From Bill Demchak, PNC Chairman and Chief Executive Officer:

"By virtually all measures, 2025 was a successful year. Strong execution across all business lines resulted in record revenue, well controlled expenses and 21% earnings per share growth. We're entering 2026 with great momentum and are excited about the opportunities in front of us, including the recently closed acquisition of FirstBank."

Acquisition of FirstBank

- On January 5, 2026, PNC completed its acquisition of FirstBank Holding Company, including its banking subsidiary FirstBank. As of close, FirstBank had \$26 billion of assets, \$16 billion of loans and \$23 billion of deposits. Effective January 5, 2026, FirstBank's financial results are included in PNC's consolidated operations and will be reported in PNC's first quarter 2026 results.

Income Statement Highlights

Fourth quarter 2025 compared with third quarter 2025

- Total revenue of \$6.1 billion increased \$156 million, or 3%, driven by records in both net interest income and fee income.
 - Net interest income of \$3.7 billion increased \$83 million, or 2%, and included the impact of lower funding costs, loan growth and the continued benefit of fixed rate asset repricing.
 - Net interest margin increased 5 basis points to 2.84%.
 - Fee income of \$2.1 billion increased \$54 million, or 3%, driven by higher capital markets and advisory activity.
 - Other noninterest income of \$217 million increased \$19 million reflecting higher private equity revenue, partially offset by negative \$41 million of Visa derivative adjustments primarily due to litigation escrow funding. Visa derivative adjustments were negative \$35 million in the third quarter.
- Noninterest expense of \$3.6 billion increased \$142 million, or 4%, driven by increased business activity and seasonality.
- Provision for credit losses was \$139 million in the fourth quarter.
- The effective tax rate was 12.7% for the fourth quarter and 20.3% for the third quarter. The lower effective tax rate reflected favorable resolution of several tax matters.

Balance Sheet Highlights

Fourth quarter 2025 compared with third quarter 2025 or December 31, 2025 compared with September 30, 2025

- Average loans of \$327.9 billion increased \$2.0 billion, or 1%, driven by growth in commercial loans, primarily within the commercial and industrial portfolio. Average consumer loans were stable as growth in both the auto and credit card loan portfolios was offset by declines in residential real estate loans.
- Credit quality performance:
 - Delinquencies of \$1.4 billion increased \$210 million, or 17%, due to higher commercial and consumer loan delinquencies.
 - Total nonperforming loans of \$2.2 billion increased \$81 million, or 4%, as higher commercial and industrial nonperforming loans more than offset declines in commercial real estate nonperforming loans.
 - Net loan charge-offs of \$162 million decreased \$17 million due to lower consumer and commercial net loan charge-offs.
 - The allowance for credit losses of \$5.2 billion decreased \$0.1 billion. The allowance for credit losses to total loans was 1.58% at December 31, 2025 and 1.61% at September 30, 2025.
- Average investment securities of \$142.2 billion decreased \$2.2 billion, or 2%, reflecting net paydowns and maturities in the held-to-maturity portfolio.
- Average deposits of \$439.5 billion increased \$7.7 billion, or 2%, driven by growth in both commercial and consumer client accounts and activity, partially offset by lower brokered time deposits.
- PNC maintained a strong capital and liquidity position:

- more -

- On January 5, 2026, the PNC board of directors declared a quarterly cash dividend on common stock of \$1.70 per share to be paid on February 5, 2026 to shareholders of record at the close of business January 20, 2026.
- PNC returned \$1.1 billion of capital to shareholders, reflecting \$0.7 billion of dividends on common shares and \$0.4 billion of common share repurchases.
- Share repurchase activity in the first quarter of 2026 is expected to approximate \$600 million to \$700 million.
- The Basel III common equity tier 1 capital ratio was an estimated 10.6% at December 31, 2025 and was 10.7% at September 30, 2025.
- PNC's average LCR for the three months ended December 31, 2025 was 108%, exceeding the regulatory minimum requirement throughout the quarter.

Noninterest income for the fourth quarter of 2025 increased \$73 million, or 3%, compared with the third quarter of 2025. Asset management and brokerage fees increased \$7 million driven by higher average equity markets and increased client activity. Capital markets and advisory revenue increased \$57 million primarily due to an increase in merger and acquisition advisory activity. Lending and deposit services increased \$7 million and included higher loan commitment fees. Residential and commercial mortgage revenue decreased \$13 million driven by lower residential mortgage servicing rights valuation, net of economic hedge. Other noninterest income increased \$19 million reflecting higher private equity revenue, partially offset by negative \$41 million of Visa derivative adjustments primarily due to litigation escrow funding. Visa derivative adjustments were negative \$35 million in the third quarter of 2025.

Noninterest income for the fourth quarter of 2025 increased \$296 million, or 14%, from the fourth quarter of 2024. Fee income increased \$254 million, or 14%, reflecting strong momentum across all business lines and fee income categories. Other noninterest income increased \$42 million and included increased private equity revenue, partially offset by higher negative Visa derivative adjustments. Visa derivative adjustments were negative \$41 million in the fourth quarter of 2025 compared to negative \$23 million in the fourth quarter of 2024.

Average loans for the fourth quarter of 2025 increased \$2.0 billion compared to the third quarter of 2025 and \$8.9 billion compared to the fourth quarter of 2024.

Average commercial loans increased \$2.1 billion and \$10.3 billion compared to the third quarter of 2025 and the fourth quarter of 2024, respectively, driven by growth in the commercial and industrial portfolio, partially offset by continued runoff in commercial real estate loans.

Average consumer loans were stable compared to the third quarter of 2025 as growth in both the auto and credit card loan portfolios was offset by declines in residential real estate loans. In comparison to the fourth quarter of 2024, average consumer loans decreased due to declines in residential real estate loans, partially offset by growth in the auto loan portfolio.

Loans at December 31, 2025 increased \$4.9 billion and \$15.0 billion from September 30, 2025 and December 31, 2024, respectively.

| <i>*December 31, 2025 ratio is estimated. December 31, 2024 ratio reflects PNC's election to adopt the optional five-year CECL transition provision.</i> | | | | |

PNC maintained a strong capital position. Common shareholders' equity at December 31, 2025 increased \$1.6 billion from September 30, 2025 due to net income and an improvement in accumulated other comprehensive income, partially offset by dividends paid and share repurchases.

As a Category III institution, PNC has elected to exclude accumulated other comprehensive income related to both available-for-sale securities and pension and other post-retirement plans from CET1 capital. Accumulated other comprehensive income of negative \$3.4 billion at December 31, 2025 improved from negative \$4.1 billion at September 30, 2025 and negative \$6.6 billion at December 31, 2024. The change in each comparison reflected the

favorable impact of interest rate movements on securities and swaps and the continued accretion of unrealized losses.

In the fourth quarter of 2025, PNC returned \$1.1 billion of capital to shareholders, reflecting \$0.7 billion of dividends on common shares and \$0.4 billion of common share repurchases. The Stress Capital Buffer (SCB) framework permits capital return in amounts in excess of SCB minimum levels. Consistent with this framework, PNC had approximately 35% of the 100 million common shares still available for repurchase at December 31, 2025 under the repurchase program previously approved by our board of directors.

Share repurchase activity in the first quarter of 2026 is expected to approximate \$600 million to \$700 million. PNC may adjust share repurchase activity depending on market and economic conditions, as well as other factors.

PNC's SCB for the four-quarter period beginning October 1, 2025 is the regulatory minimum of 2.5%. On January 5, 2026, the PNC board of directors declared a quarterly cash dividend on common stock of \$1.70 per share to be paid on February 5, 2026 to shareholders of record at the close of business January 20, 2026.

At December 31, 2025, PNC was considered "well capitalized" based on applicable U.S. regulatory capital ratio requirements. For additional information regarding PNC's Basel III capital ratios, see Capital Ratios in the Consolidated Financial Highlights.

Provision for credit losses was \$139 million in the fourth quarter of 2025, \$167 million in the third quarter of 2025 and \$156 million in the fourth quarter of 2024.

Net loan charge-offs were \$162 million in the fourth quarter of 2025, decreasing \$17 million compared to the third quarter of 2025 due to lower consumer and commercial net loan charge-offs. Compared to the fourth quarter of 2024, net loan charge-offs decreased \$88 million driven by lower commercial real estate net loan charge-offs.

The allowance for credit losses was \$5.2 billion at December 31, 2025 as well as at December 31, 2024, and \$5.3 billion at September 30, 2025. The allowance for credit losses as a percentage of total loans was 1.58% at December 31, 2025, 1.61% at September 30, 2025 and 1.64% at December 31, 2024.

Delinquencies at December 31, 2025 were \$1.4 billion, increasing \$210 million from September 30, 2025, due to higher commercial and consumer loan delinquencies. Compared to December 31, 2024, delinquencies

increased \$61 million as a result of higher commercial loan delinquencies, partially offset by lower consumer loan delinquencies.

Nonperforming loans were \$2.2 billion at December 31, 2025 increasing \$81 million compared to September 30, 2025 as higher commercial and industrial nonperforming loans more than offset declines in commercial real estate nonperforming loans. Compared to December 31, 2024, nonperforming loans decreased \$108 million driven by lower commercial real estate nonperforming loans.

During the second quarter of 2025, certain operations were transferred into and out of the Retail Banking segment to better align products, services and operations with the appropriate business segment. Prior period results have been adjusted to conform with the current presentation. See a description of each change in the footnotes to table 16 in the Financial Supplement.

Retail Banking Highlights

Fourth quarter 2025 compared with third quarter 2025

- Earnings decreased 6%, primarily due to higher noninterest expense and a higher provision for credit losses as well as lower net interest income and noninterest income.
 - Noninterest income decreased 3%, primarily reflecting lower residential mortgage servicing rights valuation, net of economic hedge.
 - Noninterest expense increased 2%, and included the impact of seasonality and technology investments.
 - Provision for credit losses of \$155 million in the fourth quarter of 2025 reflected portfolio activity.
- Average loans were stable as growth in the auto, commercial and credit card loan portfolios was offset by lower residential real estate loans.
- Average deposits were stable.

Fourth quarter 2025 compared with fourth quarter 2024

- Earnings increased 15%, driven by higher net interest income and noninterest income as well as lower noninterest expense, partially offset by a higher provision for credit losses.
 - Noninterest income increased 9%, primarily due to higher residential mortgage revenue and increased credit card and brokerage fees.
 - Noninterest expense decreased 2%, primarily due to asset impairments recognized in the fourth quarter of 2024.
- Average loans decreased 2%, as growth in the auto loan portfolio was more than offset by lower residential real estate and commercial loans.
- Average deposits increased 2%, primarily due to higher consumer time, money market and savings deposits.

(a) Dividends are payable quarterly, other than Series S preferred stock, which is payable semiannually.
 (b) The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax.
 (c) Net interest margin is the total yield on interest-earning assets minus the total rate on interest-bearing liabilities and includes the benefit from use of noninterest-bearing sources. To provide more meaningful comparisons of net interest margins, we use net interest income on a taxable-equivalent basis in calculating average yields used in the calculation of net interest margin by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under generally accepted accounting principles (GAAP) in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended December 31, 2025, September 30, 2025 and December 31, 2024 were \$31 million, \$30 million and \$30 million, respectively. The taxable-equivalent adjustments to net interest income for the twelve months ended December 31, 2025 and December 31, 2024 were \$117 million and \$131 million, respectively.
 (d) Calculated as noninterest expense divided by total revenue.

CAPITAL RATIOS

PNC's regulatory risk-based capital ratios in 2025 are calculated using the standardized approach for determining risk-weighted assets. Under the standardized approach for determining credit risk-weighted assets, exposures are generally assigned a pre-defined risk weight. Exposures to high volatility commercial real estate, past due exposures and equity exposures are generally subject to higher risk weights than other types of exposures.

PNC elected a five-year transition provision effective March 31, 2020 to delay until December 31, 2021 the full impact of the CECL standard on regulatory capital, followed by a three-year transition period. Effective for the first quarter of 2022, PNC entered a three-year transition period, and the full impact of the CECL standard was phased-in to regulatory capital through December 31, 2024. Beginning in the first quarter of 2025, CECL is fully reflected in regulatory capital. See the table below for the September 30, 2025, December 31, 2024 and estimated December 31, 2025 ratios.

Our Basel III capital ratios may be impacted by changes to the regulatory capital rules and additional regulatory guidance or analysis.

| Card and cash management | 733 | 737 | 2,899 | 2,770 |
| Lending and deposit services | 342 | 335 | 1,310 | 1,259 |
| Residential and commercial mortgage | 148 | 161 | 571 | 581 |
| Fee income (non-GAAP) | \$ 2,123 | \$ 2,069 | \$ 7,925 | \$ 7,345 |
| Other income | 217 | 198 | 764 | 711 |
| Total noninterest income | \$ 2,340 | \$ 2,267 | \$ 8,689 | \$ 8,056 |

Fee income is a non-GAAP measure and is comprised of noninterest income in the following categories: asset management and brokerage, capital markets and advisory, card and cash management, lending and deposit services, and residential and commercial mortgage. We believe this non-GAAP measure serves as a useful tool for comparison of noninterest income related to fees.

Pretax Pre-Provision Earnings (non-GAAP)

| Dollars in millions | Three months ended | | Year ended | |
|---|---------------------|----------------------|---------------------|---------------------|
| | December 31 2025 | September 30 2025 | December 31 2025 | December 31 2024 |
| Income before income taxes and noncontrolling interests | \$ 2,329 | \$ 2,287 | \$ 8,486 | \$ 7,242 |
| Provision for credit losses | 139 | 167 | 779 | 789 |
| Pretax pre-provision earnings (non-GAAP) | \$ 2,468 | \$ 2,454 | \$ 9,265 | \$ 8,031 |

Pretax pre-provision earnings is a non-GAAP measure and is based on adjusting income before income taxes and noncontrolling interests to exclude provision for credit losses. We believe that pretax, pre-provision earnings is a useful tool to help evaluate the ability to provide for credit costs through operations and provides an additional basis to compare results between periods by isolating the impact of provision for credit losses, which can vary significantly between periods.

Tangible Book Value per Common Share (non-GAAP)

| Dollars in millions, except per share data | December 31 | | September 30 | | December 31 | |
|--|-------------|-----------|--------------|------|-------------|------|
| | 2025 | 2025 | 2025 | 2025 | 2024 | 2024 |
| Book value per common share | \$ 140.44 | \$ 135.67 | \$ 122.94 | | | |
| Tangible book value per common share | | | | | | |
| Common shareholders' equity | \$ 54,828 | \$ 53,235 | \$ 48,676 | | | |
| Goodwill and other intangible assets | (11,138) | (11,163) | (11,171) | | | |
| Deferred tax liabilities on goodwill and other intangible assets | 237 | 243 | 241 | | | |
| Tangible common shareholders' equity | \$ 43,927 | \$ 42,315 | \$ 37,746 | | | |
| Period-end common shares outstanding (In millions) | 390 | 392 | 396 | | | |
| Tangible book value per common share (non-GAAP) | \$ 112.51 | \$ 107.84 | \$ 95.33 | | | |

Tangible book value per common share is a non-GAAP measure and is calculated based on tangible common shareholders' equity divided by period-end common shares outstanding. We believe this non-GAAP measure serves as a useful tool to help evaluate the strength and discipline of a company's capital management strategies and as an additional, conservative measure of total company value.

The PNC Financial Services Group, Inc. Consolidated Financial Highlights (Unaudited)

| Dollars in millions | Three months ended | | Year ended | |
|--|--------------------|-----------------|------------------|------------------|
| | December 31 | | September 30 | December 31 |
| | 2025 | 2025 | 2025 | 2024 |
| Net interest income | \$ 3,731 | \$ 3,648 | \$ 14,410 | \$ 13,499 |
| Taxable-equivalent adjustments | 31 | 30 | 117 | 131 |
| Net interest income (Fully Taxable-Equivalent - FTE) (non-GAAP) | \$ 3,762 | \$ 3,678 | \$ 14,527 | \$ 13,630 |

The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of net interest income, we use interest income on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP. Taxable-equivalent net interest income is only used for calculating net interest margin. Net interest income shown elsewhere in this presentation is GAAP net interest income.

Cautionary Statement Regarding Forward-Looking Information

We make statements in this news release and related conference call, and we may from time to time make other statements, regarding our outlook for financial performance, such as earnings, revenues, expenses, tax rates, capital and liquidity levels and ratios, asset levels, asset quality, financial position, and other matters regarding or affecting us and our future business and operations, including our sustainability strategy, that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements are typically identified by words such as "believe," "plan," "expect," "anticipate," "see," "look," "intend," "outlook," "project," "forecast," "estimate," "goal," "will," "should" and other similar words and expressions.

Forward-looking statements are necessarily subject to numerous assumptions, risks and uncertainties, which change over time. Future events or circumstances may change our outlook and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. Forward-looking statements speak only as of the date made. We do not assume any duty and do not undertake any obligation to update forward-looking statements. Actual results or future events could differ, possibly materially, from those anticipated in forward-looking statements, as well as from historical performance. As a result, we caution against placing undue reliance on any forward-looking statements.

Our forward-looking statements are subject to the following principal risks and uncertainties.

- Our businesses, financial results and balance sheet values are affected by business and economic conditions, including:
 - Changes in interest rates and valuations in debt, equity and other financial markets,
 - Disruptions in the U.S. and global financial markets,
 - Actions by the Federal Reserve Board, U.S. Treasury and other government agencies, including those that impact money supply, market interest rates and inflation,
 - Changes in customer behavior due to changing business and economic conditions or legislative or regulatory initiatives,
 - Changes in customers', suppliers' and other counterparties' performance and creditworthiness,
 - Impacts of sanctions, tariffs and other trade policies of the U.S. and its global trading partners,
 - Impacts of changes in federal, state and local governmental policy, including on the regulatory landscape, capital markets, taxes, infrastructure spending and social programs,
 - Our ability to attract, recruit and retain skilled employees, and
 - Commodity price volatility.
- Our forward-looking financial statements are subject to the risk that economic and financial market conditions will be substantially different than those we are currently expecting. These statements are based on our views that:
 - PNC's baseline forecast remains for continued expansion, but slower economic growth in 2026 than in 2024 and 2025. Tariffs remain a drag on consumer spending and business investment, while AI-related capex and wealth effects have been key supports to growth. Consumer spending growth is slowing to a pace more consistent with household income growth. The One Big Beautiful Bill will be a net positive for economic growth in 2026.
 - The baseline forecast anticipates real GDP growth slowing to around 2% in 2026, with continued modest job gains and the unemployment rate at around 4.5%. Tariffs remain a risk to the outlook, and a reversal in sentiment around AI or a large decline in equity prices would be drags. Weaker labor force growth could lead to weaker long-run growth.
 - Our baseline forecast is for the Federal Reserve to go on hold at the upcoming January meeting and stay on hold for the first half of this year. We expect modest additional easing in the second half of the year and expect 25 basis points cuts at the Federal Open Market Committee meetings in July and September 2026, resulting in a federal funds rate in the range of 3.00% to 3.25% by the fall. However, there are two-sided risks to this outlook: (1) if inflation re-accelerates or proves more persistent than expected, the Federal Reserve may cut less or (2) if growth falters or recession emerges, easing could be deeper and more prolonged.
- PNC's ability to take certain capital actions, including returning capital to shareholders, is subject to PNC meeting or exceeding minimum capital levels, including a stress capital buffer established by the Federal Reserve Board in connection with the Federal Reserve Board's Comprehensive Capital Analysis and Review (CCAR) process.

Cautionary Statement Regarding Forward-Looking Information (Continued)

- PNC's regulatory capital ratios in the future will depend on, among other things, PNC's financial performance, the scope and terms of final capital regulations then in effect and management actions affecting the composition of PNC's balance sheet. In addition, PNC's ability to determine, evaluate and forecast regulatory capital ratios, and to take actions (such as capital distributions) based on actual or forecasted capital ratios, will be dependent at least in part on the development, validation and regulatory review of related models and the reliability of and risks resulting from extensive use of such models.
- Legal and regulatory developments could have an impact on our ability to operate our businesses, financial condition, results of operations, competitive position, reputation, or pursuit of attractive acquisition opportunities. Reputational impacts could affect matters such as business generation and retention, liquidity, funding, and ability to attract and retain employees. These developments could include:
 - Changes to laws and regulations, including changes affecting oversight of the financial services industry, changes in the enforcement and interpretation of such laws and regulations, and changes in accounting and reporting standards.
 - Unfavorable resolution of legal proceedings or other claims and regulatory and other governmental investigations or other inquiries resulting in monetary losses, costs, or alterations in our business practices, and potentially causing reputational harm to PNC.
 - Results of the regulatory examination and supervision process, including our failure to satisfy requirements of agreements with governmental agencies.
 - Costs associated with obtaining rights in intellectual property claimed by others and of adequacy of our intellectual property protection in general.
- Business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through effective use of systems and controls, third-party insurance, derivatives, and capital management techniques, and to meet evolving regulatory capital and liquidity standards.
- Our reputation and business and operating results may be affected by our ability to appropriately meet or address environmental, social or governance targets, goals, commitments or concerns that may arise.
- We grow our business in part through acquisitions and new strategic initiatives. Risks and uncertainties include those presented by the nature of the business acquired and strategic initiative, including in some cases those associated with our entry into new businesses or new geographic or other markets and risks resulting from our inexperience in those new areas, as well as risks and uncertainties related to the acquisition transactions themselves, regulatory issues, the integration of the acquired businesses into PNC after closing or any failure to execute strategic or operational plans.
- Competition can have an impact on customer acquisition, growth and retention and on credit spreads and product pricing, which can affect market share, deposits and revenues. Our ability to anticipate and respond to technological changes can also impact our ability to respond to customer needs and meet competitive demands.
- Business and operating results can also be affected by widespread manmade, natural and other disasters (including severe weather events), health emergencies, dislocations, geopolitical instabilities or events, terrorist activities, system failures or disruptions, security breaches, cyberattacks, international hostilities, or other extraordinary events beyond PNC's control through impacts on the economy and financial markets generally or on us or our counterparties, customers or third-party vendors and service providers specifically.

We provide greater detail regarding these as well as other factors in our most recent Form 10-K and in any subsequent Form 10-Qs, including in the Risk Factors and Risk Management sections and the Legal Proceedings and Commitments Notes of the Notes To Consolidated Financial Statements in those reports, and in our other subsequent SEC filings. Our forward-looking statements may also be subject to other risks and uncertainties, including those we may discuss elsewhere in this news release or in our SEC filings, accessible on the SEC's website at www.sec.gov and on our corporate website at www.pnc.com/secfilings. We have included these web addresses as inactive textual references only. Information on these websites is not part of this document.

BUSINESS

PNC is one of the largest diversified financial services companies in the United States (U.S.) and is headquartered in Pittsburgh, Pennsylvania. PNC has businesses engaged in retail banking, corporate and institutional banking and asset management, providing many of its products and services nationally. PNC's retail branch network is located coast-to-coast. PNC also has strategic international offices in four countries outside the U.S.

ACQUISITION OF FIRSTBANK HOLDING COMPANY

On January 5, 2026, PNC completed its acquisition of FirstBank Holding Company, including its banking subsidiary FirstBank. As of close, FirstBank had \$26 billion of assets, \$16 billion of loans and \$23 billion of deposits. Effective January 5, 2026, FirstBank's financial results are included in PNC's consolidated operations and will be reported in PNC's first quarter 2026 results.

These adjustments are primarily related to escrow funding and the extension of anticipated litigation resolution timing.

(b) Dividends are payable quarterly, other than Series S preferred stock, which is payable semiannually.

(c) The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax.

(a) Calculated using average daily balances.

(b) Nonaccrual loans are included in loans, net of unearned income. The impact of financial derivatives used in interest rate risk management is included in the interest income/expense and average yields/rates of the related assets and liabilities. Fair value adjustments related to hedged items are included in noninterest-earning assets and noninterest-bearing liabilities. Average balances of securities are based on amortized historical cost (excluding adjustments to fair value, which are included in other assets).

(c) Amounts include average balances held with the Federal Reserve Bank of \$31.3 billion, \$34.2 billion, \$30.8 billion, \$34.2 billion and \$37.5 billion for the three months ended December 31, 2025, September 30, 2025, June 30, 2025, March 31, 2025 and December 31, 2024 and \$32.6 billion and \$42.7 billion for the twelve months ended December 31, 2025 and December 31, 2024, respectively.

(a) Yields and rates are calculated using the applicable annualized interest income or interest expense divided by the applicable average earning assets or interest-bearing liabilities. Net interest margin is the total yield on interest-earning assets minus the total rate on interest-bearing liabilities and includes the benefit from use of noninterest-bearing sources. To provide more meaningful comparisons of net interest margins, we use net interest income on a taxable-equivalent basis in calculating average yields used in the calculation of net interest margin by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended December 31, 2025, September 30, 2025, June 30, 2025, March 31, 2025 and December 31, 2024 were \$31 million, \$30 million, \$28 million, \$28 million and \$30 million, respectively. The taxable-equivalent adjustments to net interest income for the twelve months ended December 31, 2025 and December 31, 2024 were \$117 million and \$131 million, respectively.

(b) Represents the positive effects of investing noninterest-bearing sources in interest-earning assets.

(a) Our business information is presented based on our internal management reporting practices. Net interest income in business segment results reflects PNC's internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.

(b) See the Retail Banking and Asset Management Group tables that follow for details on reclassifications made during the second quarter of 2025 that impact both Net Income and Revenue. Prior periods have been adjusted to conform with the current presentation.

(a) See note (a) on page 13.

(b) During the second quarter of 2025, certain loans and deposits, and the associated income statement impact, were transferred from the Asset Management Group to Retail Banking to better align products and services with the appropriate business segment. Prior periods have been adjusted to conform with the current presentation.

(c) During the second quarter of 2025, brokered time deposits, and the associated income statement impact, were reclassified from Retail Banking to other activities, reflecting their use for asset and liability management. Prior periods have been adjusted to conform with the current presentation.

(d) As a result of an organizational realignment, certain expenses were reclassified as corporate operations and were moved from Retail Banking to other activities during the second quarter of 2025. Prior periods have been adjusted to conform with the current presentation.

(e) Represents expense allocations for corporate overhead services used by each business segment; primarily comprised of technology, human resources and occupancy-related allocations.

(f) Other is primarily comprised of other direct expenses including outside services and equipment expense. Amounts for the fourth quarter of 2024 also include asset impairments primarily related to technology investments.

(g) Represents mortgage loan servicing balances for third parties and the related income.

(h) Presented as of period end.

(i) Servicing fees net of impact of decrease in MSR value due to passage of time, which includes the impact from regularly scheduled loan principal payments, prepayments and loans paid off during the period.

(j) Reflects all branches excluding standalone mortgage offices and satellite offices (e.g., drive-ups, electronic branches and retirement centers) that provide limited products and/or services.

(k) Includes cash and money market balances.

(d) Other is primarily comprised of other direct expenses including outside services and equipment expense.

(e) Presented as of period end.

(f) Excludes brokerage account client assets.

Glossary of Terms

Allowance for credit losses (ACL) – A valuation account that is deducted from or added to the amortized cost basis of the related financial assets to present the net carrying value at the amount expected to be collected on the financial asset.

Amortized cost basis – Amount at which a financial asset is originated or acquired, adjusted for applicable accretion or amortization of premiums, discounts and net deferred fees or costs, collection of cash, charge-offs, foreign exchange and fair value hedge accounting adjustments.

Basel III common equity tier 1 (CET1) capital (Tailoring Rules) – Common stock plus related surplus, net of treasury stock, plus retained earnings, less goodwill, net of associated deferred tax liabilities, less other disallowed intangibles, net of deferred tax liabilities and plus/less other adjustments. Investments in unconsolidated financial institutions, as well as mortgage servicing rights and deferred tax assets, must then be deducted to the extent such items (net of associated deferred tax liabilities) individually exceed 25% of our adjusted Basel III common equity tier 1 capital.

Basel III common equity tier 1 capital ratio – Common equity tier 1 capital divided by period-end risk-weighted assets (as applicable).

Basel III tier 1 capital – Common equity tier 1 capital, plus qualifying preferred stock, plus certain trust preferred capital securities, plus certain noncontrolling interests that are held by others and plus/less other adjustments.

Basel III tier 1 capital ratio – Tier 1 capital divided by period-end risk-weighted assets (as applicable).

Basel III Total capital – Tier 1 capital plus qualifying subordinated debt, plus certain trust preferred securities, plus, under the Basel III transitional rules and the standardized approach, the allowance for loan and lease losses included in tier 2 capital and other.

Basel III Total capital ratio – Basel III Total capital divided by period-end risk-weighted assets (as applicable).

Charge-off – Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred from portfolio holdings to held for sale by reducing the loan carrying amount to the fair value of the loan, if fair value is less than carrying amount.

Common shareholders' equity – Total shareholders' equity less the liquidation value of preferred stock.

Credit valuation adjustment – Represents an adjustment to the fair value of our derivatives for our own and counterparties' non-performance risk.

Criticized commercial loans – Loans with potential or identified weaknesses based upon internal risk ratings that comply with the regulatory classification definitions of "special mention," "substandard" or "doubtful."

Current Expected Credit Loss (CECL) – Methodology for estimating the allowance for credit losses on in-scope financial assets held at amortized cost and unfunded lending related commitments which uses a combination of expected losses over a reasonable and supportable forecast period, a reversion period and long run average credit losses for their estimated contractual term.

Discretionary client assets under management – Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Earning assets – Assets that generate income, which include: interest-earning deposits with banks; loans held for sale; loans; investment securities; and certain other assets.

Effective duration – A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off- balance sheet positions.

Efficiency – Noninterest expense divided by total revenue.

Fair value – The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fee income – Refers to the following categories within Noninterest income: Asset management and brokerage, Capital markets and advisory, Card and cash management, Lending and deposit services, and Residential and commercial mortgage.

GAAP – Accounting principles generally accepted in the United States of America.

Leverage ratio – Basel III tier 1 capital divided by average quarterly adjusted total assets.

Nondiscretionary client assets under administration – Assets we hold for our customers/clients in a nondiscretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Nonperforming assets – Nonperforming assets include nonperforming loans, OREO, foreclosed and other assets. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans – Loans accounted for at amortized cost whose credit quality has deteriorated to the extent that full collection of contractual principal and interest is not probable. Interest income is not recognized on nonperforming loans. Nonperforming loans exclude certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest, loans held for sale and loans accounted for under the fair value option.

Operating leverage – The period to period dollar or percentage change in total revenue less the dollar or percentage change in noninterest expense. A positive variance indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative variance implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

Other real estate owned (OREO) and foreclosed assets – Assets taken in settlement of troubled loans primarily through deed-in-lieu of foreclosure or foreclosure. Foreclosed assets include real and personal property. Certain assets that have a government-guarantee which are classified as other receivables are excluded.

Risk-weighted assets – Computed by the assignment of specific risk-weights (as defined by the Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

Servicing rights – Intangible assets or liabilities created by an obligation to service assets for others. Typical servicing rights include the right to receive a fee for collecting and forwarding payments on loans and related taxes and insurance premiums held in escrow.

Supplementary leverage ratio – Basel III tier 1 capital divided by Supplementary leverage exposure.

Tailoring Rules – Rules adopted by the federal banking agencies to better tailor the application of their capital, liquidity, and enhanced prudential requirements for banking organizations to the asset size and risk profile (as measured by certain regulatory metrics) of the banking organization. Effective January 1, 2020, the agencies' capital and liquidity rules classify all BHCs with \$100 billion or more in total assets into one of four categories (Category I, Category II, Category III, and Category IV).

Taxable-equivalent interest income – The interest income earned on certain assets that is completely or partially exempt from federal income tax. These tax-exempt instruments typically yield lower returns than taxable investments.

Unfunded lending related commitments – Standby letters of credit, financial guarantees, commitments to extend credit and similar unfunded obligations that are not unilaterally, unconditionally, cancelable at PNC's option.
