and $\$ 0.2$ billion was invested indirectly through various private equity funds.

Included in our other equity investments are Visa Class B common shares, which are recorded at cost. Visa Class B common shares that we own are transferable only under limited circumstances until they can be converted into shares of the publicly-traded Class A common shares, which cannot happen until the resolution of the pending interchange litigation. Based upon the March 31, 2023 per share closing price of $\$ 225.46$ for a Visa Class A common share, the estimated value of our total investment in the Class B common shares was approximately $\$ 1.3$ billion at the current conversion rate of Visa B shares to Visa A shares, while our cost basis was insignificant. See Note 15 Fair Value and Note 21 Legal Proceedings in the Notes To Consolidated Financial Statements in Item 8 of our 2022 Form 10-K for additional information regarding our Visa agreements. The estimated value does not represent fair value of the Visa B common shares given the shares' limited transferability and the lack of observable transactions in the marketplace.

36 The PNC Financial Services Group, Inc. - Form 10-Q

We also have certain other equity investments, the majority of which represent investments in affiliated and non-affiliated funds with both traditional and alternative investment strategies. Net gains related to these investments were $\$ 21$ million for the three months ended March 31, 2023 and \$20 million for the three months ended March 31, 2022.

## Financial Derivatives

We use a variety of financial derivatives as part of the overall asset and liability risk management process to help manage exposure to market (primarily interest rate) and credit risk inherent in our business activities. We also enter into derivatives with customers to facilitate their risk management activities.

Financial derivatives involve, to varying degrees, market and credit risk. Derivatives represent contracts between parties that usually require little or no initial net investment and result in one party delivering cash or another type of asset to the other party based on a notional and an underlying as specified in the contract. Therefore, cash requirements and exposure to credit risk are significantly less than the notional amount on these instruments.

Further information on our financial derivatives is presented in Note 1 Accounting Policies, Note 15 Fair Value and Note 16 Financial Derivatives in our Notes To Consolidated Financial Statements in Item 8 of our 2022 Form 10-K and in Note 11 Fair Value and Note 12 Financial Derivatives.

Not all elements of market and credit risk are addressed through the use of financial derivatives, and such instruments may be ineffective for their intended purposes due to unanticipated market changes, among other reasons.

## Recent Regulatory Developments

## Bank Failures and Resolutions

Following the bank failures in March 2023 of Silicon Valley Bank, Santa Clara, California, and Signature Bank, New York, New York, and after recommendations by the boards of the FDIC and Federal Reserve and a determination by the Secretary of the Treasury in consultation with the President, the FDIC invoked the systemic risk exception to certain resolution-related and Deposit Insurance Fund restrictions in order to fully protect all depositors of both institutions, including uninsured deposits. By law, any losses to the Deposit Insurance Fund to support uninsured depositors under the systemic risk exception must be recovered by one or more special assessments on insured depository institutions or depository institution holding companies, or both. The FDIC has not yet announced the amount or timeline of any special assessments.

The Federal Reserve also created a new Bank Term Funding Program as an additional source of liquidity against high-quality securities in order to make additional funding available to eligible depository institutions. This program offers loans of up to one year in length to eligible depository institutions pledging U.S. Treasuries, agency debt and mortgage-backed securities, and other qualifying assets as collateral, provided that such collateral was owned by the borrower as of March 12, 2023. These pledged assets will be valued at par under the Program. Eligible institutions can request advances under the Program at least through March 11, 2024.

## Other Developments

In February 2023, the CFPB issued a notice of proposed rulemaking to amend the rules under the Truth in Lending Act governing credit card late fees that could reduce credit card fee income for credit card issuers, including PNC Bank. Among other things, the proposed rule would lower the safe harbor dollar amount for credit card late fees that issuers can charge to $\$ 8$ regardless of whether the late payment is the initial or a subsequent late payment from $\$ 30$ for an initial late payment and $\$ 41$ for subsequent late payments. The proposal also would eliminate the inflation adjustment to the safe harbor and cap late fees at $25 \%$ of the consumer's required minimum payment. The proposal also seeks comment on, among other things, whether to eliminate the safe harbor or to require a grace period of 15 calendar days before a card issuer can impose a late fee.

In February 2023, the SEC proposed changes to the rules under the Investment Advisers Act of 1940 governing the custody of client assets that would increase the obligations of registered investment advisers, such as PNC Investments, PNC Capital Advisors, LLC, and PNC TC, LLC and impact PNC Bank in its role as custodian for the clients of registered investment advisers. Among other things, the proposal would expand the current custody rule to apply to additional advisory activities and all client assets held in advisory accounts. Investment advisers with custody of client assets would be required to maintain them with a qualified custodian and enter into a written agreement and receive certain assurances from the qualified custodian regarding custodial protections. Qualified custodians would be required to hold client cash off-balance sheet, potentially reducing the liquidity available for bank lending and other activities. The SEC also has proposed rules and rule changes that would impose new obligations on registered broker-dealers and registered investment advisers with respect to cybersecurity and safeguarding of customer information, as well as mandatory swing pricing of mutual fund shares and a hard close for transacting in fund shares that would fundamentally change current industry practices.

In March 2023, the CFPB finalized its rule to implement small business data collection under Section 1071 of the Dodd-Frank Act. The final rule introduces substantial data collection and reporting requirements for small business lenders, including PNC Bank, in connection with credit applications by small businesses, which impose significant compliance and operational risks and costs. Under
the final rule, PNC Bank must begin collecting certain prescribed information from small business credit applicants by no later than October 1, 2024, and begin reporting such data to the CFPB by June 1, 2025.

## Critical Accounting Estimates and Judgments

Our consolidated financial statements are prepared by applying certain accounting policies. Note 1 Accounting Policies in our 2022 Form 10-K describes the most significant accounting policies that we use. Certain of these policies require us to make estimates or economic assumptions that may vary under different assumptions or conditions, and such variations may significantly affect our reported results and financial position for the period or in future periods. The policies and judgments related to residential and commercial MSRs and Level 3 fair value measurements are described in Critical Accounting Estimates and Judgments in our 2022 Form 10-K. The following details the critical estimates and judgments around the ACL.

## Allowance for Credit Losses

We maintain the ACL at levels that we believe to be appropriate as of the balance sheet date to absorb expected credit losses on our existing investment securities, loans, equipment finance leases, other financial assets and unfunded lending related commitments, for the remaining contractual term of the assets or exposures, taking into consideration expected prepayments and estimated recoveries. Our determination of the ACL is based on historical loss and performance experience, as well as current borrower and transaction characteristics including collateral type and quality, current economic conditions, reasonable and supportable forecasts of future conditions and other relevant factors. We use methods sensitive to changes in economic conditions to interpret these factors and to estimate expected credit losses. We evaluate and, when appropriate, enhance the quality of our data and models and other methods used to estimate the ACL on an ongoing basis. We incorporate qualitative factors in the ACL that reflect our best estimate of expected losses that may not be adequately represented in our quantitative methods or economic assumptions. The major drivers of ACL estimates include, but are not limited to:

- Current economic conditions: Our forecast of expected losses depends on economic conditions as of the estimation date. As current economic conditions evolve, forecasted losses could be materially affected.
- Scenario weights and design: Our loss estimates are sensitive to the shape, direction and rate of change of macroeconomic forecasts and thus vary significantly between upside and downside scenarios. Change to probability weights assigned to these scenarios and timing of peak business cycles reflected by the scenarios could materially affect our loss estimates.
- Current borrower quality: Our forecast of expected losses depends on current borrower and transaction characteristics, including credit metrics and collateral type/quality. As borrower quality evolves, forecasted losses could be materially affected.
- Portfolio volume and mix: Changes to portfolio volume and mix could materially affect our estimates, as CECL reserves would be recognized upon origination or acquisition and derecognized upon paydown, maturity or sale.

For all assets and unfunded lending related commitments within the scope of the CECL standard, the applicable ACL is composed of one or a combination of the following components: (i) collectively assessed or pooled reserves, (ii) individually assessed reserves, and (iii) qualitative (judgmental) reserves. Our methodologies and key assumptions for each of these components are discussed in Note 1 Accounting Policies.

## Reasonable and Supportable Economic Forecast

Under the CECL standard, we are required to consider reasonable and supportable forecasts in estimating expected credit losses. For this purpose, we have established a framework that includes a three-year forecast period and the use of four economic scenarios with associated probability weights, which in combination create a forecast of expected economic outcomes. Credit losses estimated in our reasonable and supportable forecast period are sensitive to the shape and severity of the scenarios used and weights assigned to them.

To generate the four economic forecast scenarios we use a combination of quantitative macroeconomic models, other measures of economic activity and forward-looking expert judgment to forecast the distribution of economic outcomes over the reasonable and supportable forecast period. Each scenario is then given an associated probability (weight) in order to represent our current expectation within that distribution over the forecast period. This process is informed by current economic conditions, expected business cycle evolution and the expert judgment of PNC's RAC. This approach seeks to provide a reasonable representation of the forecast of expected economic outcomes and is used to estimate expected credit losses across a variety of loans and securities. Each quarter the scenarios are presented to RAC for approval, and the committee determines and approves CECL scenarios' weights for use for the current reporting period.

The scenarios used for the period ended March 31, 2023 reflect an increase in downside risk compared to December 31, 2022. The current outlook considers ongoing inflationary pressures, along with the projected impacts of the recent stress on the banking industry. Our most-likely expectation at March 31, 2023 is that the U.S. economy will be impacted by a mild recession in the second half of the year.

38 The PNC Financial Services Group, Inc. - Form 10-Q

We used a number of economic variables in our scenarios, with two of the most significant drivers being real GDP and the U.S. unemployment rate. The following table presents a comparison of these two economic variables based on the weighted-average scenario forecasts used in determining our ACL at March 31, 2023 and December 31, 2022.

Table 34: Key Macroeconomic Variables in CECL Weighted-Average Scenarios

|  | Assumptions as of March 31, 2023 |  |  |
| :---: | :---: | :---: | :---: |
|  | 2023 | 2024 | 2025 |
| U.S. real GDP (a) | 0.4\% | 0.3\% | 1.9\% |
| U.S. unemployment rate (b) | 4.1\% | 5.0\% | 4.4\% |
|  | Assumptions as of December 31, 2022 |  |  |
|  | 2023 | 2024 | 2025 |
| U.S. real GDP (a) | (0.4)\% | 1.4\% | 1.9\% |
| U.S. unemployment rate (b) | 4.9\% | 4.9\% | 4.4\% |

(a) Represents year-over-year growth (loss) rates.
(b) Represents quarterly average rate at December 31, 2023, 2024 and 2025, respectively.

Real GDP growth is expected to end 2023 at $0.4 \%$ on a weighted average basis, up from the $(0.4 \%)$ assumed at December 31, 2022 due primarily to stronger economic activity at the start of 2023. Growth then drops narrowly to $0.3 \%$ in 2024 , before jumping to $1.9 \%$ in 2025. In line with stronger-than-anticipated job growth at the start of 2023, the weighted-average projection of the unemployment rate is expected to end 2023 at $4.1 \%$, down from the $4.9 \%$ assumed at December 31, 2022. In line with the slowing in overall economic activity, the weighted average unemployment rate is expected to increase throughout 2023 and 2024, peaking at $5.0 \%$ by year-end 2024, and gradually improving to $4.4 \%$ by the fourth quarter of 2025 .

The current state of the economy reflects an environment with receding COVID-19 related risks, but heightened uncertainty remains due to structural and secular changes fostered by the pandemic for certain sectors of the economy combined with inflation, rising interest rates and ongoing labor-related supply chain pressures. As such, for both our commercial and consumer loan portfolios, PNC identified and performed significant analysis around segments impacted by such uncertainties to ensure our reserves are adequate, given our current macroeconomic expectations.

We believe the economic scenarios effectively reflect the distribution of potential economic outcomes. Additionally, through in-depth and granular analysis we have addressed reserve requirements for the specific populations most affected in the current environment. Through this approach, we believe the reserve levels appropriately reflect the expected credit losses in the portfolio as of the balance sheet date.

See the following for additional details on the components of our ACL:

- Note 2 Investment Securities and Note 3 Loans and Related Allowance for Credit Losses in this Report.

## Recently Issued Accounting Standards

| Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method - ASU 2023-02 <br> Issued March 2023 | - Required effective date of January 1, 2024; early adoption is permitted. <br> - The amendments in this Update must be applied on either a modified retrospective or a retrospective basis. <br> - The amendments in this Update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. <br> - A reporting entity makes an accounting policy election to apply the proportional amortization method on a tax-credit-program-by-tax-credit-program basis rather than electing to apply the proportional amortization method at the reporting entity level or to individual investments. | - We are currently evaluating when to adopt the amendments in ASU 2023-02 and the impact of the ASU on our consolidated results of operations and our consolidated financial position. |

## Recently Adopted Accounting Pronouncements

See Note 1 Accounting Policies regarding the impact of new accounting pronouncements that we have adopted.

## Internal Controls And Disclosure Controls And Procedures

As of March 31, 2023, we performed an evaluation under the supervision of and with the participation of our management, including the Chairman, President and Chief Executive Officer and the Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures and of changes in our internal control over financial reporting.

Based on that evaluation, our Chairman, President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) were effective as of March 31, 2023, and that there has been no change in PNC's internal control over financial reporting that occurred during the first quarter of 2023 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## Cautionary Statement Regarding Forward-Looking Information

We make statements in this Report, and we may from time to time make other statements, regarding our outlook for financial performance, such as earnings, revenues, expenses, tax rates, capital and liquidity levels and ratios, asset levels, asset quality, financial position, and other matters regarding or affecting us and our future business and operations, including our sustainability strategy, that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements are typically identified by words such as "believe," "plan," "expect," "anticipate," "see," "look," "intend," "outlook," "project," "forecast," "estimate," "goal," "will," "should" and other similar words and expressions.

Forward-looking statements are necessarily subject to numerous assumptions, risks and uncertainties, which change over time. Future events or circumstances may change our outlook and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. Forward-looking statements speak only as of the date made. We do not assume any duty and do not undertake any obligation to update forward-looking statements. Actual results or future events could differ, possibly materially, from those anticipated in forward-looking statements, as well as from historical performance. As a result, we caution against placing undue reliance on any forward-looking statements.

Our forward-looking statements are subject to the following principal risks and uncertainties.

- Our businesses, financial results and balance sheet values are affected by business and economic conditions, including:
- Changes in interest rates and valuations in debt, equity and other financial markets,
- Disruptions in the U.S. and global financial markets,
- Actions by the Federal Reserve Board, U.S. Treasury and other government agencies, including those that impact money supply, market interest rates and inflation,
- Changes in customer behavior due to changing business and economic conditions or legislative or regulatory initiatives,
- Changes in customers', suppliers' and other counterparties' performance and creditworthiness,
- Impacts of sanctions, tariffs and other trade policies of the U.S. and its global trading partners,
- A continuation of recent turmoil in the banking industry, responsive measures to mitigate and manage it and related supervisory and regulatory actions and costs,
- Impacts of changes in federal, state and local governmental policy, including on the regulatory landscape, capital markets, taxes, infrastructure spending and social programs,
- PNC's ability to attract, recruit and retain skilled employees, and
- Commodity price volatility.
- Our forward-looking financial statements are subject to the risk that economic and financial market conditions will be substantially different than those we are currently expecting and do not take into account potential legal and regulatory contingencies. These statements are based on our views that:
- The economy continues to expand in the first half of 2023, but economic growth is slowing in response to the ongoing Federal Reserve monetary policy tightening to slow inflation. This has led to large increases in both shortand long-term interest rates. With much higher mortgage rates the housing market is already in contraction, with steep drops in existing home sales and single-family housing starts, and a modest decline in house prices. Other sectors where interest rates play an outsized role, such as business investment and consumer spending on durable goods, will contract over 2023.
- PNC's baseline outlook is for a recession starting in the second half of 2023, with real GDP contracting less than $1 \%$ before recovery starts in the first half of 2024 as the Federal Reserve lowers interest rates in response to a deteriorating labor market and slower inflation. The unemployment rate will increase throughout 2023, peaking at above $5 \%$ in the second half of 2024. Inflation will slow with the recession and be back to the Federal Reserve's $2 \%$ long-term objective by mid-2024.
- PNC expects the FOMC to raise the federal funds rate by 25 basis points in May. This would bring the federal funds rate to a range of $5.00 \%$ to $5.25 \%$ by early-May. PNC expects a federal funds rate cut of 25 basis points in early 2024 as inflation moves toward the FOMC's $2 \%$ long-term objective.
- PNC's ability to take certain capital actions, including returning capital to shareholders, is subject to PNC meeting or exceeding an SCB established by the Federal Reserve Board in connection with the Federal Reserve Board's CCAR process.
- PNC's regulatory capital ratios in the future will depend on, among other things, our financial performance, the scope and terms of final capital regulations then in effect and management actions affecting the composition of PNC's balance sheet. In addition, PNC's ability to determine, evaluate and forecast regulatory capital ratios, and to take actions (such as capital distributions) based on actual or forecasted capital ratios, will be dependent at least in part on the development, validation and regulatory review of related models and the reliability of and risks resulting from extensive use of such models.
- Legal and regulatory developments could have an impact on our ability to operate our businesses, financial condition, results of operations, competitive position, reputation, or pursuit of attractive acquisition opportunities. Reputational impacts could affect matters such as business generation and retention, liquidity, funding, and ability to attract and retain employees. These developments could include:
- Changes to laws and regulations, including changes affecting oversight of the financial services industry, changes in the enforcement and interpretation of such laws and regulations, and changes in accounting and reporting standards.
- Unfavorable resolution of legal proceedings or other claims and regulatory and other governmental investigations or other inquiries resulting in monetary losses, costs, or alterations in our business practices, and potentially causing reputational harm to PNC.
- Results of the regulatory examination and supervision process, including our failure to satisfy requirements of agreements with governmental agencies.
- Costs associated with obtaining rights in intellectual property claimed by others and of adequacy of our intellectual property protection in general.
- Business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through effective use of systems and controls, third-party insurance, derivatives, and capital management techniques, and to meet evolving regulatory capital and liquidity standards.
- Our reputation and business and operating results may be affected by our ability to appropriately meet or address environmental, social or governance targets, goals, commitments or concerns that may arise.
- We grow our business in part through acquisitions and new strategic initiatives. Risks and uncertainties include those presented by the nature of the business acquired and strategic initiative, including in some cases those associated with our entry into new businesses or new geographic or other markets and risks resulting from our inexperience in those new areas, as
well as risks and uncertainties related to the acquisition transactions themselves, regulatory issues, the integration of the acquired businesses into PNC after closing or any failure to execute strategic or operational plans.
- Competition can have an impact on customer acquisition, growth and retention and on credit spreads and product pricing, which can affect market share, deposits and revenues. Our ability to anticipate and respond to technological changes can also impact our ability to respond to customer needs and meet competitive demands.
- Business and operating results can also be affected by widespread manmade, natural and other disasters (including severe weather events), health emergencies, dislocations, geopolitical instabilities or events, terrorist activities, system failures or disruptions, security breaches, cyberattacks, international hostilities, or other extraordinary events beyond PNC's control through impacts on the economy and financial markets generally or on us or our counterparties, customers or third-party vendors and service providers specifically.

We provide greater detail regarding these as well as other factors in our 2022 Form 10-K and subsequent Form 10-Qs and elsewhere in this Report, including in the Risk Factors and Risk Management sections and the Legal Proceedings and Commitments Notes of the Notes To Consolidated Financial Statements in these reports. Our forward-looking statements may also be subject to other risks and uncertainties, including those discussed elsewhere in this Report or in our other filings with the SEC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The PNC Financial Services Group, Inc.
Unaudited

See page 103 for a glossary of certain terms and acronyms used in this Report.

## Business

PNC is one of the largest diversified financial services companies in the U.S. and is headquartered in Pittsburgh, Pennsylvania.

We have businesses engaged in retail banking, including residential mortgage, corporate and institutional banking and asset management, providing many of our products and services nationally. Our retail branch network is located coast-to-coast. We also have strategic international offices in four countries outside the U.S.

## Note 1 Accounting Policies

## Basis of Financial Statement Presentation

Our consolidated financial statements include the accounts of the parent company and its subsidiaries, most of which are whollyowned, certain partnership interests and VIEs.

We prepared these consolidated financial statements in accordance with GAAP. We have eliminated intercompany accounts and transactions.

In our opinion, the unaudited interim consolidated financial statements reflect all normal, recurring adjustments needed to state fairly our results for the interim periods. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period.

We have also considered the impact of subsequent events on these consolidated financial statements.
When preparing these unaudited interim consolidated financial statements, we have assumed that you have read the audited consolidated financial statements included in our 2022 Form 10-K. These interim consolidated financial statements serve to update our 2022 Form 10-K and may not include all information and Notes necessary to constitute a complete set of financial statements. There have been changes to certain of our accounting policies as disclosed in our 2022 Form 10-K due to the adoption of ASU 2022-02 Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures (ASU 2022-02). The updated policies impacted by this adoption are included in this Note 1 in the first quarter of 2023. Reference is made to Note 1 Accounting Policies in our 2022 Form 10-K for a detailed description of all other significant accounting policies.

## Use of Estimates

We prepared these consolidated financial statements using financial information available at the time of preparation, which requires us to make estimates and assumptions that affect the amounts reported. Our most significant estimates pertain to the ACL and our fair value measurements. Actual results may differ from the estimates and the differences may be material to the consolidated financial statements.

## Loans

Loans are classified as held for investment when management has both the intent and ability to hold the loan for the foreseeable future, or until maturity or payoff. Management's intent and view of the foreseeable future may change based on changes in business strategies, the economic environment, market conditions and the availability of government programs.

Measurement of delinquency status is based on the contractual terms of each loan. Loans that are 30 days or more past due in terms of payment are considered delinquent. See Note 3 Loans and Related Allowance for Credit Losses for additional information on how COVID-19 hardship related loan modification delinquencies are reported as of March 31, 2023 and December 31, 2022.

Loans held for investment, excluding PCD loans, are recorded at amortized cost basis unless we elect to measure these under the fair value option. Amortized cost basis represents principal amounts outstanding, net of unearned income, unamortized deferred fees and costs on originated loans, premiums or discounts on purchased loans and charge-offs. Amortized cost basis does not include accrued interest, as we include accrued interest in Other assets on our Consolidated Balance Sheet. Interest on performing loans is accrued based on the principal amount outstanding and recorded in Interest income as earned using the constant effective yield method over the contractual life. Loan origination fees, direct loan origination costs, and loan premiums and discounts are deferred and accreted or amortized into Net interest income using the constant effective yield method, over the contractual life of the loan. The processing fee received for loans originated through PPP lending under the CARES Act is deferred and accreted into Net interest income using the effective yield method, over the contractual life of the loan. Loans under the fair value option are reported at their fair value, with any changes to fair value reported as Noninterest income on the Consolidated Income Statement, and are excluded from the measurement of ALLL.

In addition to originating loans, we also acquire loans through the secondary loan market, portfolio purchases or acquisitions of other financial services companies. Certain acquired loans that have experienced a more-than-insignificant deterioration of credit quality since origination (i.e., PCD) are recognized at an amortized cost basis equal to their purchase price plus an ALLL measured at the acquisition date. PNC considers a variety of factors in connection with the identification of more-than-insignificant deterioration in credit quality, including but not limited to nonperforming status, delinquency, risk ratings and other qualitative factors that indicate deterioration in credit quality since origination. Subsequent decreases in expected cash flows that are attributable, at least in part, to credit quality are recognized through a charge to the provision for credit losses resulting in an increase in the ALLL. Subsequent increases in expected cash flows are recognized as a provision recapture of previously recorded ALLL.

We consider a loan to be collateral dependent when we determine that substantially all of the expected cash flows will be generated from the operation or sale of the collateral underlying the loan, or when the borrower is experiencing financial difficulty and we have elected to measure the loan at the estimated fair value of collateral (less costs to sell if sale or foreclosure of the property is expected). Additionally, we consider a loan to be collateral dependent when foreclosure or liquidation of the underlying collateral is probable.

On January 1, 2023, we adopted ASU 2022-02, which eliminates the accounting guidance for TDRs. See Note 1 Accounting Policies in our 2022 Form 10-K for a description of our accounting policies for TDRs that were in effect prior to adoption.

Modifications to borrowers experiencing financial difficulty result from our loss mitigation activities and include principal forgiveness, interest rate reductions, payment delays, term extensions, or combinations thereof. Modified loans to borrowers experiencing financial difficulty continue to be subject to our existing nonaccrual policies. Expected losses or recoveries on loans where modifications have been granted to borrowers experiencing financial difficulty have been factored into the ALLL estimates for each loan class under the methodologies described in this Note. Refer to Note 3 Loans and Related Allowance for Credit Losses for more information on modifications granted to borrowers experiencing financial difficulty.

See the following for additional information related to loans, including further discussion regarding our policies, the methodologies and significant inputs used to determine the ALLL and additional details on the composition of our loan portfolio:

- Nonperforming Loans and Leases section of this Note 1,
- Allowance for Credit Losses section of this Note 1,
- Note 3 Loans and Related Allowance for Credit Losses in this Report, and
- Note 4 Loans and Related Allowance for Credit Losses in our 2022 Form 10-K.

## Nonperforming Loans and Leases

The matrix that follows summarizes our policies for classifying certain loans as nonperforming loans and/or discontinuing the accrual of loan interest income.

| Commercial |  |
| :---: | :---: |
| Loans classified as nonperforming and accounted for as nonaccrual | - Loans accounted for at amortized cost where: <br> - The loan is 90 days or more past due. <br> - The loan is rated substandard or worse due to the determination that full collection of principal and interest is not probable as demonstrated by the following conditions: <br> - The collection of principal or interest is 90 days or more past due, <br> - Reasonable doubt exists as to the certainty of the borrower's future debt service ability, according to the terms of the credit arrangement, regardless of whether 90 days have passed or not, <br> - The borrower has filed or will likely file for bankruptcy, <br> - The bank advances additional funds to cover principal or interest, <br> - We are in the process of liquidating a commercial borrower, or <br> - We are pursuing remedies under a guarantee. |
| Loans excluded from nonperforming classification but accounted for as nonaccrual | - Loans accounted for under the fair value option and full collection of principal and interest is not probable. <br> - Loans accounted for at the lower of cost or market less costs to sell (held for sale) and full collection of principal and interest is not probable. |
| Loans excluded from nonperforming classification and nonaccrual accounting | - Loans that are well secured and in the process of collection. <br> - Certain government insured or guaranteed loans where substantially all principal and interest is insured. <br> - Commercial purchasing card assets that do not accrue interest. |
|  | Consumer |
| Loans classified as nonperforming and accounted for as nonaccrual | - Loans accounted for at amortized cost where full collection of contractual principal and interest is not deemed probable as demonstrated in the policies below: <br> - The loan is 90 days past due for home equity and installment loans, and 180 days past due for well secured residential real estate loans, <br> - The loan has been modified due to a borrower experiencing financial difficulty and is not government insured or guaranteed, <br> - The loan has been modified to defer prior payments in forbearance to the end of the loan term, <br> - Notification of bankruptcy has been received, <br> - The bank holds a subordinate lien position in the loan and the first lien mortgage loan is seriously stressed (i.e., 90 days or more past due), <br> - Other loans within the same borrower relationship have been placed on nonaccrual or charge-offs have been taken on them, <br> - The bank has ordered the repossession of non-real estate collateral securing the loan, or <br> - The bank has charged-off the loan to the value of the collateral. |
| Loans excluded from nonperforming classification but accounted for as nonaccrual | - Loans accounted for under the fair value option and full collection of principal and interest is not probable. <br> - Loans accounted for at the lower of cost or market less costs to sell (held for sale) and full collection of principal and interest is not probable. |
| Loans excluded from nonperforming classification and nonaccrual accounting | - Certain government insured or guaranteed loans where substantially all principal and interest is insured. <br> - Residential real estate loans that are well secured and in the process of collection. <br> - Consumer loans and lines of credit, not secured by residential real estate or automobiles, as permitted by regulatory guidance. |

## Commercial

We generally charge-off commercial (commercial and industrial, commercial real estate and equipment lease financing) nonperforming loans when we determine that a specific loan, or portion thereof, is uncollectible. This determination is based on the specific facts and circumstances of the individual loans. In making this determination, we consider the viability of the business or project as a going concern, the past due status when the asset is not well-secured, the expected cash flows to repay the loan, the value of the collateral and the ability and willingness of any guarantors to perform. For commercial loans and leases less than a defined dollar threshold, balances are generally charged-off in full after 180 days for loans and 120 days for leases.

## Consumer

We generally charge-off secured consumer (home equity, residential real estate and automobile) nonperforming loans to the fair value of collateral less costs to sell, if lower than the amortized cost basis of the loan outstanding, when delinquency of the loan, combined with other risk factors (e.g., bankruptcy or lien position), indicates that the loan, or some portion thereof, is uncollectible as per our historical experience, or the collateral has been repossessed. We charge-off secured consumer loans no later than 180 days past due. Most consumer loans and lines of credit, not secured by automobiles or residential real estate, are charged-off once they have reached 120-180 days past due.

For secured collateral dependent loans, collateral values are updated at least annually and subsequent declines in collateral values are charged-off resulting in incremental provision for credit loss. Subsequent increases in collateral values may be reflected as an
adjustment to the ALLL to reflect the expectation of recoveries in an amount greater than previously expected, limited to amounts previously charged-off.

Accounting for Nonperforming Assets and Leases and Other Nonaccrual Loans
For nonaccrual loans, interest income accrual and deferred fee/cost recognition is discontinued. Additionally, depending on whether the accrued interest has been incorporated into the ACL estimates, as discussed in the Accrued Interest section of this Note 1, the accrued and uncollected interest is either reversed through Net interest income (if a CECL reserve is not maintained for accrued interest) or charged-off against the allowance (if a CECL reserve is maintained for accrued interest), except for credit cards, where we reverse any accrued interest through Net interest income at the time of charge-off, as per industry standard practice. Nonaccrual loans that are also collateral dependent may be charged-off to reduce the basis to the fair value of collateral less costs to sell.

If payment is received on a nonaccrual loan, generally the payment is first applied to the remaining principal balance; payments are then applied to recover any charged-off amounts related to the loan. Finally, if both principal balance and any charge-offs have been recovered, then the payment will be recorded as fee and interest income. For certain consumer loans, the receipt of interest payments is recognized as interest income on a cash basis. Cash basis income recognition is applied if a loan's amortized cost basis is deemed fully collectible and the loan has performed for at least six months. For loans modified due to a borrower experiencing financial difficulty, payments are applied based upon their contractual terms unless the related loan is deemed nonperforming. Loans modified due to a borrower experiencing financial difficulty are generally included in nonperforming and nonaccrual loans if they are not government insured or guaranteed. However, after a reasonable period of time, generally six months, in which the loan performs under modified terms and meets other performance indicators, it is returned to performing/accruing status. This return to performing/accruing status demonstrates that the bank expects to collect all of the loan's remaining contractual principal and interest. Loan modifications granted to borrowers experiencing financial difficulty resulting from (i) borrowers that have been discharged from personal liability through Chapter 7 bankruptcy and have not formally reaffirmed their loan obligations to us, and (ii) borrowers that are not currently obligated to make both principal and interest payments under the modified terms are not returned to accrual status.

Other nonaccrual loans are generally not returned to accrual status until the borrower has performed in accordance with the contractual terms and other performance indicators for at least six months, the period of time which was determined to demonstrate the expected collection of the loan's remaining contractual principal and interest. Nonaccrual loans with partially charged-off principal are not returned to accrual. When a nonperforming loan is returned to accrual status, it is then considered a performing loan.

Foreclosed assets consist of any asset seized or property acquired through a foreclosure proceeding or acceptance of a deed-in-lieu of foreclosure. OREO comprises principally residential and commercial real estate properties obtained in partial or total satisfaction of loan obligations. After obtaining a foreclosure judgment, or in some jurisdictions the initiation of proceedings under a power of sale in the loan instruments, the property will be sold. When we are awarded title or completion of deed-in-lieu of foreclosure, we transfer the loan to foreclosed assets included in Other assets on our Consolidated Balance Sheet. Property obtained in satisfaction of a loan is initially recorded at estimated fair value less cost to sell. Based upon the estimated fair value less cost to sell, the amortized cost basis of the loan is adjusted and a charge-off/recovery is recognized to the ALLL. We estimate fair values primarily based on appraisals, or sales agreements with third parties. Subsequently, foreclosed assets are valued at the lower of the amount recorded at acquisition date or estimated fair value less cost to sell. Valuation adjustments on these assets and gains or losses realized from disposition of such property are reflected in Other noninterest expense.

For certain mortgage loans that have a government guarantee, we establish a separate other receivable upon foreclosure. The receivable is measured based on the loan balance (inclusive of principal and interest) that is expected to be recovered from the guarantor.

See Note 3 Loans and Related Allowance for Credit Losses for additional information on loan modifications granted to borrowers experiencing financial difficulty, nonperforming assets and credit quality indicators related to our loan portfolio.

## Allowance for Credit Losses

Our ACL is based on historical loss experience, current borrower risk characteristics, current economic conditions, reasonable and supportable forecasts of future conditions and other relevant factors. We maintain the ACL at an appropriate level for expected losses on our existing investment securities, loans, equipment finance leases, other financial assets and unfunded lending related commitments, for the estimated contractual term of the assets or exposures as of the balance sheet date. The remaining contractual term of assets in scope of CECL is estimated considering contractual maturity dates, prepayment expectations, utilization or draw expectations and any contractually embedded extension options that do not allow us to unilaterally cancel the extension options. For products without a fixed contractual maturity date (e.g., credit cards), we rely on historical payment behavior to determine the length of the paydown or default time period.

We estimate expected losses on a pooled basis using a combination of (i) the expected losses over a reasonable and supportable forecast period, (ii) a period of reversion to long-run average expected losses, where applicable and (iii) the long run average expected losses for the remaining estimated contractual term. For all assets and unfunded lending related commitments in the scope of CECL, the ACL also includes individually assessed reserves and qualitative reserves, as applicable.

We use forward-looking information in estimating expected credit losses for our reasonable and supportable forecast period. For this purpose, we use forecasted scenarios produced by PNC's Economics Team, which are designed to reflect business cycles and their related estimated probabilities. The forecast length that we have determined to be reasonable and supportable is three years. As noted in the methodology discussions that follow, forward-looking information is incorporated into the expected credit loss estimates. Such forward looking information includes forecasted relevant macroeconomic variables, which are estimated using quantitative macroeconomic models, analysis from PNC economists and management judgment.

The reversion period is used to bridge our three year reasonable and supportable forecast period and the long run average expected credit losses. We consider a number of factors in determining the duration of the reversion period, such as contractual maturity of the asset, observed historical patterns and the estimated credit loss rates at the end of the forecast period relative to the beginning of the long run average period. The reversion period is typically one to three years, if not immediate.

The long-run average expected credit losses are derived from long run historical credit loss information adjusted for the credit quality of the current portfolio, and therefore do not consider current and forecasted economic conditions.

See the following sections related to loans and unfunded lending related commitments for details about specific methodologies.

## Allowance for Loan and Lease Losses

Our pooled expected loss methodology is based upon the quantification of risk parameters, such as PD, LGD and EAD for a loan, loan segment or lease. We also consider the impact of prepayments and amortization on contractual maturity in our expected loss estimates. We use historical credit loss information, current borrower risk characteristics and forecasted economic variables for the reasonable and supportable forecast period, coupled with analytical methods, to estimate these risk parameters by loan, loan segment or lease. PD, LGD and EAD parameters are calculated for each forecasted scenario and the long run average period, and combined to generate expected loss estimates by scenario. The following matrix provides key credit risk characteristics that we use to estimate these risk parameters.

| Loan Class | Probability of Default | Loss Given Default | Exposure at Default |
| :---: | :---: | :---: | :---: |
| Commercial |  |  |  |
| Commercial and industrial / <br> Equipment lease financing | - For wholesale obligors: internal risk ratings based on borrower characteristics and industry <br> -For retail small balance obligors: credit score, delinquency status, and product type | - Collateral type, collateral value, industry, size and outstanding exposure for secured loans <br> - Capital structure, industry and size for unsecured loans <br> - For retail small balance obligors, product type and credit scores | - Outstanding balances, commitment, contractual maturities and historical prepayment experience for loans <br> - Current utilization and historical pre-default draw experience for lines |

The following matrix describes the key economic variables that are consumed during our forecast period by loan class, as well as other assumptions that are used for our reversion and long run average approaches.

| Loan Class | Forecast Period - Key Economic Variables | Reversion Method | Long Run Average |
| :---: | :---: | :---: | :---: |
| Commercial |  |  |  |
| Commercial and industrial / <br> Equipment lease financing | -GDP and Gross Domestic Investment measures, employment related variables and personal income and consumption measures | - Immediate reversion | - Average parameters determined based on internal and external historical data <br> - Modeled parameters using long run economic conditions for retail small balance obligors |
| Commercial real estate (CRE) | - CRE Price Index, unemployment rates, GDP, corporate bond yield and interest rates | - Immediate reversion | - Average parameters determined based on internal and external historical data |
| Consumer |  |  |  |
| Home equity / Residential real estate | -Unemployment rates, HPI and interest rates | - Straight-line over 3 years | - Modeled parameters using long run economic conditions |
| Automobile | -Unemployment rates, HPI, personal consumption expenditure and Manheim used car index | - Straight-line over 1 year | - Average parameters determined based on internal and external historical data |
| Credit card | - Unemployment rates, personal consumption expenditure and HPI | - Straight-line over 2 years | - Modeled parameters using long run economic conditions |
| Education / Other consumer | - Net charge-off and pay-down rates are used to estimate expected losses in lieu of discrete risk parameters |  |  |

After the forecast period, we revert to the long run average over the reversion period noted above, which is the period between the end of the forecast period and when losses are estimated to have completely reverted to the long run average.

Once we have developed a combined estimate of credit losses (i.e., for the forecast period, reversion period and long run average) under each of the forecasted scenarios, we produce a probability-weighted credit loss estimate by loan class. We then add or deduct any qualitative components and other adjustments, such as individually assessed loans, to produce the ALLL. See the Individually Assessed Component and Qualitative Component discussions that follow in this Note 1 for additional information about those adjustments.

## Discounted Cash Flow

Prior to January 1, 2023, we used a discounted cash flow methodology for our home equity and residential real estate loan classes. Effective January 1, 2023, we discontinued our use of a discounted cash flow methodology, and we now use a pooled expected loss methodology based upon the quantification of risk parameters, such as PD, LGD and EAD for a loan or loan segment. See Note 1 Accounting Policies in our 2022 Form 10-K for a description of our use of a discounted cash flow methodology prior to January 1, 2023.

## Individually Assessed Component

Loans and leases that do not share similar risk characteristics with a pool of loans are individually assessed as follows:

- For commercial nonperforming loans greater than or equal to a defined dollar threshold, reserves are based on an analysis of the present value of the loan's expected future cash flows or the fair value of the collateral, if appropriate under our policy for collateral dependent loans. Nonperforming commercial loans below the defined threshold are reserved for under a pooled basis.
- For consumer nonperforming loans classified as collateral dependent, charge-off and ALLL related to recovery of amounts previously charged-off are evaluated through an analysis of the fair value of the collateral less costs to sell.

## Qualitative Component

While our reserve methodologies strive to reflect all relevant credit risk factors, there continues to be uncertainty associated with, but not limited to, potential imprecision in the estimation process due to the inherent time lag of obtaining information and normal variations between expected and actual outcomes. We may hold additional reserves that are designed to provide coverage for losses
attributable to such risks. The ACL also takes into account factors that may not be directly measured in the determination of individually assessed or pooled reserves. Such qualitative factors may include, but are not limited to:

- Industry concentrations and conditions,
- Changes in market conditions, including regulatory and legal requirements,
- Changes in the nature and volume of our portfolio,
- Recent credit quality trends,
- Recent loss experience in particular portfolios, including specific and unique events,
- Recent macroeconomic factors that may not be reflected in the forecast information,
- Limitations of available input data, including historical loss information and recent data such as collateral values,
- Model imprecision and limitations,
- Changes in lending policies and procedures, including changes in loss recognition and mitigation policies and procedures, and
- Timing of available information.

See Note 3 Loans and Related Allowance for Credit Losses for additional information about our loan portfolio and the related allowance.

## Accrued Interest

When accrued interest is reversed or charged-off in a timely manner, the CECL standard provides a practical expedient to exclude accrued interest from ACL measurement. We consider our nonaccrual and charge-off policies to be timely for all of our investment securities, loans and leases, with the exception of consumer credit cards, education loans and certain unsecured consumer lines of credit. We consider the length of time before nonaccrual/charge-off and the use of appropriate other triggering events for nonaccrual and charge-offs in making this determination. Pursuant to these policy elections, we calculate reserves for accrued interest on credit cards, education loans and certain unsecured consumer lines of credit, which are then included within the ALLL. See the Debt Securities section of Note 1 Accounting Policies in our 2022 Form 10-K and the Nonperforming Loans and Leases section of this Note 1 for additional information on our nonaccrual and charge-off policies.

See Note 1 Accounting Policies in our 2022 Form 10-K for a description of the accounting policies related to the applicable reserves on accrued interest for our home equity and residential real estate loan classes prior to January 1, 2023.

## Purchased Credit Deteriorated Loans or Securities

The allowance for PCD loans or securities is determined at the time of acquisition, as the estimated expected credit loss of the outstanding balance or par value, based on the methodologies described previously for loans and securities. In accordance with CECL, the allowance recognized at acquisition is added to the acquisition date purchase price to determine the asset's amortized cost basis.

## Allowance for Unfunded Lending Related Commitments

We maintain the allowance for unfunded lending related commitments on off-balance sheet credit exposures that are not unconditionally cancelable (e.g., unfunded loan commitments, letters of credit and certain financial guarantees), at a level we believe is appropriate as of the balance sheet date to absorb expected credit losses on these exposures. Other than the estimation of the probability of funding, this reserve is estimated in a manner similar to the methodology used for determining reserves for loans and leases. See the Allowance for Loan and Lease Losses section of this Note 1 for the key credit risk characteristics for unfunded lending related commitments. The allowance for unfunded lending related commitments is recorded as a liability on the Consolidated Balance Sheet. Net adjustments to this reserve are included in the provision for credit losses.

See Note 3 Loans and Related Allowance for Credit Losses for additional information about this allowance.

(a) At March 31, 2023, the accrued interest associated with our held to maturity and available for sale portfolios totaled $\$ 257$ million and $\$ 135$ million, respectively. The comparable amounts at December 31, 2022 were $\$ 282$ million and $\$ 144$ million, respectively. These amounts are included in Other assets on the Consolidated Balance Sheet.
(b) Credit ratings represent a primary credit quality indicator used to monitor and manage credit risk. Of our total securities portfolio, $97 \%$ were rated AAA/AA at both March 31, 2023 and December 31, 2022.
 $\$ 6$ million for securities held to maturity at March 31, 2023. The comparable amounts at December 31 , 2022 were $\$ 142$ million and $\$ 7$ million, respectively.
 securities included net unrealized losses of $\$ 4.9$ billion at March 31, 2023 related to securities transferred, which are offset in AOCI, net of tax.

The fair value of investment securities is impacted by interest rates, credit spreads, market volatility and liquidity conditions. Securities available for sale are carried at fair value with net unrealized gains and losses included in Total shareholders' equity as AOCI, unless credit-related. Net unrealized gains and losses are determined by taking the difference between the fair value of a security and its amortized cost, net of any allowance. Securities held to maturity are carried at amortized cost, net of any allowance. Investment securities at March 31, 2023 included $\$ 30$ million of net unsettled sales that represent non-cash investing activity, and accordingly, are not reflected on the Consolidated Statement of Cash Flows. The comparable amount for March 31, 2022 was $\$ 0.8$ billion of net unsettled purchases.

We maintain the allowance for investment securities at levels that we believe to be appropriate as of the balance sheet date to absorb expected credit losses on our portfolio. At March 31, 2023, the allowance for investment securities was $\$ 148$ million and primarily related to non-agency commercial mortgage-backed securities in the available for sale portfolio. The comparable amount at December 31, 2022 was $\$ 149$ million. See Note 1 Accounting Policies in our 2022 Form 10-K for a discussion of the methodologies used to determine the allowance for investment securities.

At March 31, 2023, AOCI included pretax losses of $\$ 305$ million from derivatives that hedged the purchase of investment securities classified as held to maturity. The losses will be accreted to interest income as an adjustment of yield on the securities.

Table 36 presents the gross unrealized losses and fair value of securities available for sale that do not have an associated allowance for investment securities at March 31, 2023 and December 31, 2022. These securities are segregated between investments that had been in a continuous unrealized loss position for less than twelve months and twelve months or more, based on the point in time that the fair value declined below the amortized cost basis. All securities included in the table have been evaluated to determine if a credit loss
exists. As part of that assessment, as of March 31, 2023, we concluded that we do not intend to sell and believe we will not be required to sell these securities prior to recovery of the amortized cost basis.

At March 31, 2023, there were no securities of a single issuer, other than FNMA and FHLMC, that exceeded 10\% of Total shareholders' equity. The FNMA and FHLMC investments had a total amortized cost of $\$ 39.2$ billion and $\$ 33.0$ billion and fair value of $\$ 36.6$ billion and $\$ 31.0$ billion, respectively.

The securities pledged to others include positions held in our portfolio of investment securities, trading securities and securities accepted as collateral from others that we are permitted by contract or custom to sell or repledge, and were used to secure public and trust deposits, repurchase agreements and for other purposes. See Note 12 Financial Derivatives for information related to securities pledged and accepted as collateral for derivatives.

## Note 3 Loans And Related Allowance For Credit Losses

## Loan Portfolio

Our loan portfolio consists of two portfolio segments - Commercial and Consumer. Each of these segments comprises multiple loan classes. Classes are characterized by similarities in risk attributes and the manner in which we monitor and assess credit risk.

| Commercial |
| :--- |
| - Commercial and industrial |
| - Commercial real estate |
| - Equipment lease financing |
|  |

| Consumer |
| :--- |
| - Residential real estate |
| - Home equity |
| - Automobile |
| - Credit card |
| - Education |
| - Other consumer |

See Note 1 Accounting Policies for additional information on our loan related policies.

## Credit Quality

We closely monitor economic conditions and loan performance trends to manage and evaluate our exposure to credit risk within the loan portfolio based on our defined loan classes. In doing so, we use several credit quality indicators, including trends in delinquency rates, nonperforming status, analysis of PD and LGD ratings, updated credit scores and originated and updated LTV ratios.

The measurement of delinquency status is based on the contractual terms of each loan. Loans that are 30 days or more past due in terms of payment are considered delinquent. Loan delinquencies include government insured or guaranteed loans and loans accounted for under the fair value option.

Table 40 presents the composition and delinquency status of our loan portfolio at March 31, 2023 and December 31, 2022. We manage credit risk based on the risk profile of the borrower, repayment sources, underlying collateral and other support given current events, economic conditions and expectations. We refine our practices to meet the changing environment resulting from rising inflation levels, labor-related supply chain pressures, higher interest rates, and structural and secular changes fostered by the pandemic. To mitigate losses and enhance customer support, we offer loan modifications and collection programs to assist our customers. Under the CARES Act credit reporting rules, certain loans modified due to COVID-19 related hardships are not being reported as past due as of March 31, 2023 and December 31, 2022 based on the contractual terms of the loan, even where borrowers may not be making payments on their loans during the modification period.

(a) Amounts in table represent loans held for investment and do not include any associated ALLL
(b) The accrued interest associated with our loan portfolio totaled $\$ 1.3$ billion and $\$ 1.2$ billion at March 31, 2023 and December 31, 2022, respectively. These amounts are included in Other assets on the Consolidated Balance Sheet.
(c) Past due loan amounts include government insured or guaranteed Residential real estate loans and Education loans totaling $\$ 0.3$ billion and $\$ 0.1$ billion at both March 31 , 2023 and December 31, 2022, respectively.
(d) Consumer loans accounted for under the fair value option for which we do not expect to collect substantially all principal and interest are subject to nonaccrual accounting and classification upon meeting any of our nonaccrual policy criteria. Given that these loans are not accounted for at amortized cost, these loans have been excluded from the nonperforming loan population.
(e) Includes unearned income, unamortized deferred fees and costs on originated loans and premiums or discounts on purchased loans totaling $\$ 0.8$ billion and $\$ 0.9$ billion at March 31, 2023 and December 31, 2022, respectively.
(f) Collateral dependent loans totaled $\$ 1.2$ billion and $\$ 1.3$ billion at March 31, 2023 and December 31, 2022, respectively.

At March 31, 2023, we pledged $\$ 27.8$ billion of commercial and other loans to the Federal Reserve Bank and $\$ 94.0$ billion of residential real estate and other loans to the FHLB as collateral for the ability to borrow, if necessary. The comparable amounts at December 31, 2022 were $\$ 28.1$ billion and $\$ 90.4$ billion, respectively. Amounts pledged reflect the unpaid principal balances.

## Nonperforming Assets

Nonperforming assets include nonperforming loans and leases, OREO and foreclosed assets. Nonperforming loans are those loans accounted for at amortized cost whose credit quality has deteriorated to the extent that full collection of contractual principal and interest is not probable. Interest income is not recognized on these loans. Loans accounted for under the fair value option are reported as performing loans; however, when nonaccrual criteria is met, interest income is not recognized on these loans. Additionally, certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest are not reported as
nonperforming loans and continue to accrue interest. See Note 1 Accounting Policies for additional information on our nonperforming loan and lease policies.

The following table presents our nonperforming assets as of March 31, 2023 and December 31, 2022, respectively:
Table 41: Nonperforming Assets

(a) In connection with the adoption of ASU 2022-02, nonperforming loans as of March 31, 2023 include certain loans where terms were modified as a result of a borrower's financial difficulty. Prior period amounts included nonperforming TDRs, for which accounting guidance was eliminated effective January 1, 2023. See Note 1 Accounting Policies and the Loan Modifications to Borrowers Experiencing Financial Difficulty section of this Note 3 for more information on our adoption of this ASU.
(b) Excludes most unsecured consumer loans and lines of credit, which are charged off after 120 to 180 days past due and are not placed on nonperforming status.
(c) Nonperforming loans for which there is no related ALLL totaled $\$ 0.6$ billion at March 31, 2023 and primarily include loans with a fair value of collateral that exceeds the amortized cost basis. The comparable amount at December 31, 2022 was $\$ 0.7$ billion.

(a) Loans in our commercial portfolio are classified as Pass Rated or Criticized based on the regulatory definitions, which are driven by the PD and LGD ratings that we assign. The Criticized classification includes loans that were rated special mention, substandard or doubtful as of March 31, 2023 and December 31, 2022.
(b) Gross charge-offs are presented on a year-to-date basis, as of the reporting date.
(c) Gross charge-offs for the 2023 origination year include deposit overdrafts.

(a) Gross charge-offs are presented on a year-to-date basis, as of the reporting date.
(b) Loans with no FICO score available or required generally refers to new accounts issued to borrowers with limited credit history, accounts for which we cannot obtain an updated FICO score (e.g., recent profile changes), cards issued with a business name and/or cards secured by collateral. Management proactively assesses the risk and size of this loan category and, when necessary, takes actions to mitigate the credit risk.
(c) Gross charge-offs for the 2023 origination year include deposit overdrafts.

## Loan Modifications to Borrowers Experiencing Financial Difficulty

On January 1, 2023, we adopted ASU 2022-02, which eliminates the accounting guidance for TDRs and enhances the disclosure requirements for certain loan modifications when a borrower is experiencing financial difficulty.

We modify loans to borrowers experiencing financial difficulty as a result of our loss mitigation activities. A variety of solutions are offered to borrowers, including loan modifications that may result in principal forgiveness, interest rate reductions, term extensions, payment delays, or combinations thereof.

- Principal forgiveness includes principal and accrued interest forgiveness.
- Interest rate reductions include modifications where the interest rate is reduced and interest is deferred.
- Term extensions extend the original contractual maturity date of the loan.
- Payment delays consist of modifications where we expect to collect contractual amounts due, but that result in a delay in the receipt of payments specified under the original loan terms. We generally consider payment delays to be insignificant when the delay is three months or less.
- We also offer repayment plans for some of our credit card and unsecured line of credit products, which provide for a reduced payment and interest rate for a specific period of time.
- Additionally, modifications to borrowers experiencing financial difficulty also result from borrowers that have been discharged from personal liability through Chapter 7 bankruptcy and have not formally reaffirmed their obligations to us, and those that enter into trial modifications.

Loan modifications granted to borrowers experiencing financial difficulty exclude loans held for sale and loans accounted for under the fair value option. Government insured or guaranteed loans, commercial loans with an appraised value of collateral that exceeds the loan value, and loans with guarantor support are evaluated for inclusion in our disclosed population of loan modifications granted to borrowers experiencing financial difficulty, if the loan has been modified in the current period. Refer to Note 1 Accounting Policies for additional information around our adoption of ASU 2022-02.

The following table presents the amortized cost basis, as of March 31, 2023, of loans modified to borrowers experiencing financial difficulty during the three months ended March 31, 2023 :

(a) Excludes the financial effects of modifications for loans that were paid off, charged-off or otherwise liquidated as of period end.

Repayment plans are excluded from Table 46. The terms of these programs, which are offered for certain credit card and unsecured line of credit products, are as follows:

- Short-term programs are granted for periods of 6 and 12 months. These programs are structurally similar such that the interest rate is reduced to a standard rate of $4.99 \%$ and the minimum payment percentage is adjusted to $1.90 \%$ of the outstanding balance. At the end of the 6 or 12 months, the borrower is returned to the original contractual interest rate and minimum payment amount specified in the original lending agreement.
- Fully-amortized repayment plans are also granted, the most common of which being a 60 -month program. In this program, we convert the borrower's drawn and unpaid balances into a fully-amortized repayment plan consisting of an interest rate of $4.99 \%$ and a minimum payment amount of $1.90 \%$. This fully-amortized program is designed in a manner that allows the drawn and unpaid amounts to be recaptured at the end of the 60 months.

After we modify a loan, we continue to track its performance under its most recent modified terms. The following table presents the performance, as of March 31, 2023, of loans that have been modified as a result of a borrower's financial difficulty during the three months ended March 31, 2023 :

(a) Represents amortized cost basis.
(b) Amounts include nonaccrual loans that were current or less than 30 days past due of $\$ 49$ million and $\$ 18$ million for the commercial and consumer portfolios, respectively. Nonaccrual amounts included in the table above that were 30 or more days delinquent totaled $\$ 5$ million and $\$ 23$ million for the commercial and consumer portfolios, respectively.

We generally consider loan modifications to borrowers experiencing financial difficulty to have subsequently defaulted when they become 60 days past due after the most recent date the loan was modified. Loans that were both (i) modified due to a financial difficulty during the period, and (ii) subsequently defaulted during the three months ended March 31, 2023 were not material.

## Troubled Debt Restructuring Disclosures Prior to the Adoption of ASU 2022-02

Table 48 quantifies the number of loans that were classified as TDRs as well as the change in the loans' balance as a result of becoming a TDR during the three months ended March 31, 2022. Additionally, the table provides information about the types of TDR concession. See Note 1 Accounting Policies and Note 4 Loans and Related Allowance for Credit Losses in our 2022 Form 10-K for additional discussion of TDRs.

(b) Represents the amortized cost basis of the loans as of the quarter end prior to TDR designation.
(c) Represents the amortized cost basis of the TDRs as of the end of the quarter in which the TDR occurred.

After a loan was determined to be a TDR, we continued to track its performance under its most recent restructured terms. We considered a TDR to have subsequently defaulted when it became 60 days past due after the most recent date the loan was restructured. Loans that were both (i) classified as TDRs within the last twelve months from the balance sheet date, and (ii) subsequently defaulted during the three months ended March 31, 2022 totaled $\$ 9$ million.

## Allowance for Credit Losses

We maintain the ACL related to loans at levels that we believe to be appropriate to absorb expected credit losses in the portfolios as of the balance sheet date. See Note 1 Accounting Policies for a discussion of the methodologies used to determine this allowance. A rollforward of the ACL related to loans follows:

## Table 49: Rollforward of Allowance for Credit Losses

(a) Represents the impact of adopting ASU 2022-02 on January 1, 2023. As a result of adoption, we eliminated the accounting guidance for TDRs, including the use of a discounted cash flow approach to measure the allowance for TDRs.
(b) See Note 8 Commitments for additional information about the underlying commitments related to this allowance.
(c) Represents the ALLL plus allowance for unfunded lending related commitments and excludes allowances for investment securities and other financial assets, which together totaled $\$ 205$ million and $\$ 158$ million at March 31, 2023 and 2022, respectively.

The ACL related to loans totaled $\$ 5.4$ billion at both March 31, 2023 and December 31, 2022. During the three months ended March 31,2023 , reserves reflected our updated economic assumptions and changes in portfolio composition and quality.

## Note 4 Loan Sale and Servicing Activities and Variable Interest Entities

## Loan Sale and Servicing Activities

As more fully described in Note 5 Loan Sale and Servicing Activities and Variable Interest Entities in our 2022 Form 10-K, we have transferred residential and commercial mortgage loans in securitization or sales transactions in which we have continuing involvement. Our continuing involvement in the FNMA, FHLMC and GNMA securitizations, Non-agency securitizations and loan sale transactions generally consists of servicing, repurchasing previously transferred loans under certain conditions and loss share arrangements, and, in limited circumstances, holding of mortgage-backed securities issued by the securitization SPEs.

We earn servicing and other ancillary fees for our role as servicer and, depending on the contractual terms of the servicing arrangement, we can be terminated as servicer with or without cause. At the consummation date of each type of loan transfer where we retain the servicing, we recognize a servicing right at fair value. See Note 8 Commitments and Note 11 Fair Value for information on our servicing rights, including the carrying value of servicing assets.

The following table provides our loan sale and servicing activities:

## Table 50: Loan Sale and Servicing Activities

| In millions | Residential Mortgages |  | Commercial Mortgages (a) |  |

| Cash flows on mortgage-backed securities held (e) | \$ | 1,296 | S | 14 |

(a) Represents both commercial mortgage loan transfer and servicing activities.
(b) Gains/losses recognized on sales of loans were insignificant for the periods presented.
(c) Includes both residential and commercial mortgage government insured or guaranteed loans eligible for repurchase through the exercise of our ROAP option, as well as residential mortgage loans repurchased due to alleged breaches of origination covenants or representations and warranties made to purchasers.
(d) Includes contractually specified servicing fees, late charges and ancillary fees.
(e) Represents cash flows on securities where we transferred to and/or service loans for a securitization SPE and we hold securities issued by that SPE. The carrying values of such securities held were $\$ 21.6$ billion, $\$ 21.4$ billion and $\$ 18.9$ billion in residential mortgage-backed securities and $\$ 0.7$ billion, $\$ 0.7$ billion and $\$ 0.8$ billion in commercial mortgage-backed securities at March 31, 2023, December 31, 2022 and March 31, 2022, respectively.

Table 51 presents information about the principal balances of transferred loans that we service and are not recorded on our Consolidated Balance Sheet. We would only experience a loss on these transferred loans if we were required to repurchase a loan, where the repurchase price exceeded the loan's fair value, due to a breach in representations and warranties or a loss sharing arrangement associated with our continuing involvement with these loans. The estimate of losses related to breaches in representations and warranties was insignificant at March 31, 2023.

[^6](c) Net charge-offs for Residential mortgages represent credit losses less recoveries distributed and as reported to investors during the period. Net charge-offs for commercial mortgages represent credit losses less recoveries distributed and as reported by the trustee for commercial mortgage-backed securitizations. Realized losses for Agency securitizations are not reflected as we do not manage the underlying real estate upon foreclosure and, as such, do not have access to loss information.

## Variable Interest Entities (VIEs)

As discussed in Note 5 Loan Sale and Servicing Activities and Variable Interest Entities included in our 2022 Form 10-K, we are involved with various entities in the normal course of business that are deemed to be VIEs.

The following table provides a summary of non-consolidated VIEs with which we have significant continuing involvement but are not the primary beneficiary. We have excluded certain transactions with non-consolidated VIEs from the balances presented in Table 52 where we have determined that our continuing involvement is insignificant. We do not consider our continuing involvement to be significant when it relates to a VIE where we only invest in securities issued by the VIE and were not involved in the design of the VIE or where no transfers have occurred between us and the VIE. In addition, where we only have lending arrangements in the normal course of business with entities that could be VIEs, we have excluded these transactions with non-consolidated entities from the balances presented in Table 52. These loans are included as part of the credit quality disclosures that we make in Note 3 Loans and Related Allowance for Credit Losses.

Table 52: Non-Consolidated VIEs

| Total | \$ | 27,077 | \$ | 26,910 | \$ | 2,064 |

(a) Represents loans, investments and other assets related to non-consolidated VIEs, net of collateral (if applicable). The risk of loss excludes any potential tax recapture associated with tax credit investments.
(b) Amounts reflect involvement with securitization SPEs where we transferred to and/or service loans for an SPE and we hold securities issued by that SPE. Values disclosed in the PNC Risk of Loss column represent our maximum exposure to loss for those securities' holdings.
(c) Included in Investment securities, Mortgage servicing rights and Other assets on our Consolidated Balance Sheet.
(d) Included in Investment securities, Loans, Equity investments and Other assets on our Consolidated Balance Sheet.
(e) Included in Deposits and Other liabilities on our Consolidated Balance Sheet.

We make certain equity investments in various tax credit limited partnerships or LLCs. The purpose of these investments is to achieve a satisfactory return on capital and to assist us in achieving goals associated with the Community Reinvestment Act. Within Income taxes, during both the three months ended March 31, 2023 and 2022, we recognized less than $\$ 0.1$ billion of amortization, tax credits and other tax benefits associated with qualified investments in LIHTCs.

## Note 5 Goodwill and Mortgage Servicing Rights

## Goodwill

See Note 6 Goodwill and Mortgage Servicing Rights in our 2022 Form 10-K for more information regarding our goodwill.

## Mortgage Servicing Rights

We recognize the right to service mortgage loans for others as an intangible asset when the benefits of servicing are expected to be more than adequate compensation to a servicer for performing the servicing. MSRs are recognized either when purchased or when originated loans are sold with servicing retained. MSRs totaled $\$ 3.3$ billion at March 31, 2023 and $\$ 3.4$ billion at December 31, 2022, and consisted of loan servicing contracts for commercial and residential mortgages which are measured at fair value.

We recognize gains (losses) on changes in the fair value of MSRs. MSRs are subject to changes in value from actual or expected prepayment of the underlying loans and defaults, as well as market driven changes in interest rates. We manage this risk by economically hedging the fair value of MSRs with securities, derivative instruments and resale agreements, which are expected to increase (or decrease) in value when the value of MSRs decreases (or increases).

See the Sensitivity Analysis section of this Note 5 for more detail on our fair value measurement of MSRs. See Note 6 Goodwill and Mortgage Servicing Rights and Note 15 Fair Value in our 2022 Form 10-K for more detail on our fair value measurement and our accounting of MSRs.

Changes in the commercial and residential MSRs follow:

## Table 53: Mortgage Servicing Rights

(a) Represents decrease in MSR value due to passage of time, including the impact from regularly scheduled loan principal payments, prepayments and loans that were paid off during the period.
(b) Represents MSR value changes resulting primarily from market-driven changes in interest rates.

## Sensitivity Analysis

The fair value of commercial and residential MSRs and significant inputs to the valuation models as of March 31, 2023 and December 31, 2022 are shown in Tables 54 and 55. The expected and actual rates of mortgage loan prepayments are significant factors driving the fair value. Management uses both internal proprietary models and a third-party model to estimate future commercial mortgage loan prepayments and a third-party model to estimate future residential mortgage loan prepayments. These models have been refined based on current market conditions and management judgment. Future interest rates are another important factor in the valuation of MSRs. Management utilizes market implied forward interest rates to estimate the future direction of mortgage and discount rates. The forward rates utilized are derived from the current yield curve for U.S. dollar interest rate swaps and are consistent with pricing of capital markets instruments. Changes in the shape and slope of the forward curve in future periods may result in volatility in the fair value estimate.

A sensitivity analysis of the hypothetical effect on the fair value of MSRs to adverse changes in key assumptions is presented in Tables 54 and 55 . These sensitivities do not include the impact of the related hedging activities. Changes in fair value generally cannot be extrapolated because the relationship of the change in the assumption to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the MSRs is calculated independently without changing any other assumption. In reality, changes in one factor may result in changes in another (e.g., changes in mortgage interest rates, which drive changes in prepayment rate estimates, could result in changes in the interest rate spread), which could either magnify or counteract the sensitivities.

The following tables set forth the fair value of commercial and residential MSRs and the sensitivity analysis of the hypothetical effect on the fair value of MSRs to immediate adverse changes of $10 \%$ and $20 \%$ in those assumptions:

Fees from mortgage loan servicing, which include contractually specified servicing fees, late fees and ancillary fees were $\$ 0.2$ billion and $\$ 0.1$ billion for the three months ended March 31, 2023 and 2022, respectively. We also generate servicing fees from fee-based activities provided to others for which we do not have an associated servicing asset. Fees from commercial and residential MSRs are reported within Noninterest income on our Consolidated Income Statement in Residential and commercial mortgage.

## Note 6 Leases

PNC's lessor arrangements primarily consist of direct financing, sales-type and operating leases for equipment. Lease agreements may include options to renew and for the lessee to purchase the leased equipment at the end of the lease term. For more information on lease accounting, see Note 1 Accounting Policies and Note 7 Leases in our 2022 Form 10-K.

| Total Bank |  |  |  | 41,231 |  | 41,936 |
| Total |  |  | \$ | 57,272 | \$ | 55,039 |

(a) FHLB borrowings are generally collateralized by residential mortgage loans, other mortgage-related loans and investment securities.

In Table 58, the carrying values for Parent Company senior and subordinated debt include basis adjustments of \$(557) million and \$(47) million, respectively, whereas Bank senior and subordinated debt include basis adjustments of \$(202) million and \$(179) million, respectively, related to fair value accounting hedges as of March 31, 2023.

Certain borrowings are reported at fair value. Refer to Note 11 Fair Value for more information on those borrowings.
For further information regarding junior subordinated debentures refer to Note 10 Borrowed Funds in our 2022 Form 10-K.

## Note 8 Commitments

In the normal course of business, we have various commitments outstanding, certain of which are not included on our Consolidated Balance Sheet. The following table presents our outstanding commitments to extend credit along with other commitments as of March 31, 2023 and December 31, 2022, respectively.

## Table 59: Commitments to Extend Credit and Other Commitments

| In millions | March 31, 2023 |  | December 31, 2022 |  |
| :---: | :---: | :---: | :---: | :---: |
| Commitments to extend credit |  |  |  |  |
| Commercial | \$ | 194,702 | \$ | 198,542 |
| Home equity |  | 23,668 |  | 22,783 |
| Credit card |  | 33,835 |  | 33,066 |
| Other |  | 7,623 |  | 7,337 |
| Total commitments to extend credit |  | 259,828 |  | 261,728 |
| Net outstanding standby letters of credit (a) |  | 11,017 |  | 10,575 |
| Standby bond purchase agreements (b) |  | 1,193 |  | 1,208 |
| Other commitments (c) |  | 3,426 |  | 3,661 |
| Total commitments to extend credit and other commitments | \$ | 275,464 | \$ | 277,172 |

(a) Net outstanding standby letters of credit include $\$ 3.9$ billion and $\$ 3.6$ billion at March 31, 2023 and December 31, 2022, respectively, which support remarketing programs.
(b) We enter into standby bond purchase agreements to support municipal bond obligations.
(c) Includes $\$ 2.0$ billion and $\$ 2.2$ billion related to investments in qualified affordable housing projects at March 31, 2023 and December 31, 2022, respectively.

## Commitments to Extend Credit

Commitments to extend credit, or net unfunded loan commitments, represent arrangements to lend funds or provide liquidity subject to specified contractual conditions. These commitments generally have fixed expiration dates, may require payment of a fee, and generally contain termination clauses in the event the customer's credit quality deteriorates.

## Net Outstanding Standby Letters of Credit

We issue standby letters of credit and share in the risk of standby letters of credit issued by other financial institutions, in each case to support obligations of our customers to third parties, such as insurance requirements and the facilitation of transactions involving capital markets product execution. Approximately $98 \%$ of our net outstanding standby letters of credit were rated as Pass at March 31, 2023, with the remainder rated as Criticized. An internal credit rating of Pass indicates the expected risk of loss is currently low, while a rating of Criticized indicates a higher degree of risk.

If the customer fails to meet its financial or performance obligation to the third party under the terms of the contract or there is a need to support a remarketing program, then upon a draw by a beneficiary, subject to the terms of the letter of credit, we would be obligated to make payment to them. The standby letters of credit outstanding on March 31, 2023 had terms ranging from less than one year to eight years.

As of March 31, 2023, assets of $\$ 1.3$ billion secured certain specifically identified standby letters of credit. In addition, a portion of the remaining standby letters of credit issued on behalf of specific customers is also secured by collateral or guarantees that secure the customers' other obligations to us. The carrying amount of the liability for our obligations related to standby letters of credit and participations in standby letters of credit was $\$ 0.2$ billion at March 31, 2023 and is included in Other liabilities on our Consolidated Balance Sheet.

## Note 11 Fair Value

## Fair Value Measurement

We measure certain financial assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or the price that would be paid to transfer a liability on the measurement date and is determined using an exit price in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The fair value hierarchy established by GAAP requires us to maximize the use of observable inputs when measuring fair value. For more information regarding the fair value hierarchy, see Note 15 Fair Value in our 2022 Form 10-K.

## Assets and Liabilities Measured at Fair Value on a Recurring Basis

For more information on the valuation methodologies used to measure assets and liabilities at fair value on a recurring basis, see Note 15 Fair Value in our 2022 Form 10-K. The following table summarizes our assets and liabilities measured at fair value on a recurring basis, including instruments for which we have elected the fair value option.

(a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.
(b) Included in Other assets on the Consolidated Balance Sheet.
(c) Amounts at March 31, 2023 and December 31, 2022 are presented gross and are not reduced by the impact of legally enforceable master netting agreements that allow us to net positive and negative positions and cash collateral held or placed with the same counterparty. See Note 12 Financial Derivatives for additional information related to derivative offsetting.
(d) Total assets at fair value as a percentage of total consolidated assets was $10 \%$ and $11 \%$ as of March 31, 2023 and December 31, 2022, respectively. Level 3 assets as a percentage of total assets at fair value was $12 \%$ at both March 31, 2023 and December 31, 2022. Level 3 assets as a percentage of total consolidated assets was $1 \%$ at both March 31, 2023 and December 31, 2022.
(e) Included in Other liabilities on the Consolidated Balance Sheet.
(f) Total liabilities at fair value as a percentage of total consolidated liabilities was $2 \%$ at both March 31, 2023 and December 31, 2022. Level 3 liabilities as a percentage of total liabilities at fair value was $4 \%$ at both March 31, 2023 and December 31, 2022. Level 3 liabilities as a percentage of total consolidated liabilities was less than $1 \%$ at both March 31, 2023 and December 31, 2022.

Reconciliations of assets and liabilities measured at fair value on a recurring basis using Level 3 inputs for the three months ended March 31, 2023 and 2022 are as follows:

## Three Months Ended March 31, 2022

(a) Losses for assets are bracketed while losses for liabilities are not.
(b) The difference in unrealized gains and losses for the period included in Other comprehensive income and changes in unrealized gains and losses for the period included in Other comprehensive income for securities available for sale held at the end of the reporting period were insignificant.
(c) The amount of the total gains or losses for the period included in earnings that is attributable to the change in unrealized gains or losses related to those assets and liabilities held at the end of the reporting period.
(d) Transfers out of Level 3 during the current period were due to valuation methodology changes for certain private company investments. See Note 1 Accounting Policies in our 2022 Form $10-\mathrm{K}$ for more information on our accounting for private company investments.
(e) Residential mortgage loan transfers out of Level 3 are primarily driven by residential mortgage loans transferring to OREO as well as reclassification of mortgage loans held for sale to held for investment.
(f) Net gains (losses) realized and unrealized included in earnings related to Level 3 assets and liabilities included amortization and accretion. The amortization and accretion amounts were included in Interest income on the Consolidated Income Statement and the remaining net gains (losses) realized and unrealized were included in Noninterest income on the Consolidated Income Statement.
(g) Net unrealized gains (losses) related to assets and liabilities held at the end of the reporting period were included in Noninterest income on the Consolidated Income Statement.

## Financial Assets Accounted for at Fair Value on a Nonrecurring Basis

We may be required to measure certain financial assets at fair value on a nonrecurring basis. These adjustments to fair value usually result from the application of lower of amortized cost or fair value accounting or write-downs of individual assets due to impairment and are included in Table 68. For more information regarding the valuation methodologies of our financial assets measured at fair value on a nonrecurring basis, see Note 15 Fair Value in our 2022 Form 10-K.

(c) Unobservable inputs used were appraised value/sales price, broker opinions or projected income/required improvement costs. Additional quantitative information was not meaningful for the periods presented.

## Financial Instruments Accounted for under Fair Value Option

We elect the fair value option to account for certain financial instruments. For more information on these financial instruments for which the fair value option election has been made, see Note 15 Fair Value in our 2022 Form 10-K.

Fair values and aggregate unpaid principal balances of items for which we elected the fair value option are as follows:

## Additional Fair Value Information Related to Financial Instruments Not Recorded at Fair Value

The following table presents the carrying amounts and estimated fair values, as well as the level within the fair value hierarchy, of all other financial instruments that are not recorded on our Consolidated Balance Sheet at fair value as of March 31, 2023 and December 31, 2022. For more information regarding the methods and assumptions used to estimate the fair values of financial instruments included in Table 71, see Note 15 Fair Value in our 2022 Form 10-K.

The aggregate fair values in Table 71 represent only a portion of the total market value of our assets and liabilities as, in accordance with the guidance related to fair values about financial instruments, we exclude the following:

- financial instruments recorded at fair value on a recurring basis (as they are disclosed in Table 65),
- investments accounted for under the equity method,
- equity securities without a readily determinable fair value that apply for the alternative measurement approach to fair value under ASU 2016-01,
- real and personal property,
- lease financing,
- loan customer relationships,
- deposit customer intangibles,
- mortgage servicing rights (MSRs),
- retail branch networks,
- fee-based businesses, such as asset management and brokerage,
- trademarks and brand names,
- trade receivables and payables due in one year or less,
- deposit liabilities with no defined or contractual maturities under ASU 2016-01, and
- insurance contracts.

## Note 12 Financial Derivatives

We use a variety of financial derivatives to both mitigate exposure to market (primarily interest rate) and credit risks inherent in our business activities, as well as to facilitate customer risk management activities. We manage these risks as part of our overall asset and liability management process and through our credit policies and procedures. Derivatives represent contracts between parties that usually require little or no initial net investment and result in one party delivering cash or another type of asset to the other party based on a notional amount and an underlying as specified in the contract.

Derivative transactions are often measured in terms of notional amount, but this amount is generally not exchanged and it is not recorded on the balance sheet. The notional amount is the basis to which the underlying is applied to determine required payments under the derivative contract. The underlying is a referenced interest rate, security price, credit spread or other index. Residential and commercial real estate loan commitments associated with loans to be sold also qualify as derivative instruments.

For more information regarding derivatives see Note 1 Accounting Policies and Note 16 Financial Derivatives in our 2022 Form 10-K.

The following table presents the notional and gross fair value amounts of all derivative assets and liabilities held by us:

(a) Centrally cleared derivatives are settled in cash daily and result in no derivative asset or derivative liability being recognized on our Consolidated Balance Sheet.
(b) Included in Other assets on our Consolidated Balance Sheet.
(c) Included in Other liabilities on our Consolidated Balance Sheet.
(d) Represents primarily swaps.
(e) Includes both residential and commercial mortgage banking activities.
(f) Futures contracts are settled in cash daily and result in no derivative asset or derivative liability being recognized on our Consolidated Balance Sheet.

All derivatives are carried on our Consolidated Balance Sheet at fair value. Derivative balances are presented on the Consolidated Balance Sheet on a net basis taking into consideration the effects of legally enforceable master netting agreements and, when appropriate, any related cash collateral exchanged with counterparties. Further discussion regarding the offsetting rights associated with these legally enforceable master netting agreements is included in the Offsetting and Counterparty Credit Risk section of this Note 12. Any nonperformance risk, including credit risk, is included in the determination of the estimated net fair value of the derivatives.

## Derivatives Designated As Hedging Instruments

Certain derivatives used to manage interest rate and foreign exchange risk as part of our asset and liability risk management activities are designated as accounting hedges. Derivatives hedging the risks associated with changes in the fair value of assets or liabilities are considered fair value hedges, derivatives hedging the variability of expected future cash flows are considered cash flow hedges and derivatives hedging a net investment in a foreign subsidiary are considered net investment hedges. Designating derivatives as accounting hedges allows for gains and losses on those derivatives to be recognized in the same period and in the same income statement line item as the earnings impact of the hedged items.

## Fair Value Hedges

We enter into receive-fixed, pay-variable interest rate swaps to hedge changes in the fair value of outstanding fixed-rate debt caused by fluctuations in market interest rates. We also enter into pay-fixed, receive-variable interest rate swaps and zero-coupon swaps to hedge changes in the fair value of fixed rate and zero-coupon investment securities caused by fluctuations in market interest rates. Gains and losses on the interest rate swaps designated in these hedge relationships, along with the offsetting gains and losses on the hedged items attributable to the hedged risk, are recognized in current earnings within the same income statement line item.

## Cash Flow Hedges

We enter into receive-fixed, pay-variable interest rate swaps and interest rate caps and floors to modify the interest rate characteristics of designated commercial loans from variable to fixed in order to reduce the impact of changes in future cash flows due to market interest rate changes. We also periodically enter into forward purchase and sale contracts to hedge the variability of the consideration that will be paid or received related to the purchase or sale of investment securities. The forecasted purchase or sale is consummated upon gross settlement of the forward contract itself. For these cash flow hedges, gains and losses on the hedging instruments are recorded in AOCI and are then reclassified into earnings in the same period the hedged cash flows affect earnings and within the same income statement line as the hedged cash flows.

In the 12 months that follow March 31, 2023, we expect to reclassify net derivative losses of $\$ 1.4$ billion pretax, or $\$ 1.0$ billion aftertax, from AOCI to interest income for these cash flow hedge strategies. This reclassified amount could differ from amounts actually recognized due to changes in interest rates, hedge de-designations and the addition of other hedges subsequent to March 31, 2023. As of March 31, 2023, the maximum length of time over which forecasted transactions are hedged is ten years.

Further detail regarding gains (losses) related to our fair value and cash flow hedge derivatives is presented in the following table:

(a) For all periods presented, there were no components of derivative gains or losses excluded from the assessment of hedge effectiveness for any of the fair value or cash flow hedge strategies.
(b) All cash flow and fair value hedge derivatives were interest rate contracts for the periods presented.
(c) Includes an insignificant amount of fair value hedge adjustments related to discontinued hedge relationships.
(d) For all periods presented, there were no gains or losses from cash flow hedge derivatives reclassified to income because it became probable that the original forecasted transaction would not occur.

Detail regarding the impact of fair value hedge accounting on the carrying value of the hedged items is presented in the following table:

## Table 74: Hedged Items - Fair Value Hedges

(a) Includes less than $\$(0.1)$ billion of fair value hedge adjustments primarily related to discontinued borrowed funds hedge relationships at both March 31 , 2023 and December 31, 2022.
(b) Carrying value shown represents amortized cost.

## Net Investment Hedges

We enter into foreign currency forward contracts to hedge non-U.S. dollar net investments in foreign subsidiaries against adverse changes in foreign exchange rates. We assess whether the hedging relationship is highly effective in achieving offsetting changes in the value of the hedge and hedged item by qualitatively verifying that the critical terms of the hedge and hedged item match at the inception of the hedging relationship and on an ongoing basis. Net investment hedge derivatives are classified as foreign exchange contracts. There were no components of derivative gains or losses excluded from the assessment of the hedge effectiveness for the periods presented. Net gains (losses) on net investment hedge derivatives recognized in OCI were insignificant for both the three months ended March 31, 2023 and 2022.

## Derivatives Not Designated As Hedging Instruments

For additional information on derivatives not designated as hedging instruments under GAAP, see Note 16 Financial Derivatives in our 2022 Form 10-K.

Further detail regarding the gains (losses) on derivatives not designated in hedging relationships is presented in the following table:

## Offsetting and Counterparty Credit Risk

We generally utilize a net presentation on the Consolidated Balance Sheet for those derivative financial instruments entered into with counterparties under legally enforceable master netting agreements. The master netting agreements reduce credit risk by permitting the closeout netting of all outstanding derivative instruments under the master netting agreement with the same counterparty upon the occurrence of an event of default. The master netting agreement also may require the exchange of cash or marketable securities to collateralize either party's net position. For additional information on derivative offsetting and counterparty credit risk, see Note 16 Financial Derivatives in our 2022 Form 10-K.

Table 76 shows the impact legally enforceable master netting agreements had on our derivative assets and derivative liabilities at March 31, 2023 and December 31, 2022. The table includes cash collateral held or pledged under legally enforceable master netting agreements. The table also includes the fair value of any securities collateral held or pledged under legally enforceable master netting agreements. Cash and securities collateral amounts are included in the table only to the extent of the related net derivative fair values.

Table 76 includes OTC derivatives not settled through an exchange ("OTC derivatives") and OTC derivatives cleared through a central clearing house ("OTC cleared derivatives"). OTC derivatives represent contracts executed bilaterally with counterparties that are not settled through an organized exchange or directly cleared through a central clearing house. The majority of OTC derivatives are governed by the ISDA documentation or other legally enforceable master netting agreements. OTC cleared derivatives represent contracts executed bilaterally with counterparties in the OTC market that are novated to a central clearing house who then becomes our counterparty. OTC cleared derivative instruments are typically settled in cash each day based on the prior day value.

(b) Represents the net amount of derivative liabilities included in Other liabilities on our Consolidated Balance Sheet.

In addition to using master netting agreements and other collateral agreements to reduce credit risk associated with derivative instruments, we also seek to manage credit risk by evaluating credit ratings of counterparties and by using internal credit analysis, limits, and monitoring procedures.

At March 31, 2023, cash and debt securities (primarily agency mortgage-backed securities) totaling $\$ 1.4$ billion were pledged to us under master netting agreements and other collateral agreements to collateralize net derivative assets due from counterparties and to meet initial margin requirements, and we pledged cash and debt securities (primarily agency mortgage-backed securities) totaling $\$ 1.7$ billion under these agreements to collateralize net derivative liabilities owed to counterparties and to meet initial margin requirements. These totals may differ from the amounts presented in the preceding offsetting table because these totals may include collateral exchanged under an agreement that does not qualify as a master netting agreement or because the total amount of collateral pledged exceeds the net derivative fair values with the counterparty as of the balance sheet date due to timing or other factors, such as initial margin. To the extent not netted against the derivative fair values under a master netting agreement, the receivable for cash pledged is included in Other assets and the obligation for cash held is included in Other liabilities on our Consolidated Balance Sheet. Securities pledged to us by counterparties are not recognized on our balance sheet. Likewise, securities we have pledged to counterparties remain on our balance sheet.

## Credit-Risk Contingent Features

Certain derivative agreements contain various credit-risk-related contingent provisions, such as those that require our debt to maintain a specified credit rating from one or more of the major credit rating agencies. If our debt ratings were to fall below such specified ratings, the counterparties to the derivative instruments could request immediate payment or demand immediate and ongoing full collateralization on derivative instruments in net liability positions. The following table presents the aggregate fair value of derivative instruments with credit-risk-related contingent features, the associated collateral posted in the normal course of business and the maximum amount of collateral we would be required to post if the credit-risk-related contingent features underlying these agreements had been triggered on March 31, 2023 and December 31, 2022.

Table 77: Credit-Risk Contingent Features

|  | March 31 <br> In billions | December 31 <br> 2023 |
| :--- | ---: | ---: |
| Net derivative liabilities with credit-risk contingent features | 4.3 | $\$$ |

## Note 13 Legal Proceedings

We establish accruals for legal proceedings, including litigation and regulatory and governmental investigations and inquiries, when information related to the loss contingencies represented by those matters indicates both that a loss is probable and that the amount of loss can be reasonably estimated. Any such accruals are adjusted thereafter as appropriate to reflect changed circumstances. When we are able to do so, we also determine estimates of reasonably possible losses or ranges of reasonably possible losses, whether in excess of any related accrued liability or where there is no accrued liability, for disclosed legal proceedings ("Disclosed Matters," which are those matters disclosed in this Note 13 as well as those matters disclosed in Note 21 Legal Proceedings in our 2022 Form 10-K (such prior disclosure referred to as "Prior Disclosure")). For Disclosed Matters where we are able to estimate such possible losses or ranges of possible losses, as of March 31, 2023, we estimate that it is reasonably possible that we could incur losses in excess of related accrued liabilities, if any, in an aggregate amount less than $\$ 300$ million. The estimates included in this amount are based on our analysis of currently available information and are subject to significant judgment and a variety of assumptions and uncertainties. As new information is obtained we may change our estimates. Due to the inherent subjectivity of the assessments and unpredictability of outcomes of legal proceedings, any amounts accrued or included in this aggregate amount may not represent the ultimate loss to us from the legal proceedings in question. Thus, our exposure and ultimate losses may be higher, and possibly significantly so, than the amounts accrued or this aggregate amount.

As a result of the types of factors described in Note 21 Legal Proceedings in our 2022 Form 10-K, we are unable, at this time, to estimate the losses that are reasonably possible to be incurred or ranges of such losses with respect to some of the matters disclosed, and the aggregate estimated amount provided above does not include an estimate for every Disclosed Matter. Therefore, as the estimated aggregate amount disclosed above does not include all of the Disclosed Matters, the amount disclosed above does not represent our maximum reasonably possible loss exposure for all of the Disclosed Matters. The estimated aggregate amount also does not reflect any of our exposure to matters not so disclosed, as discussed below under "Other."

We include in some of the descriptions of individual Disclosed Matters certain quantitative information related to the plaintiff's claim against us as alleged in the plaintiff's pleadings or other public filings or otherwise publicly available information. While information of this type may provide insight into the potential magnitude of a matter, it does not necessarily represent our estimate of reasonably possible loss or our judgment as to any currently appropriate accrual.

Some of our exposure in Disclosed Matters may be offset by applicable insurance coverage. We do not consider the possible availability of insurance coverage in determining the amounts of any accruals (although we record the amount of related insurance recoveries that are deemed probable up to the amount of the accrual) or in determining any estimates of possible losses or ranges of possible losses.

## Interchange Litigation

In March 2023, the court of appeals affirmed in all material respects the district court's approval of the amended definitive agreement entered into by the relevant parties to resolve the claims of the class seeking damages in the antitrust lawsuits that have been consolidated for pre-trial proceedings in the U.S. District Court for the Eastern District of New York under the caption In re Payment Card Interchange Fee and Merchant-Discount Antitrust Litigation (Master File No. 1:05-md-1720-MKB-JO). Later in March, certain objectors petitioned for rehearing in the court of appeals by either the panel that decided the appeal or the court en banc.

## USAA Patent Infringement Litigation

In March 2023, in United Services Automobile Association v. PNC Bank N.A. (Case No. 2:20-cv-319) (the "first Texas case") and United Services Automobile Association v. PNC Bank N.A. (Case No. 2:21-cv-110) (together, "the first consolidated cases"), the court denied all of PNC's post-trial motions, including for a new trial in the first consolidated cases. In April 2023, PNC noticed an appeal to the U.S. Court of Appeals for the Federal Circuit regarding the final judgment entered against PNC.

In March 2023, in United Services Automobile Association v. PNC Bank N.A. (Case No. 2:21-cv-246) and the case for PNC's patent infringement counterclaims (originally asserted in the first Texas case) (together, the "second consolidated cases"), the court denied USAA's motion for a new trial on damages, and, in April 2023, the court denied USAA's motion for a judgment as a matter of law regarding damages in the second consolidated cases. Also in March 2023, PNC noticed an appeal to the U.S. Court of Appeals for the Federal Circuit regarding the final judgment entered against PNC.

## Regulatory and Governmental Inquiries

We are the subject of investigations, audits, examinations and other forms of regulatory and governmental inquiry covering a broad range of issues in our consumer, mortgage, brokerage, securities and other financial services businesses, as well as other aspects of our operations. In some cases, these inquiries are part of reviews of specified activities at multiple industry participants; in others, they are directed at PNC individually. From time to time, these inquiries have involved and may in the future involve or lead to regulatory enforcement actions and other administrative proceedings. These inquiries have also led to and may in the future lead to civil or criminal judicial proceedings. Some of these inquiries result in remedies including fines, penalties, restitution, or alterations in our business practices, and in additional expenses and collateral costs and other consequences. Such remedies and other consequences typically have not been material to us from a financial standpoint, but could be in the future. Even if not financially material, they may result in significant reputational harm or other adverse consequences.

Our practice is to cooperate fully with regulatory and governmental investigations, audits and other inquiries.

## Other

In addition to the proceedings or other matters described in Prior Disclosure, PNC and persons to whom we may have indemnification obligations, in the normal course of business, are subject to various other pending and threatened legal proceedings in which claims for monetary damages and other relief are asserted. We do not anticipate, at the present time, that the ultimate aggregate liability, if any, arising out of such other legal proceedings will have a material adverse effect on our financial position. However, we cannot now determine whether or not any claims asserted against us or others to whom we may have indemnification obligations, whether in the proceedings or other matters described above or otherwise, will have a material adverse effect on our results of operations in any future reporting period, which will depend on, among other things, the amount of the loss resulting from the claim and the amount of income otherwise reported for the reporting period.

## Note 14 Segment Reporting

We have three reportable business segments:

- Retail Banking
- Corporate \& Institutional Banking
- Asset Management Group

Results of individual businesses are presented based on our internal management reporting practices. There is no comprehensive, authoritative body of guidance for management accounting equivalent to GAAP; therefore, the financial results of our individual businesses are not necessarily comparable with similar information for any other company. We periodically refine our internal methodologies as management reporting practices are enhanced. To the extent significant and practicable, retrospective application of new methodologies is made to prior period reportable business segment results and disclosures to create comparability with the current period.

Total business segment financial results differ from total consolidated net income. These differences are reflected in the "Other" category in Table 78. "Other" includes residual activities that do not meet the criteria for disclosure as a separate reportable business, such as asset and liability management activities, including net securities gains or losses, ACL for investment securities, certain trading activities, certain runoff consumer loan portfolios, private equity investments, intercompany eliminations, certain corporate overhead, tax adjustments that are not allocated to business segments, exited businesses and differences between business segment performance reporting and financial statement reporting (GAAP). Assets, revenue and earnings attributable to foreign activities were not material in the periods presented for comparison.

Financial results are presented, to the extent practicable, as if each business operated on a standalone basis. Additionally, we have aggregated the results for corporate support functions within "Other" for financial reporting purposes.

Net interest income in business segment results reflects our internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.

We have allocated the ALLL and the allowance for unfunded lending related commitments based on the loan exposures within each business segment's portfolio. Key reserve assumptions and estimation processes react to and are influenced by observed changes in loan portfolio performance experience, the financial strength of the borrower and economic conditions. Key reserve assumptions are periodically updated.

## Business Segment Products and Services

Retail Banking provides deposit, lending, brokerage, insurance services, investment management and cash management products and services to consumer and small business customers who are serviced through our coast-to-coast branch network, digital channels, ATMs, or through our phone-based customer contact centers. Deposit products include checking, savings and money market accounts and time deposits. Lending products include residential mortgages, home equity loans and lines of credit, auto loans, credit cards, education loans and personal and small business loans and lines of credit. The residential mortgage loans are directly originated within our branch network and nationwide, and are typically underwritten to agency and/or third-party standards, and either sold, servicing retained or held on our balance sheet. Brokerage, investment management and cash management products and services include managed, education, retirement and trust accounts.

Corporate \& Institutional Banking provides lending, treasury management, capital markets and advisory products and services to mid-sized and large corporations and government and not-for-profit entities. Lending products include secured and unsecured loans, letters of credit and equipment leases. The Treasury Management business provides corporations with cash and investment management services, receivables and disbursement management services, funds transfer services, international payment services and access to online/mobile information management and reporting services. Capital markets and advisory includes services and activities primarily related to merger and acquisitions advisory, equity capital markets advisory, asset-backed financing, loan syndication, securities underwriting and customer-related trading. We also provide commercial loan servicing and technology solutions for the commercial real estate finance industry. Products and services are provided nationally.

Asset Management Group provides private banking for high net worth and ultra high net worth clients and institutional asset management. The Asset Management group is composed of two operating units:

- PNC Private Bank provides products and services to emerging affluent, high net worth and ultra high net worth individuals and their families, including investment and retirement planning, customized investment management, credit and cash management solutions, trust management and administration. In addition, multi-generational family planning services are
also provided to ultra high net worth individuals and their families, which include estate, financial, tax, fiduciary and customized performance reporting through PNC Private Bank Hawthorn.
- Institutional Asset Management provides outsourced chief investment officer, custody, private real estate, cash and fixed income client solutions, retirement plan fiduciary investment services to institutional clients, including corporations, healthcare systems, insurance companies, unions, municipalities and non-profits.

## Note 15 Fee-based Revenue from Contracts with Customers

As more fully described in Note 24 Fee-based Revenue from Contracts with Customers in our 2022 Form 10-K, a subset of our noninterest income relates to certain fee-based revenue within the scope of ASC Topic 606 - Revenue from Contracts with Customers (Topic 606).

Fee-based revenue within the scope of Topic 606 is recognized within our three reportable business segments: Retail Banking, Corporate \& Institutional Banking and Asset Management Group. Interest income, income from lease contracts, fair value gains from financial instruments (including derivatives), income from mortgage servicing rights and guarantee products, letter of credit fees, nonrefundable fees associated with acquiring or originating a loan and gains from the sale of financial assets are outside of the scope of Topic 606.

In the fourth quarter of 2022, PNC updated the name of the noninterest income line item "Capital markets related" to "Capital markets and advisory." This update did not impact the components of the category. All periods presented herein reflect these changes. For a description of each updated noninterest income revenue stream, see Note 1 Accounting Policies.

Table 79 presents the noninterest income recognized within the scope of Topic 606 for each of our three reportable business segments' principal products and services, along with the relationship to the noninterest income revenue streams shown on our Consolidated Income Statement. For a description of the fee-based revenue and how it is recognized for each segment's principal products and services, see Note 24 Fee-based Revenue from Contracts with Customers in our 2022 Form 10-K.

## Average Consolidated Balance Sheet And Net Interest Analysis (a) (b) (c) (Continued)

(a) Nonaccrual loans are included in loans, net of unearned income. The impact of financial derivatives used in interest rate risk management is included in the interest income/ expense and average yields/rates of the related assets and liabilities. Basis adjustments related to hedged items are included in noninterest-earning assets and noninterestbearing liabilities. Average balances of securities are based on amortized historical cost (excluding adjustments to fair value, which are included in other assets). Average balances for certain loans and borrowed funds accounted for at fair value are included in noninterest-earning assets and noninterest-bearing liabilities, with changes in fair value recorded in Noninterest income.
(b) Loan fees for the three months ended March 31, 2023, December 31, 2022 and March 31, 2022 were $\$ 46$ million, $\$ 42$ million and $\$ 60$ million, respectively.
(c) Interest income calculated as taxable-equivalent interest income. To provide more meaningful comparisons of interest income and yields for all interest-earning assets, as well as net interest margins, we use interest income on a taxable-equivalent basis in calculating average yields and net interest margin by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP. See Reconciliation of Taxable-Equivalent Net Interest Income in this Statistical Information section for more information.

## Reconciliation Of Taxable-Equivalent Net Interest Income (non-GAAP) (a)

| In millions | Three months ended |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | March 31, 2023 |  | December 31, 2022 |  | March 31, 2022 |  |
| Net interest income (GAAP) | \$ | 3,585 | \$ | 3,684 | \$ | 2,804 |
| Taxable-equivalent adjustments |  | 38 |  | 36 |  | 22 |
| Net interest income (non-GAAP) | \$ | 3,623 | \$ | 3,720 | \$ | 2,826 |

(a) The interest income earned on certain interest-earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of net interest income, we use interest income on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP.

## PART II - OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS

See the information set forth in Note 13 Legal Proceedings, which is incorporated by reference in response to this item.

## ITEM 1A. RISK FACTORS

There are no material changes from any of the risk factors previously disclosed in our 2022 Form 10-K in response to Part II, Item 1A and Part I, Item 1A, respectively, other than the addition of the following risk factor:

## A continuation of recent turmoil in our industry, and responsive measures to manage it, could have an adverse effect on our financial position or results of operations.

In recent months, several financial services institutions have failed or required outside liquidity support-in many cases, as a result of the inability of the institutions to obtain needed liquidity. The impact of this situation has led to risk of additional stress to other financial services institutions and the financial services industry generally as a result of increased lack of confidence in the financial sector. U.S. and international regulators have taken action in an effort to strengthen public confidence in the banking system, including the creation of a new Bank Term Funding Program and international coordination to enhance the provision of liquidity via the standing U.S. dollar liquidity swap line arrangements. There can be no assurance that these actions will stabilize the financial services industry and financial markets. While we currently do not anticipate liquidity constraints of the kind that caused certain other financial services institutions to fail or require external support, constraints on our liquidity could occur as a result of unanticipated deposit withdrawals because of market distress or our inability to access other sources of liquidity, including through the capital markets due to unforeseen market dislocations or interruptions. Moreover, some of our customers may become less willing to maintain deposits at PNC because of broader market concerns with the level of insurance available on those deposits. Our business and our financial condition and results of operations could be adversely affected by continued soundness concerns regarding financial institutions generally and our counterparties specifically and limitations resulting from further governmental action in an effort to stabilize or provide additional regulation of the financial system as well as the impact of excessive deposit withdrawals.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities
None.

## Equity Security Repurchases

Details of our repurchases of PNC common stock during the first quarter of 2023 are included in the following table.

| 2023 period <br> In thousands, except per share data | Total shares <br> purchased (a) | Average price <br> paid per share | Total shares purchased as part of publicly <br> announced programs $(\mathrm{b})$ | Maximum number of shares that may yet <br> be purchased under the programs $(\mathrm{b})$ |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| January 1-31 | 807 | $\$$ | 160.56 | 79,195 |  |
| February 1-28 | 1,191 | $\$$ | 160.23 | 760 | 47,435 |
| March 1-31 | 833 | $\$$ | 141.50 | 832 | 46,603 |
| Total | 2,831 | $\$$ | 154.82 | 2,391 |  |

(a) Includes PNC common stock purchased in connection with our various employee benefit plans generally related to forfeitures of unvested restricted stock awards and shares used to cover employee payroll tax withholding requirements. See Note 17 Employee Benefit Plans and Note 18 Stock Based Compensation Plans in our 2022 Form 10-K, which include additional information regarding our employee benefit and equity compensation plans that use PNC common stock.
(b) Consistent with the SCB framework, which allows for capital returns in amounts in excess of the SCB minimum levels, our Board of Directors has authorized a repurchase framework under the previously approved repurchase program of up to 100 million common shares, of which approximately $47 \%$ were still available for repurchase at March 31, 2023. Due to recent market volatility and increased economic uncertainty, share repurchase activity is expected to be reduced in the second quarter of 2023 compared to recent prior quarters. PNC continues to evaluate and may adjust share repurchase activity, as actual amounts and timing are dependent on market and economic conditions as well as other factors.

## CORPORATE INFORMATION

The PNC Financial Services Group, Inc.

## Internet Information

The PNC Financial Services Group, Inc.'s financial reports and information about its products and services are available on the internet at www.pnc.com. We provide information for investors on our corporate website under "About Us - Investor Relations." We use our Twitter account, @pncnews, as an additional way of disseminating to the public information that may be relevant to investors.

We generally post the following under "About Us - Investor Relations" shortly before or promptly following its first use or release: financially-related press releases, including earnings releases and supplemental financial information, various SEC filings, including annual, quarterly and current reports and proxy statements, presentation materials associated with earnings and other investor conference calls or events, and access to live and recorded audio from earnings and other investor conference calls or events. In some cases, we may post the presentation materials for other investor conference calls or events several days prior to the call or event. For earnings and other conference calls or events, we generally include in our posted materials a cautionary statement regarding forwardlooking and non-GAAP financial information, and we provide GAAP reconciliations when we include non-GAAP financial information. Such GAAP reconciliations may be in materials for the applicable presentation, in materials for prior presentations or in our annual, quarterly or current reports.

When warranted, we will also use our website to expedite public access to time-critical information regarding PNC instead of using a press release or a filing with the SEC for first disclosure of the information. In some circumstances, the information may be relevant to investors but directed at customers, in which case it may be accessed directly through the home page rather than "About Us - Investor Relations."

We are required to provide additional public disclosure regarding estimated income, losses and pro forma regulatory capital ratios under supervisory and PNC-developed hypothetical severely adverse economic scenarios, as well as information concerning our capital stress testing processes, pursuant to the stress testing regulations adopted by the Federal Reserve and the OCC. We are also required to make certain additional regulatory capital-related public disclosures about our capital structure, risk exposures, risk assessment processes, risk-weighted assets and overall capital adequacy, including market risk-related disclosures, under the regulatory capital rules adopted by the Federal banking agencies. Similarly, the Federal Reserve's rules require quantitative and qualitative disclosures about our LCR and, beginning in mid-2023, our NSFR. Under these regulations, we may satisfy these
requirements through postings on our website, and we have done so and expect to continue to do so without also providing disclosure of this information through filings with the SEC.

Other information posted on our corporate website that may not be available in our filings with the SEC includes information relating to our corporate governance and annual communications from our chairman to shareholders.

Where we have included internet addresses in this Report, such as our internet address and the internet address of the SEC, we have included those internet addresses as inactive textual references only. Except as specifically incorporated by reference into this Report, information on those websites is not part hereof.

## Financial Information

We are subject to the informational requirements of the Exchange Act and, in accordance with the Exchange Act, we file annual, quarterly and current reports, proxy statements and other information with the SEC. Our SEC File Number is 001-09718. You can obtain copies of these and other filings, including exhibits, electronically at the SEC's internet website at www.sec.gov or on our corporate internet website at www.pnc.com/secfilings. Shareholders and bond holders may also obtain copies of these filings without charge by contacting PNC Investor Relations at 800-843-2206, via the information request form at www.pnc.com/investorrelations for copies without exhibits, or via email to investor.relations@pnc.com for copies of exhibits, including financial statements and schedule exhibits where applicable. The interactive date file (XBRL) is only available electronically.

## Corporate Governance at PNC

Information about our Board of Directors and its committees and corporate governance, including our PNC Code of Business Conduct and Ethics (as amended from time to time), is available on our website at www.pnc.com/corporategovernance. In addition, any future waivers from a provision of the PNC Code of Business Conduct and Ethics covering any of our directors or executive officers (including our principal executive officer, principal financial officer and principal accounting officer or controller) will be posted at this internet address.

Shareholders who would like to request printed copies of the PNC Code of Business Conduct and Ethics or our Corporate Governance Guidelines or the charters of our Board's Audit, Nominating and Governance, Human Resources, or Risk Committees (all of which are posted on our website at www.pnc.com/corporategovernance) may do so by sending their requests to our Corporate Secretary at The PNC Financial Services Group, Inc. at The Tower at PNC Plaza, 300 Fifth Avenue, Pittsburgh, Pennsylvania 15222-2401. Copies will be provided without charge.

## Dividend Policy

Holders of PNC common stock are entitled to receive dividends when declared by our Board of Directors out of funds legally available for this purpose. Our Board of Directors may not pay or set apart dividends on the common stock until dividends for all past dividend periods on any series of outstanding preferred stock and certain outstanding capital securities issued by the parent company have been paid or declared and set apart for payment. The Board of Directors presently intends to continue the policy of paying quarterly cash dividends. The amount of any future dividends will depend on economic and market conditions, our financial condition and operating results, and other factors, including contractual restrictions and applicable government regulations and policies (such as those relating to the ability of bank and non-bank subsidiaries to pay dividends to the parent company and regulatory capital limitations). The amount of our dividend is also currently subject to the results of the supervisory assessment of capital adequacy and capital planning processes undertaken by the Federal Reserve as part of the CCAR process, which includes setting PNC's SCB, as described in the Capital Management portion of the Risk Management section of the Financial Review of this Report and in the Supervision and Regulation section in Item 1 of our 2022 Form 10-K.

## THE PNC FINANCIAL SERVICES GROUP, INC. 2016 INCENTIVE AWARD PLAN <br> * * *

## FIVE-YEAR RESTRICTED SHARE UNITS AWARD AGREEMENT

 (SECTION 16)This Agreement, which includes the attached appendices (this "Agreement"), sets forth the terms and conditions of your restricted share unit award made pursuant to The PNC Financial Services Group, Inc. 2016 Incentive Award Plan and any sub-plans thereto.

Appendix A to this Agreement sets forth additional terms and conditions of the Award, including restrictive covenant provisions. Appendix B to this Agreement sets forth certain definitions applicable to this Agreement generally. Appendix C to this Agreement sets forth the risk performance-based vesting conditions applicable to the Award and certain related definitions. The Addendum following Appendix C sets forth terms specific to California Employees (as defined in the Addendum). Capitalized terms not otherwise defined in the body of this Agreement have the meaning ascribed to such terms in the Plan or Appendices A, B or C.

The Corporation and the Grantee named below (referenced in this Agreement as "you" or "your") agree as follows:

Subject to your timely acceptance of this Agreement (as described in Section A below), the Corporation grants to you the Award set forth below, subject to the terms and conditions of the Plan and this Agreement.
A.

GRANT AND ACCEPTANCE OF RSUs

## GRANTEE

GRANT DATE
AWARD
\#ParticipantName\#
\#GrantDate\#
\#QuantityGranted\# Stock-payable restricted share units ("RSUs"), each representing a right to receive one Share (net of shares withheld for payment of applicable withholding taxes), and related Dividend Equivalents award, payable in cash (net of applicable withholding taxes).

You must accept this Award by delivering an executed unaltered copy of this Agreement to the Corporation within 30 days of your receipt of this Agreement. Upon such execution and
delivery of this Agreement by both you and the Corporation, this Agreement is effective as of the Grant Date (the "Award Effective Date"). If you do not properly accept this Award, the Corporation may, in its sole discretion, cancel the Award at any time thereafter.

## B.

## VESTING REQUIREMENTS

B. 1 An Award becomes vested only upon satisfaction of both the service-based vesting requirements and the risk performance-based vesting requirements set forth below.

## SERVICE-BASED <br> VESTING <br> REQUIREMENTS

RISK PERFORMANCE-
BASED VESTING
REQUIREMENTS

The Award is divided into three portions that will become eligible to vest beginning on the $3^{\text {rd }}$ anniversary of the Grant Date (each portion, a "Tranche") on three "Scheduled Vesting Dates," as follows:

- On the $3^{\text {rd }}$ anniversary of the Grant Date, the first Tranche equal to $25 \%$ of the total number of RSUs will become eligible to vest;
- On the $4^{\text {th }}$ anniversary of the Grant Date, the second Tranche equal to $25 \%$ of the total number of RSUs will become eligible to vest; and
- On the $5^{\text {th }}$ anniversary of the Grant Date, the third Tranche equal to the remaining number of RSUs will become eligible to vest;
in each case, provided you remain continuously employed by PNC through and including the applicable Scheduled Vesting Date (or such earlier date as prescribed by Section B. 2 below) and in compliance with the terms and conditions of this Agreement.

Provided the service-based vesting requirements have been met, each Tranche will vest on the applicable Scheduled Vesting

Date upon satisfaction of the risk performance metric applicable to that Tranche, as set forth in Appendix C to this Agreement.

## B. 2 <br> EFFECT OF TERMINATION OF EMPLOYMENT OR A CHANGE OF CONTROL ON SERVICE-BASED VESTING REQUIREMENTS

## TREATMENT UPON <br> DEATH

## TREATMENT UPON

 TERMINATION BYREASON OF DISABILITY OR ANTICIPATORY TERMINATION

TREATMENT UPON TERMINATION FOLLOWING A CHANGE OF CONTROL

Notwithstanding anything to the contrary in this Agreement, if your employment with PNC ceases by reason of your death, then the remainder of the service-based requirements of the Award will be satisfied as of your date of death, and the unvested portion of your Award will vest immediately upon death without risk adjustment; provided, however, that if the date of your death occurs after a calendar year bur prior to risk performancebased adjustment by the Committee for any given Tranche, the risk performance-based vesting requirements for such Tranche will be satisfied as further described in Appendix C.

Notwithstanding anything to the contrary in this Agreement, if your employment with PNC is terminated by PNC due to your Disability by reason of an Anticipatory Termination in anticipation of a Change of Control of PNC, and not for Cause (as determined by a PNC Designated Person), then any Tranches that remain outstanding will be paid out at the same time, subject to satisfaction of the risk performance-based vesting requirements and your continued compliance with the terms and conditions of this Agreement, as further described in Appendix C.

Notwithstanding anything to the contrary in this Agreement, if you have been continuously employed by PNC, including any successor entity, through the date of a Change of Control, and your employment with PNC is terminated following such Change of Control but prior to a Scheduled Vesting Date(s), either (a) by PNC other than
for Misconduct or (b) by you for Good Reason (a "Qualifying Termination"), then the service-based requirements of the Award will be satisfied as of your Termination Date, and the risk performance-based vesting requirements will be satisfied with respect to any outstanding Tranches as described in Appendix C.

For the avoidance of doubt, upon the occurrence of a Change of Control, the Award will not become vested until the service-based vesting requirements are satisfied, either on the Scheduled Vesting Dates as set forth in Section B.1. or as a result of your termination of employment by reason of death, Disability or an Anticipatory Termination or the occurrence of a Qualifying Termination.

## FORFEITURE

C. 1 FORFEITURE UPON

FAILURE TO MEET VESTING REQUIREMENTS

## C. 2 FORFEITURE IN CONNECTION WITH DETRIMENTAL CONDUCT

above, if you cease to be an employee of PNC prior to an applicable Scheduled Vesting Date and the satisfaction of the risk performancebased vesting requirements, you will not have satisfied the vesting requirements, and the outstanding portion of the Award will be automatically forfeited and cancelled as of your Termination Date.

Upon such forfeiture and cancellation, neither you nor your successors, heirs, assigns or legal representatives will have any further rights or interest in the Award under this Agreement.

At any time prior to a Scheduled Vesting Date, to the extent that PNC (acting through a PNC Designated Person) determines in its sole discretion (a) that you have engaged in Detrimental Conduct and (b) to forfeit and cancel (without payment of any consideration by PNC) all or a specified portion of the outstanding Award as a result of such
determination, then such portion will be forfeited and cancelled effective as of the date of such determination.

Upon such determination, neither you nor your successors, heirs, assigns or legal representatives will have any further rights or interest in the Award under this Agreement.
D.

## D. 1 GENERALLY

## D. 2 ACCRUED DIVIDEND EQUIVALENT PAYMENTS

## DIVIDEND EQUIVALENTS

As of the Award Effective Date, you will be entitled to earn accrued cash Dividend Equivalents on the final number of vested RSUs for each Tranche, in an amount equal to the cash dividends that would have been paid (without interest or reinvestment) between the Grant Date and the Scheduled Vesting Date for that Tranche (or such earlier date in the event of your death or a Change of Control), as though you were the record holder of such RSUs, and such RSUs had been issued and outstanding shares on the Grant Date through the Scheduled Vesting Date for that Tranche (or such earlier date in the event of your death or a Change of Control).
(a) Generally. Accrued Dividend Equivalents will vest and be paid out in cash, less the payment of any applicable withholding taxes pursuant to Section 6 of Appendix A, if and when the applicable Tranche vests and pays out (at which point such Dividend Equivalents will terminate). Dividend Equivalents are subject to the same vesting requirements and payout size adjustments as the Tranche to which they relate. If the RSUs to which such Dividend Equivalents relate are forfeited and cancelled, such related Dividend Equivalents will also be forfeited and cancelled without payment of any consideration by PNC.
(b) Payment Upon a Change of Control.

Accrual of Dividend Equivalents will cease as of the Change of Control. Upon a Change of

Control, Dividend Equivalents accrued (without reinvestment or interest) between the Grant Date and the Change of Control will vest and be paid out in cash, less the payment of any applicable withholding taxes pursuant to Section 6 of Appendix A, if and when the applicable Tranche vests and pays out, as if you were the record holder of the number of Shares equal to the number of vested RSUs underlying such Tranche from the Grant Date through the date of the Change of Control.

## E. PAYMENT OF THE AWARD

## E. 1 PAYMENT GENERALLY

## E. 2 FORM OF PAYMENT; <br> AMOUNT

(a) Timing Generally. Except as otherwise provided below, vested RSUs that remain outstanding will be settled as soon as practicable following (i) the applicable Scheduled Vesting Date (but no later than March $15^{\text {th }}$ following the year the applicable Scheduled Vesting Date occurs), or (ii) your date of death, if your date of death is prior to the last Scheduled Vesting Date (but no later than December $31^{\text {st }}$ of the year following the year of your death).
(b) Amount. The payout size of each Tranche of the Award shall be subject to a risk performance adjustment ranging from $0.00 \%$ to $100.00 \%$ of the target number of RSUs applicable to each such Tranche, rounded down to the nearest whole share unit. In no event shall the payout size be greater than $100.00 \%$ for any Tranche, and if the risk related performance adjustment is determined by the Committee to be $0.00 \%$, such Tranche shall be forfeited.

## (a) Payment Generally.

Except as provided in subsection (b) below, vested RSUs will be settled at the time set forth in this Section E. 1 by delivery to you of that number of whole Shares equal to the number of RSUs less the payment of any

## F. RESTRICTIVE COVENANTS

## G. CLAWBACK

applicable withholding taxes pursuant to Section 6 of Appendix A.

## (b) Payment On or After a Change of Control.

Upon vesting on or after a Change of Control, vested RSUs will be settled at the time set forth in Section E. 1 by payment to you of cash in an amount equal to that number of whole Shares equal to the number of vested RSUs, multiplied by the then current Fair Market Value of a share of Common Stock on the date of the Change of Control (subject to any applicable adjustment pursuant to Section 2 of Appendix A), less the payment of any applicable withholding taxes pursuant to Section 6 of Appendix A. Related accrued Dividend Equivalent payments will be paid to you in cash as described in Section D.2(b).

No interest will be paid with respect to any such payments made pursuant to this Section E.

Upon your acceptance of this Award, you shall become subject to the restrictive covenant provisions set forth in Section 1 of Appendix A.

The Award, and any right to receive and retain any Shares (if applicable), cash or other value pursuant to the Award, is subject to rescission, cancellation or recoupment, in whole or in part, if and to the extent so provided under the Corporation's Incentive Compensation Adjustment and Clawback Policy, as in effect from time to time with respect to the Award, or any other applicable clawback, adjustment or similar policy in effect on or established after the Grant Date and to any clawback or recoupment that may be required by applicable law or regulation.

By accepting this Award, you agree that you are obligated to provide all assistance necessary to the Corporation to recover or
recoup the Shares, cash or other value pursuant to the Award which are subject to recovery or recoupment pursuant to applicable law, government regulation, stock exchange listing requirement or PNC policy. Such assistance shall include completing any documentation necessary to recover or recoup the Shares, cash or other value pursuant to the Award from any accounts you maintain with PNC or any pending or future compensation.

A copy of the Incentive Compensation Adjustment and Clawback Policy is included in the materials distributed to you with this Agreement.

# THE PNC FINANCIAL SERVICES GROUP, INC. 2016 INCENTIVE AWARD PLAN 

## RESTRICTED SHARE UNITS AWARD AGREEMENT (SECTION 16)

## APPENDIX A

## ADDITIONAL PROVISIONS

1. Restrictive Covenants. You and PNC acknowledge and agree that you have received adequate consideration with respect to enforcement of the provisions of this Section 1 by virtue of accepting this Award (regardless of whether the Award or any portion thereof is ultimately settled and paid to you); that such provisions are reasonable and properly required for the adequate protection of the business of PNC and its subsidiaries; and that enforcement of such provisions will not prevent you from earning a living.
(a) Non-Solicitation; No-Hire. You agree to comply with the provisions of this Section 1(a) during the period of your employment with PNC and the 12-month period following your Termination Date, regardless of the reason for such termination of employment, as follows:
i. Non-Solicitation. You will not, directly or indirectly, either for your own benefit or purpose or for the benefit or purpose of any Person other than PNC, solicit, call on, do business with, or actively interfere with PNC's relationship with, or attempt to divert or entice away, any Person that you should reasonably know (A) is a customer of PNC for which PNC provides any services as of your Termination Date, or (B) was a customer of PNC for which PNC provided any services at any time during the 12 months preceding your Termination Date, or (C) was, as of your Termination Date, considering retention of PNC to provide any services.
ii. No-Hire. You will not, directly or indirectly, either for your own benefit or purpose or for the benefit or purpose of any Person other than PNC, employ or offer to employ, call on, or actively interfere with PNC's relationship with, or attempt to divert or entice away, any employee of PNC. You also will not assist any other Person in such activities.

Notwithstanding Section 1(a)(i) and Section 1(a)(ii) above, if your termination of employment with PNC is an Anticipatory Termination, then commencing immediately after your Termination Date, the provisions of Section 1(a)(i) and Section 1(a)(ii) will no longer apply and will be replaced with the following provision:
"No-Hire. You agree that you will not, for a period of one year after your Termination Date, employ or offer to employ, solicit, actively interfere with PNC's or any PNC affiliate's relationship with, or attempt to divert or entice away, any officer of PNC or any affiliate of PNC."
(b) Confidentiality. During your employment with PNC and thereafter regardless of the reason for termination of such employment, you will not disclose or use in any way any confidential business or technical information or trade secret acquired in the course of such employment, all of which is the exclusive and valuable property of PNC whether or not conceived of or prepared by you, other than (i) information generally known in PNC's industry or acquired from public sources, (ii) as required in the course of employment by PNC, (iii) as required by any court, supervisory authority, administrative agency or applicable law, or (iv) with the prior written consent of PNC. Nothing in this Agreement, including this Section 1(b), is intended to limit you from reporting possible violations of law or regulation to any governmental entity or any self-regulatory organization or making other disclosures that are protected under the whistleblower provisions of federal, state or local law or regulation. You further understand and agree that you are not required to contact or receive consent from PNC before engaging in such communications with any such authorities.
(c) Ownership of Inventions. You will promptly and fully disclose to PNC any and all inventions, discoveries, improvements, ideas or other works of inventorship or authorship, whether or not patentable, that have been or will be conceived and/or reduced to practice by you during the term of your employment with PNC, whether alone or with others, and that are (i) related directly or indirectly to the business or activities of PNC or (ii) developed with the use of any time, material, facilities or other resources of PNC ("Developments"). You agree to assign and hereby do assign to PNC or its designee all of your right, title and interest, including copyrights and patent rights, in and to all Developments. You will perform all actions and execute all instruments that PNC or any subsidiary will deem necessary to protect or record PNC's or its designee's interests in the Developments. The obligations of this Section 1(c) will be performed by you without further compensation and will continue beyond your Termination Date.
(d) Enforcement Provisions. You understand and agree to the following provisions regarding enforcement of Section 1 of this Agreement:
i. Equitable Remedies. A breach of the provisions of Sections 1(a) - 1(c) will cause PNC irreparable harm, and PNC will therefore be entitled to seek issuance of immediate, as well as permanent, injunctive relief restraining you, and each and every person and entity acting in concert or participating with you, from initiation and/or continuation of such breach.
ii. Tolling Period. If it becomes necessary or desirable for PNC to seek compliance with the provisions of Section 1(a) by legal proceedings, the period during which you will comply with said provisions will extend for a period of 12 months from the date PNC institutes legal proceedings for injunctive or other relief.
iii. Reform. If any of Sections 1 (a) - 1(c) are determined by a court of competent jurisdiction to be unenforceable because unreasonable either as to length of time or area to which the restriction applies, it is the intent of both parties that the court reduce and reform the restriction so as to apply the greatest limitations considered enforceable by the court.
iv. Waiver of Jury Trial. Each of you and PNC hereby waives any right to trial by jury with regard to any suit, action or proceeding under or in connection with any of Sections 1(a)-1(c).
v. Application of Defend Trade Secrets Act. Regardless of any other provision in this Agreement, you may be entitled to immunity and protection from retaliation under the Defend Trade Secrets Act of 2016 for disclosing trade secrets under certain limited circumstances, as set forth in PNC's Defend Trade Secrets Act policy. The policy is available for viewing on PNC's intranet under the "PNC Ethics" page.
2. Capital Adjustments upon a Change of Control. Upon the occurrence of a Change of Control, (a) the number, class and kind of RSUs then outstanding under the Award will automatically be adjusted to reflect the same changes as are made to outstanding shares of Common Stock generally, (b) the value per share unit of any sharedenominated award amount will be measured by reference to the per share value of the consideration payable to a holder of Common Stock in connection with such Corporate Transaction or Transactions if applicable, and (c) with respect to stock-payable RSUs only, if the effect of the Corporate Transaction or Transactions on a holder of Common Stock is to convert that shareholder's holdings into consideration that does not consist solely (other than as to a minimal amount) of shares of Common Stock, then the entire value of any payment to be made to you will be made solely in cash at the applicable time specified in this Agreement.
3. Fractional Shares. No fractional Shares will be delivered to you. If the outstanding vested RSUs being settled in Shares include a fractional interest, such fractional interest will be eliminated by rounding down to the nearest whole share unit.
4. No Rights as a Shareholder. You will have no rights as a shareholder of the Corporation by virtue of this Award unless and until Shares are issued and delivered in settlement of the Award pursuant to and in accordance with this Agreement.

## 5. Transfer Restrictions.

(a) The Award may not be sold, assigned, transferred, exchanged, pledged, or otherwise alienated or hypothecated.
(b) If you are deceased at the time any outstanding vested RSUs are settled and paid out in accordance with the terms of this Agreement, such delivery of Shares, cash payment or other payment (as applicable) shall be made to the executor or administrator of your estate or to your other legal representative or, as permitted under
the election procedures of the Plan's third-party administrator, to your designated beneficiary, in each case, as determined in good faith by the Corporation. Any delivery of Shares, cash payment or other payment made in good faith by the Corporation to your executor, other legal representative or permissible designated beneficiary, or retained by the Corporation for taxes pursuant to Section 6 of this Appendix A, shall extinguish all right to payment hereunder.

## 6. Withholding Taxes.

(a) You shall be solely responsible for any applicable taxes (including, without limitation, income and excise taxes), penalties and interest that you incur in connection hereunder. The Corporation will, at the time any withholding tax obligation arises in connection herewith, retain an amount sufficient to satisfy the minimum amount of taxes then required to be withheld by PNC in connection therewith from amounts then payable hereunder to you.
(b) If any such withholding is required prior to the time amounts are payable to you hereunder or if such amounts are not sufficient to satisfy such obligation in full, the withholding will be taken from other compensation then payable to you or as otherwise determined by PNC.
(c) The Corporation will withhold cash from any amounts then payable to you hereunder that are settled in cash. Unless the Committee or PNC Designated Person determines otherwise, with respect to stock-payable RSUs only, the Corporation will retain whole Shares from any amounts then payable to you hereunder (or pursuant to any other RSUs previously awarded to you under the Plan) in the form of Shares. For purposes of this Section 6(c), Shares retained to satisfy applicable withholding tax requirements will be valued at their Fair Market Value on the date the tax withholding obligation arises (as such date is determined by the Corporation).
7. Employment. Neither the granting of the Award nor any payment with respect to such Award authorized hereunder nor any term or provision of this Agreement shall constitute or be evidence of any understanding, expressed or implied, on the part of PNC to employ you for any period or in any way alter your status as an employee at will.

## 8. Miscellaneous.

(a) Subject to the Plan and Interpretations. In all respects the Award and this Agreement are subject to the terms and conditions of the Plan, which has been made available to you and is incorporated herein by reference. The terms of the Plan will not be considered an enlargement of any benefits under this Agreement. If the Plan and this Agreement conflict, the provisions of the Plan will govern. Interpretations of the Plan and this Agreement by the Committee are binding on you and PNC.
(b) Governing Law and Jurisdiction. This Agreement is governed by and construed under the laws of the Commonwealth of Pennsylvania, without reference to its conflict of laws provisions. Any dispute or claim arising out of or relating to this

Agreement or claim of breach hereof will be brought exclusively in the Federal court for the Western District of Pennsylvania or in the Court of Common Pleas of Allegheny County, Pennsylvania. By execution of this Agreement, you and PNC hereby consent to the exclusive jurisdiction of such courts and waive any right to challenge jurisdiction or venue in such courts with regard to any suit, action, or proceeding under or in connection with this Agreement.
(c) Headings; Entire Agreement. Headings used in this Agreement are provided for reference and convenience only, are not considered part of this Agreement, and will not be employed in the construction of this Agreement. This Agreement, including any appendices or exhibits attached hereto, constitutes the entire agreement between you and PNC with respect to the subject matters addressed herein, and supersedes all other discussions, negotiations, correspondence, representations, understandings and agreements between the parties concerning the subject matters hereof.
(d) Modification. Modifications or adjustments to the terms of this Agreement may be made by the Corporation as permitted in accordance with the Plan or as provided for in this Agreement. No other modification of the terms of this Agreement will be effective unless embodied in a separate, subsequent writing signed by you and by an authorized representative of the Corporation.
(e) No Waiver. Failure of PNC to demand strict compliance with any of the terms, covenants or conditions of this Agreement will not be deemed a waiver of such term, covenant or condition, nor will any waiver or relinquishment of any such term, covenant or condition on any occasion or on multiple occasions be deemed a waiver or relinquishment of such term, covenant or condition.
(f) Severability. The restrictions and obligations imposed by this Agreement are separate and severable, and it is the intent of both parties that if any restriction or obligation imposed by any of these provisions is deemed by a court of competent jurisdiction to be void for any reason whatsoever, the remaining provisions, restrictions and obligations will remain valid and binding upon you.
(g) Applicable Laws. Notwithstanding anything in this Agreement, PNC will not be required to comply with any term, covenant or condition of this Agreement if and to the extent prohibited by law, including but not limited to Federal banking and securities regulations, or as otherwise directed by one or more regulatory agencies having jurisdiction over PNC.
(h) Compliance with Section 409A of the Internal Revenue Code. It is the intention of the parties that the Award and this Agreement comply with the provisions of Section 409A of the Internal Revenue Code to the extent, if any, that such provisions are applicable. This Agreement will be administered in a manner consistent with this intent, including as set forth in Section 20 of the Plan. If the Award includes a "series of installment payments" (within the meaning of Section 1.409A-2(b)(2)(iii) of the Treasury

Regulations), your right to the series of installment payments will be treated as a right to a series of separate payments and not as a right to a single payment.

## RESTRICTED SHARE UNITS AWARD AGREEMENT (SECTION 16)

## APPENDIX B

## DEFINITIONS

Certain Definitions. Except as otherwise provided, the following definitions apply for purposes of this Agreement.
"Anticipatory Termination" means a termination of employment where PNC terminates your employment with PNC (other than for Misconduct or Disability) prior to the date on which a Change of Control occurs, and you reasonably demonstrated that such termination of employment (i) was at the request of a third party that has taken steps reasonably calculated to effect a Change of Control or (ii) otherwise arose in connection with or in anticipation of a Change of Control.
"Award Effective Date" has the meaning set forth in Section A of this Agreement.
"Change of Control" means:
(a) Any Person becomes the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of $20 \%$ or more of either ( x ) the thenoutstanding shares of Common Stock (the "Outstanding PNC Common Stock") or (y) the combined voting power of the then-outstanding voting securities of the Corporation entitled to vote generally in the election of directors (the "Outstanding PNC Voting Securities"). The following acquisitions will not constitute a Change of Control for purposes of this definition: (1) any acquisition directly from the Corporation, (2) any acquisition by the Corporation, (3) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Corporation or any company controlled by, controlling or under common control with the Corporation (an "Affiliated Company"), (4) any acquisition pursuant to an Excluded Combination (as defined below) or (5) an acquisition of beneficial ownership representing between $20 \%$ and $40 \%$, inclusive, of the Outstanding PNC Voting Securities or Outstanding PNC Common Stock if the Incumbent Board (as defined below) as of immediately prior to any such acquisition approves such acquisition either prior to or immediately after its occurrence;
(b) Individuals who, as of the date hereof, constitute the Board (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board (excluding any Board seat that is vacant or otherwise unoccupied). For purposes of this definition, any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the shareholders of the Corporation, was approved by a vote of at least two-thirds of the directors then comprising the Incumbent Board will
be considered as though such individual was a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board;
(c) Consummation of a reorganization, merger, statutory share exchange or consolidation or similar transaction involving the Corporation or any of its subsidiaries, a sale or other disposition of all or substantially all of the assets of the Corporation, or the acquisition of assets or stock of another entity by the Corporation or any of its subsidiaries (each, a "Business Combination"). A transaction otherwise meeting the definition of Business Combination will not be treated as a Change of Control if following completion of the transaction all or substantially all of the beneficial owners of the Outstanding PNC Common Stock and the Outstanding PNC Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than $60 \%$ of the then-outstanding shares of Common Stock (or, for a non-corporate entity, equivalent securities) and the combined voting power of the then-outstanding voting securities entitled to vote generally in the election of directors (or, for a non-corporate entity, equivalent governing body), as the case may be, of the entity resulting from such Business Combination (including, without limitation, an entity that, as a result of such transaction, owns the Corporation or all or substantially all of the Corporation's assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership immediately prior to such Business Combination of the Outstanding PNC Common Stock and the Outstanding PNC Voting Securities, as the case may be (such a Business Combination, an "Excluded Combination"); or
(d) Approval by the shareholders of the Corporation of a complete liquidation or dissolution of the Corporation.
"Competitive Activity" means any participation in, employment by, ownership of any equity interest exceeding one percent in, or promotion or organization of, any Person other than PNC (1) engaged in business activities similar to some or all of the business activities of PNC during your employment or (2) engaged in business activities that you know PNC intends to enter within the next 12 months (or, if after your Termination Date, within the first 12 months after your Termination Date), in either case whether you are acting as agent, consultant, independent contractor, employee, officer, director, investor, partner, shareholder, proprietor or in any other individual or representative capacity therein. For purposes of Competitive Activity as defined herein (and as such similar term is defined in any equity-based award agreement held by you), the term "subsidiary" will not include any company in which PNC holds an interest pursuant to its merchant banking authority.
"Detrimental Conduct" means:
(a) You have engaged in, without the prior written consent of PNC (with consent to be given or withheld at PNC's sole discretion), in any Competitive Activity in
the Restricted Territory at any time during the period of your employment with PNC and the 12-month period following your Termination Date;
(b) any act of fraud, misappropriation, or embezzlement by you against PNC or one of its subsidiaries or any client or customer of PNC or one of its subsidiaries; or
(c) you are convicted (including a plea of guilty or of nolo contendere) of, or you enter into a pre-trial disposition with respect to, the commission of a felony that relates to or arises out of your employment or other service relationship with PNC.

You will be deemed to have engaged in Detrimental Conduct for purposes of this Agreement only if and when the Committee or other PNC Designated Person determines that you have engaged in conduct described in clause (a) or clause (b) above or that an event described in clause (c) above has occurred with respect to you. Detrimental Conduct will not apply to conduct by or activities of successors to the Award by will or the laws of descent and distribution in the event of your death.

No determination that you have engaged in Detrimental Conduct may be made (x) on or after your Termination Date if your termination of employment was an Anticipatory Termination or (y) between the time PNC enters into an agreement providing for a Change of Control and the time such agreement either terminates or results in a Change of Control.
"Good Reason" means the definition of Good Reason contained in the Change of Control Employment Agreement between you and PNC or any substitute employment agreement entered into between you and PNC then in effect or, if none, the occurrence of any of the following events without your consent:
(a) the assignment to of any duties to you inconsistent in any material respect with your position (including status, offices, titles and reporting requirements), or any other material diminution in such position, authority, duties or responsibilities;
(b) any material reduction in your rate of base salary or the amount of your annual bonus opportunity (or, if less, the bonus opportunity established for the PNC's similarly situated employees for any year), or a material reduction in the level of any other employee benefits for which you are eligible receive below those offered to the PNC's similarly situated employees;
(c) PNC's requiring you to be based at any office or location outside of a fifty (50)-mile radius from the office where you were employed on the Grant Date;
(d) any action or inaction that constitutes a material breach by the PNC of any agreement entered into between you and PNC; or
(e) the failure by PNC to require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of PNC to assume expressly and agree to perform this Agreement in the
same manner and to the same extent that PNC would be required to perform it if no such succession had taken place.

Notwithstanding the foregoing, none of the events described above shall constitute Good Reason unless and until (i) you first notify PNC in writing describing in reasonable detail the condition which constitutes Good Reason within 90 days of its initial occurrence, (ii) PNC fails to cure such condition within 30 days after receipt of such written notice, and (iii) you terminate employment within two years of its initial occurrence.

Your mental or physical incapacity following the occurrence of an event described above in clauses (a) through (e) shall not affect your ability to terminate employment for Good Reason, and your death following delivery of a notice of termination for Good Reason shall not affect your estate's entitlement to severance payments benefits provided hereunder upon a termination of employment for Good Reason.
"Misconduct" means, as it relates to an Anticipatory Termination or following a Change of Control, (a) your willful and continued failure to substantially perform your duties with PNC (other than any such failure resulting from incapacity due to physical or mental illness), after a written demand for substantial performance is delivered to you by the Board or the CEO that specifically identifies the manner in which the Board or the CEO believes that you have not substantially performed your duties; or (b) your willful engagement in illegal conduct or gross misconduct that is materially and demonstrably injurious to PNC or any of its subsidiaries. For purposes of clauses (a) and (b), no act or failure to act, on your part, shall be considered willful unless it is done, or omitted to be done, by you in bad faith and without reasonable belief that your action or omission was in the best interests of PNC. Any act, or failure to act, based upon the instructions or prior approval of the Board, the CEO or your superior or based upon the advice of counsel for PNC, will be conclusively presumed to be done, or omitted to be done, by you in good faith and in the best interests of PNC.

Your cessation of employment will be deemed to be a termination of your employment with PNC for Misconduct only if and when there shall have been delivered to you, as part of the notice of your termination, a copy of a resolution duly adopted by the affirmative vote of not less than a majority of the entire membership of the Board, at a Board meeting called and held for the purpose of considering such termination, finding on the basis of clear and convincing evidence that, in the good faith opinion of the Board, you are guilty of conduct described in clause (a) or clause (b) above and, in either case, specifying the particulars thereof in detail. Such resolution shall be adopted only after (i) reasonable notice of such Board meeting is provided to you, together with written notice that PNC believes that you are guilty of conduct described in clause (a) or clause (b) above and, in either case, specifying the particulars thereof in detail, and (ii) you are given an opportunity, together with counsel, to be heard before the Board.
"Person" means any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act.
"PNC Designated Person" means (a) the Committee or its delegate if you are (or were when you ceased to be an employee of PNC) either a Group 1 covered employee (Corporate Executive Group member) including any equivalent successor classification or subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to PNC securities (or both); or (b) the Committee, the CEO, or the Chief Human Resources Officer of PNC, or any other individual or group as may be designated by one of the foregoing to act as PNC Designated Person for purposes of this Agreement.
"Qualifying Termination" has the meaning set forth in Section B of this Agreement.
"Restricted Territory" means (a) if you are employed by (or, if you are not an employee, providing the majority of your services to) PNC in the United States or Canada as of the Termination Date, the United States and Canada, (b) if you are employed by (or, if you are not an employee, providing the majority of your services to) PNC in the United Kingdom as of the Termination Date, the United Kingdom or (c) if you are employed by (or, if you are not an employee, providing the majority of your services to) PNC in Germany as of the Termination Date, Germany or the United Kingdom.
"Termination Date" means the last day of your employment with PNC. If you are employed by a Subsidiary that ceases to be a Subsidiary or ceases to be a consolidated subsidiary of the Corporation under U.S. generally accepted accounting principles and you do not continue to be employed by or otherwise have a Service Relationship with PNC, then for purposes of this Agreement, your employment with PNC terminates effective at the time this occurs.

## THE PNC FINANCIAL SERVICES GROUP, INC. 2016 INCENTIVE AWARD PLAN

## RESTRICTED SHARE UNITS AWARD AGREEMENT (SECTION 16)

## APPENDIX C

## RISK PERFORMANCE-BASED VESTING CONDITIONS

The following table sets forth the risk performance-based vesting conditions of the Award:

| 1. | Generally | The Award is divided into three Tranches, with the first Tranche relating to the 2025 performance year, the second Tranche relating to the 2026 performance year, and the third tranche relating to the 2027 performance year (each such year, a "Performance Year"). <br> Each Tranche must satisfy a risk-related performance metric based on whether PNC has met or exceeded the common equity Tier 1 capital spot ratio limit as then in effect and applicable to The PNC Financial Services Group, Inc. ("CET1 Ratio") (which may be on a pro forma fully phased-in basis, if applicable) as set forth in PNC's Enterprise Capital Management Policy (or any successor policy) and monitored at least quarterly. Each Tranche of the Award will also be subject to an annual risk review based on business unit financial performance (or at the discretion of the Committee). <br> "PNC" for purposes of this Appendix C as it refers to risk performance-based vesting conditions means the Corporation and its consolidated subsidiaries for financial reporting purposes. |
| :---: | :---: | :---: |
|  |  |  |
| 2. | Applying the Risk Performance Metric | (a) CET1 Ratio Generally. Each Tranche is subject to a risk performance factor based on whether PNC has met or exceeded the CET1 Ratio as of the last day of each Performance Year. The current CET1 Ratio is 7.4\%. <br> (b) Determination of Annual CET1 Ratio. As soon as practicable following the end of each Performance Year, PNC will present information to the Committee relating to |

|  |  | (i) the CET1 Ratio compared to (ii) the actual CET1 Ratio achieved by PNC with respect to that Performance Year, based on PNC's publicly reported financial results for the period ending on the applicable end date. Except as otherwise provided in paragraph 5 in the event of your death or a Change of Control, this will generally be the public release of earnings results for PNC's fourth quarter that occurs after the year-end measurement date, so that the Committee will be able to make its determination in late January or early February following a Performance Year. <br> - If PNC meets or exceeds the CET1 Ratio for a Performance Year, the risk performance metric is satisfied. <br> - If PNC does not meet the CET1 Ratio for a Performance Year, the applicable Tranche is eligible for forfeiture as determined by the Committee prior to settlement of the Tranche. |
| :---: | :---: | :---: |
| 3. | Risk Performance Review Adjustments | In addition, and independent from the CET1 Ratio performance metric described in paragraph 2 above, with respect to each Tranche and prior to the settlement of that Tranche, the Committee conducts a risk performance review either (1) as a result of business unit financial performance (as described below) or (2) at the discretion of the Committee, relating to a risk-related action of potentially material consequence to PNC. <br> A risk performance review is triggered under (1) above if (a) one of the specific business unit or enterprise level review triggers set forth below is met and (b) that review trigger is applicable to you because either it (i) applies to your business unit or functional area as of the Grant Date and the Committee has not determined in its discretion to apply a different review trigger to you for the Performance Year, or (ii) the Committee has determined in its discretion to apply such specific business unit or enterprise level review trigger to you for the Performance Year. The specific business unit or enterprise level review triggers are as follows: <br> - PNC's Retail Banking segment reports a loss for the Performance Year |

|  |  | - PNC's Corporate \& Institutional Banking segment reports a loss for the Performance Year <br> - PNC's Asset Management Group segment reports a loss for the Performance Year <br> If you are not assigned to one of the above-named business units as of the Grant Date, the review trigger will be applicable to you only in the event the Committee determines in its discretion to apply such review trigger, as described in (ii) above. If your affiliated business unit or functional area as of the Grant Date is eliminated or no longer reportable due to restructuring or other business reason, the specific review trigger applicable to you will be based on your newly assigned business unit or functional area. <br> For purposes of this Agreement, whether or not a specified business unit has a loss for a given Performance Year will be determined on the basis of the reported earnings or loss, as the case may be, of the reportable business segment that includes the results of such business unit, based on PNC's publicly reported financial results for that year. <br> If a risk performance review is triggered as a result of business financial performance under (1) or if the Committee exercises its discretion to conduct a risk performance review under (2) above, the Committee will review and determine if a downward adjustment for risk performance is appropriate either for the applicable Tranche or to a specific Grantee. <br> Any determination to conduct a risk performance review will be made shortly after the close of the Performance Year, but no later than the $45^{\text {th }}$ day following the close of the Performance Year, and any required review will be conducted no later than two and a half-months after the close of the Performance Year. |
| :---: | :---: | :---: |
|  |  |  |
| 4. | Determination of Final Number of RSUs | Following the Performance Year, if (1) the risk performance metric is satisfied and if no risk review is conducted with respect to that year, or (2) the Committee determines not to apply a downward adjustment for risk |

$\left.\begin{array}{|c|l|l|}\hline & \begin{array}{l}\text { performance, then the final Award will be the number of } \\ \text { RSUs subject to the applicable Tranche. } \\ \text { If the risk performance metric is not satisfied, or if a } \\ \text { review is conducted, and the Committee applies a } \\ \text { downward adjustment for risk performance, then the final } \\ \text { award will be a lower number of RSUs subject to the } \\ \text { applicable Tranche (rounded down to the nearest whole } \\ \text { Unit) or zero, as determined by the Committee. }\end{array} \\ & \begin{array}{l}\text { If the Committee elects to forfeit a Tranche as it relates to } \\ \text { all members of PNC's Group 1 executives by reason of the } \\ \text { CET1 Ratio risk performance metric not being satisfied, } \\ \text { such Tranche will also be forfeited for all members of the } \\ \text { Senior Leader program. }\end{array} \\ \hline \text { 5. } & \begin{array}{l}\text { Determination of Risk Performance Metric Upon Death or a Change of Control } \\ \text { In no event can the size of the Tranche be greater than } \\ \text { 100.00\% of the target number of RSUs subject to that } \\ \text { Tranche. }\end{array} \\ \hline \text { Change of Control } & \begin{array}{l}\text { Notwithstanding anything to the contrary in this } \\ \text { Agreement, if your employment with PNC ceases by } \\ \text { reason of your death, or if you die after a termination of } \\ \text { employment with PNC due to Disability or by reason of an } \\ \text { Anticipatory Termination, in any case, prior to a Change of } \\ \text { Control or the last Scheduled Vesting Date, then all risk } \\ \text { performance-based conditions will be met with respect to } \\ \text { the outstanding portion of your Award, unless the date of } \\ \text { death occurs after a calendar year but prior to performance- } \\ \text { adjustment by the Committee (including a Committee } \\ \text { determination made immediately preceding the date of the } \\ \text { Change of Control), in which case such Tranche will vest } \\ \text { based on actual performance as determined by the } \\ \text { Committee. }\end{array} \\ \text { based vesting requirements, any outstanding Tranches for }\end{array}\right\}$

|  |  | which no performance factors have been determined at the time of a Change of Control will be risk performanceadjusted, as follows: <br> - If a Change of Control occurs after a completed Performance Year, but prior to the Scheduled Vesting Date for that Tranche, the actual CET1 Ratio for that Performance Year will continue to apply to that Tranche, and <br> - For any Performance Year not completed prior to a Change of Control, if the CET1 Ratio was not met as of the quarter-end date immediately preceding the Change of Control (or if the Change of Control falls on a quarter-end date, and such information is available and applicable for such date, the date of the Change of Control), then all remaining Tranches will be forfeited and expire as of the Change of Control. <br> For the avoidance of doubt: <br> - If the CET1 Ratio was not met as of the applicable quarter-end performance measurement date, the Award will be forfeited by you as of the Change of Control. <br> - Tranches where the CET1 Ratio was met and that remain outstanding will be paid out, without further Dividend Equivalents or any interest, on the Scheduled Vesting Dates (or earlier, in the event of your death) upon your satisfaction of the servicebased vesting requirements. |

## THE PNC FINANCIAL SERVICES GROUP, INC. 2016 INCENTIVE AWARD PLAN

## RESTRICTED SHARE UNITS AWARD AGREEMENT

 (SECTION 16)
## ADDENDUM FOR CALIFORNIA EMPLOYEES

1. DEFINITION. As used in this Addendum, "California Employee" means an individual who is or was an Employee of PNC who is a resident of the State of California. This Addendum shall apply only to a California Employee, and this Addendum shall not apply to any Awards made under the Plan to any other person.

## 2. INTERACTION WITH THE AGREEMENT.

(a) Article G and the Incentive Compensation Adjustment and Clawback Policy ("Clawback Policy"). No adjustment to or deductions from a California Employee's earned compensation will occur as a result of the Clawback Policy unless otherwise required by federal law or regulations or allowed by California law.
(b) Appendix A, Article 1 "Restrictive Covenants," shall be modified as follows:
(i). Subsection (a) shall not apply to California Employees.
(ii). Subsection (c) "Ownership of Inventions" - pursuant to California Labor Code Section 2872, the Agreement does not apply to any Intellectual Property of the Employee which qualifies for the protections of California Labor Code Section 2870, a copy of which is attached. California Employees agree to promptly advise PNC in writing of any invention or Development that they believe to meet the criteria of California Labor Code Section 2870 that they have not otherwise already disclosed.
(iii.) Subsection (d)(4) "Waiver of Jury Trial" - shall not apply to California Employees.
(c) California Employees remain bound by the remaining Restrictive Covenants in Appendix A, Section 1 to the extent allowed by California law.
(d) This Addendum should be read in conjunction with the Agreement and is subject to the terms and conditions of the Agreement except to the extent that the terms and conditions of the Agreement differ from or conflict with the terms set out in this Addendum, in which event, the terms set out in this Addendum shall prevail.
(e) You and the Corporation agree that this Addendum shall apply to all Awards to California Employees, including prior Awards which have yet to vest, to the extent allowed by law.
3. GENERAL. The terms and conditions provided in this Addendum are severable and if any one or more provisions (or the effect of any such provision) are determined to be subject to any laws of the State of California and to be illegal or otherwise unenforceable under such laws, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable.

Section 2870 of the California Labor Code provides as follows:
Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer.

Result from any work performed by the employee for his employer.

To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under subdivision (a), the provision is against the public policy of this state and is unenforceable.

In Witness Whereof, the Corporation has caused this Agreement to be signed on its behalf as of the Grant Date.

## Certification of Chief Executive Officer

I, William S. Demchak, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended March 31, 2023 of The PNC Financial Services Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
