UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 OR 15(d) of The Securities Exchange Act of 1934

April 17, 2008

Date of Report (Date of earliest event reported)

THE PNC FINANCIAL SERVICES GROUP, INC.

(Exact name of registrant as specified in its charter)

Commission File Number 001-09718

Pennsylvania (State or other jurisdiction of incorporation or organization) 25-1435979 (I.R.S. Employer Identification No.)

One PNC Plaza 249 Fifth Avenue

249 Fifth Avenue Pittsburgh, Pennsylvania 15222-2707 (Address of principal executive offices, including zip code)

(412) 762-2000

(Registrant's telephone number, including area code)

Not Applicable

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

□ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02 Results of Operations and Financial Condition.

On April 17, 2008, The PNC Financial Services Group, Inc. ("the Corporation") issued a press release and held a conference call for investors regarding the Corporation's earnings and business results for the first quarter of 2008. The Corporation also provided supplementary financial information on its web site, including financial information disclosed in connection with its press release, and provided electronic presentation slides on its web site used in connection with the related investor conference call. Copies of the supplementary financial information and electronic presentation slides are included in this Report as Exhibits 99.1 and 99.2, respectively, and are furnished herewith.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits. The exhibits listed on the Exhibit Index accompanying this Form 8-K are furnished herewith.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: April 17, 2008

The information contained in this Financial Supplement is preliminary, unaudited and based on data available on April 17, 2008. We have reclassified certain prior period amounts included in this Financial Supplement to be consistent with the current period presentation. This information speaks only as of the particular date or dates included in the schedules. We do not undertake any obligation to, and disclaim any duty to, correct or update any of the information provided in this Financial Supplement. Our future financial performance is subject to risks and uncertainties as described in our United States Securities and Exchange Commission ("SEC") filings.

Sterling Financial Corporation Acquisition

While not reflected in this Financial Supplement, we completed our acquisition of Sterling Financial Corporation ("Sterling") on April 4, 2008. Sterling shareholders received an aggregate of approximately \$224 million in cash and 4.6 million shares of PNC common stock.

Hilliard Lyons Divestiture

On March 31, 2008, we completed the sale of J.J.B. Hilliard, W.L. Lyons, LLC ("Hilliard Lyons"), a Louisville, Kentucky-based wholly-owned subsidiary of PNC and a fullservice brokerage and financial services provider, to Houchens Industries, Inc. We recognized an after-tax gain of \$23 million in the first quarter of 2008 in connection with this divestiture.

Yardville National Bancorp Acquisition

We completed our acquisition of Yardville National Bancorp ("Yardville") on October 26, 2007 and our financial results include Yardville from that date. PNC issued approximately 3.4 million shares of PNC common stock and paid approximately \$156 million in cash as consideration for the acquisition. PNC converted the Yardville banking charter and financial and customer data onto PNC's financial and operational systems during March 2008.

Mercantile Acquisition

We completed our acquisition of Mercantile Bankshares Corporation ("Mercantile") on March 2, 2007 and our financial results include Mercantile from that date. PNC issued approximately 53 million shares of PNC common stock and paid approximately \$2.1 billion in cash as consideration for the acquisition. PNC converted the Mercantile banking charters and financial and customer data onto PNC's financial and operational systems during September 2007.

Effective tax rate (a)	40.0%	21.2%	30.7%	31.7%	30.7%

(a) The effective tax rates are presented on a GAAP basis. The higher effective tax rate for the first quarter of 2008 was due to taxes associated with the gain on the sale of Hilliard Lyons. The lower effective tax rate for the fourth quarter of 2007 was primarily due to lower pretax income in relation to tax credits and earnings that are not subject to tax.

Business Segment Products and Services (Unaudited)

Retail Banking provides deposit, lending, brokerage, trust, investment management, and cash management services to approximately 2.9 million consumer and small business customers within our primary geographic markets. Our customers are serviced through approximately 1,100 offices in our branch network, the call center located in Pittsburgh, and the Internet – *www.pncbank.com*. The branch network is located primarily in Pennsylvania, New Jersey, Washington, D.C., Maryland, Virginia, Ohio, Kentucky and Delaware. Brokerage services are provided through PNC Investments, LLC and, prior to March 31, 2008, J.J.B. Hilliard, W.L. Lyons, Inc. ("Hilliard Lyons"). On March 31, 2008, PNC sold Hilliard Lyons to Houchens Industries, Inc.

Retail Banking also serves as investment manager and trustee for employee benefit plans and charitable and endowment assets and provides nondiscretionary defined contribution plan services. These services are provided to individuals and corporations primarily within our primary geographic markets.

Corporate & Institutional Banking provides lending, treasury management, and capital markets-related products and services to mid-sized corporations, government entities, and selectively to large corporations. Lending products include secured and unsecured loans, letters of credit and equipment leases. Treasury management services include cash and investment management, receivables management, disbursement services, funds transfer services, information reporting, and global trade services. Capital markets-related products and services include foreign exchange, derivatives, loan syndications, mergers and acquisitions advisory and related services to middle-market companies, securities underwriting, and securities sales and trading. We also provide commercial loan servicing, real estate advisory and technology solutions for the commercial real estate finance industry. Corporate & Institutional Banking provides products and services generally within our primary geographic markets, with certain products and services provided nationally.

BlackRock is one of the largest publicly traded investment management firms in the United States with \$1.364 trillion of assets under management at March 31, 2008. BlackRock manages assets on behalf of institutional and individual investors worldwide through a variety of fixed income, cash management, equity and balanced and alternative investment separate accounts and funds. In addition, BlackRock provides risk management, investment system outsourcing and financial advisory services globally to institutional investors. At March 31, 2008, PNC's ownership interest in BlackRock was approximately 33.4%.

PFPC is a leading full service provider of processing, technology and business solutions for the global investment industry. Securities services include custody, securities lending, and accounting and administration for funds registered under the 1940 Act and alternative investments. Investor services include transfer agency, subaccounting, and distribution. Financial advisor services include managed accounts and information management. PFPC serviced \$2.6 trillion in total assets and 76 million shareholder accounts as of March 31, 2008 both domestically and internationally through its Ireland and Luxembourg operations.

Summary of Business Segment Earnings and Revenue (Unaudited)

	Three months ended

Other, including BlackRock (b)	239	22		175	154	211
Total consolidated revenue	\$ 1,830	\$ 1,634	\$ 1	,757 \$1	,721	\$ 1,620

(a) Our business information is presented based on our management accounting practices and our management structure. We refine our methodologies from time to time as our management accounting practices are enhanced and our businesses and management structure change.

- (b) We consider BlackRock to be a separate reportable business segment but have combined its results with Other for this presentation. Our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008 will provide additional business segment disclosures for BlackRock. Generally, PNC's business segment earnings from BlackRock can be estimated by multiplying our approximately 33.4% ownership interest by BlackRock's reported GAAP earnings, less the additional income taxes recorded by PNC on those earnings. The effective tax rate on those earnings is typically different than PNC's consolidated effective tax rate due to the tax treatment of dividends received, if any, from BlackRock. PNC's effective tax rate on its earnings from BlackRock for the first quarter of 2008 was approximately 25.2%.
- (c) Business revenue is presented on a taxable-equivalent basis. The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP in the Consolidated Income Statement. The following is a reconciliation of total consolidated revenue on a book (GAAP) basis to total consolidated revenue on a taxable-equivalent basis (in millions):

	Three months ended						
	March 31 2008	December 31 2007	September 30 2007	June 30 2007	March 31 2007		
Total consolidated revenue, book (GAAP) basis	\$ 1,821	\$ 1,627	\$ 1,751	\$1,713	\$ 1,614		
Taxable-equivalent adjustment	9	7	6	8	6		
Total consolidated revenue, taxable-equivalent basis	\$ 1,830	\$ 1,634	\$ 1,757	\$1,721	\$ 1,620		

(d) PFPC revenue represents the sum of servicing revenue and nonoperating income (expense) less debt financing costs.

(a) Presented as of period-end, except for net charge-offs, annualized net charge-off ratio and gains on sales of education loans. Information as of March 31, 2008 excludes Hilliard Lyons, which was sold as of that date.

(b)

Amounts subsequent to October 26, 2007 include the impact of Yardville. Increase in the first quarter of 2008 relates to the impact of aligning small business and consumer loan charge-off policies. (c)

(d) Excludes certain satellite branches that provide limited products and service hours.

Included in "Noninterest income" on page 13. (e)

Excludes brokerage account assets. (f)

(a) Presented as of period-end, except for the annualized net charge-off ratio, which is for the three months ended. Information as of March 31, 2008 excludes Hilliard Lyons, which was sold as of that date.

(b) This information excludes the impact of acquisitions between PNC's acquisition date and the date of conversion of the acquired companies' data onto PNC's financial and operational systems because such information was not available prior to the conversion date. Therefore, information presented above as of June 30, 2007 and March 31, 2007 excludes the impact of Mercantile, which PNC acquired effective March 2, 2007 and converted during September 2007. Similarly, information presented above as of December 31, 2007 (except "Brokerage statistics") excludes the impact of Yardville, which PNC acquired effective October 26, 2007 and converted during March 2008.
 (c) Includes loans from acquired portfolios for which lien position and loan-to-value information was limited.

(d) Represents the most recent FICO scores we have on file.

(e) Average balance for the first quarter of 2008 reflects a transfer of \$140 million to the Corporate & Institutional Banking business segment.

(f) Represents small business balances. These balances are swept into liquidity products managed by other PNC business segments, the majority of which are off-balance sheet.

(g) Financial consultants provide services in full service brokerage offices and PNC traditional branches.

(a) See note (a) on page 12.

Certain out-of-pocket expense items which are then client billable are included in both servicing revenue and operating expense above, but offset each other entirely and (b) therefore have no net effect on operating income. Distribution revenue and expenses which relate to 12b-1 fees that PFPC receives from certain fund clients for the payment of marketing, sales and service expenses also entirely offset each other, but are netted for presentation purposes above.

(c)

Net of nonoperating expense. Total operating income divided by servicing revenue. (d)

Includes alternative investment net assets serviced. (e)

Glossary of Terms

Accounting/administration net fund assets - Net domestic and foreign fund investment assets for which we provide accounting and administration services. We do not include these assets on our Consolidated Balance Sheet.

Adjusted average total assets - Primarily comprised of total average quarterly (or annual) assets plus (less) unrealized losses (gains) on available-for-sale debt securities, less goodwill and certain other intangible assets (net of eligible deferred taxes).

Annualized - Adjusted to reflect a full year of activity.

Assets under management - Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Basis point - One hundredth of a percentage point.

<u>Charge-off</u> - Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred to held for sale by reducing the carrying amount by the allowance for loan losses associated with such loan or if the market value is less than its carrying amount.

Common shareholders' equity to total assets - Common shareholders' equity divided by total assets. Common shareholders' equity equals total shareholders' equity less the liquidation value of preferred stock.

<u>Credit spread</u> - The difference in yield between debt issues of similar maturity. The excess of yield attributable to credit spread is often used as a measure of relative creditworthiness, with a reduction in the credit spread reflecting an improvement in the borrower's perceived creditworthiness.

<u>Custody assets</u> - Investment assets held on behalf of clients under safekeeping arrangements. We do not include these assets on our Consolidated Balance Sheet. Investment assets held in custody at other institutions on our behalf are included in the appropriate asset categories on the Consolidated Balance Sheet as if physically held by us.

<u>Derivatives</u> - Financial contracts whose value is derived from publicly traded securities, interest rates, currency exchange rates or market indices. Derivatives cover a wide assortment of financial contracts, including forward contracts, futures, options and swaps.

<u>Duration of equity</u> - An estimate of the rate sensitivity of our economic value of equity. A negative duration of equity is associated with asset sensitivity*i(e.,* positioned for rising interest rates), while a positive value implies liability sensitivity (*i.e.,* positioned for declining interest rates). For example, if the duration of equity is +1.5 years, the economic value of equity declines by 1.5% for each 100 basis point increase in interest rates.

Earning assets - Assets that generate income, which include: federal funds sold; resale agreements; other short-term investments, including trading securities; loans held for sale; loans, net of unearned income; securities; and certain other assets.

Economic capital - Represents the amount of resources that a business segment should hold to guard against potentially large losses that could cause insolvency. It is based on a measurement of economic risk, as opposed to risk as defined by regulatory bodies. The economic capital measurement process involves converting a risk distribution to the capital that is required to support the risk, consistent with our target credit rating. As such, economic risk serves as a "common currency" of risk that allows us to compare different risks on a similar basis.

Effective duration - A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and offbalance sheet positions.

Glossary of Terms (Continued)

Efficiency - Noninterest expense divided by the sum of net interest income (GAAP basis) and noninterest income.

<u>Funds transfer pricing</u> - A management accounting methodology designed to recognize the net interest income effects of sources and uses of funds provided by the assets and liabilities of a business segment. We assign these balances LIBOR-based funding rates at origination that represent the interest cost for us to raise/invest funds with similar maturity and repricing structures.

<u>Futures and forward contracts</u> - Contracts in which the buyer agrees to purchase and the seller agrees to deliver a specific financial instrument at a predetermined price or yield. May be settled either in cash or by delivery of the underlying financial instrument.

GAAP - Accounting principles generally accepted in the United States of America.

Leverage ratio - Tier 1 risk-based capital divided by adjusted average total assets.

Net interest income from loans and deposits - A management accounting assessment, using funds transfer pricing methodology, of the net interest contribution from loans and deposits.

Net interest margin - Annualized taxable-equivalent net interest income divided by average earning assets.

Nondiscretionary assets under administration - Assets we hold for our customers/clients in a non-discretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Noninterest income to total revenue - Noninterest income divided by the sum of net interest income (GAAP basis) and noninterest income.

Nonperforming assets - Nonperforming assets include nonaccrual loans, troubled debt restructured loans, foreclosed assets and other assets. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans - Nonperforming loans include loans to commercial, commercial real estate, equipment lease financing, consumer, and residential mortgage customers as well as troubled debt restructured loans. Nonperforming loans do not include loans held for sale or foreclosed and other assets. We do not accrue interest income on loans classified as nonperforming.

Notional amount - A number of currency units, shares, or other units specified in a derivatives contract.

Operating leverage - The period to period percentage change in total revenue (GAAP basis) less the percentage change in noninterest expense. A positive percentage indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative percentage implies expense growth exceeded revenue growth (*e.*, negative operating leverage).

Recovery - Cash proceeds received on a loan that we had previously charged off. We credit the amount received to the allowance for loan and lease losses.

Return on average capital - Annualized net income divided by average capital.

Return on average assets - Annualized net income divided by average assets.

Return on average common equity- Annualized net income divided by average common shareholders' equity.

<u>Risk-weighted assets</u> - Primarily computed by the assignment of specific risk-weights (as defined by The Board of Governors of the Federal Reserve System) to assets and offbalance sheet instruments.

Securitization - The process of legally transforming financial assets into securities.

Glossary of Terms (Continued)

Tangible common equity ratio - Period-end common shareholders' equity less goodwill and other intangible assets (net of eligible deferred taxes), and excluding loan servicing rights, divided by period-end assets less goodwill and other intangible assets (net of eligible deferred taxes), and excluding loan servicing rights.

<u>Taxable-equivalent interest</u> - The interest income earned on certain assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all interest-earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement.

<u>Tier 1 risk-based capital</u> - Tier 1 risk-based capital equals: total shareholders' equity, plus trust preferred capital securities, plus certain minority interests that are held by others; less goodwill and certain other intangible assets (net of eligible deferred taxes), less equity investments in nonfinancial companies and less net unrealized holding losses on available-for-sale equity securities. Net unrealized holding gains on available-for-sale equity securities, net unrealized holding gains (losses) on cash flow hedge derivatives are excluded from total shareholders' equity for Tier 1 risk-based capital purposes.

Tier 1 risk-based capital ratio - Tier 1 risk-based capital divided by period-end risk-weighted assets.

Total fund assets serviced - Total domestic and offshore fund investment assets for which we provide related processing services. We do not include these assets on our Consolidated Balance Sheet.

<u>Total return swap</u> - A non-traditional swap where one party agrees to pay the other the "total return" of a defined underlying asset (e.g., a loan), usually in return for receiving a stream of LIBOR-based cash flows. The total returns of the asset, including interest and any default shortfall, are passed through to the counterparty. The counterparty is therefore assuming the credit and economic risk of the underlying asset.

Total risk-based capital - Tier 1 risk-based capital plus qualifying subordinated debt and trust preferred securities, other minority interest not qualified as Tier 1, and the allowance for loan and lease losses, subject to certain limitations.

Total risk-based capital ratio - Total risk-based capital divided by period-end risk-weighted assets.

Transaction deposits - The sum of money market and interest-bearing demand deposits and demand and other noninterest-bearing deposits.

<u>Vield curve</u> - A graph showing the relationship between the yields on financial instruments or market indices of the same credit quality with different maturities. For example, a "normal" or "positive" yield curve exists when long-term bonds have higher yields than short-term bonds. A "flat" yield curve exists when yields are the same for short-term and long-term bonds. A "steep" yield curve exists when yields on long-term bonds are significantly higher than on short-term bonds. An "inverted" or "negative" yield curve exists when short-term bonds.

The PNC Financial Services Group, Inc.

First Quarter 2008 Earnings Conference Call April 17, 2008

Cautionary Statement Regarding Forward-Looking Information and Adjusted Information

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business, operations, financial condition, financial performance and asset quality. Forward-looking statements are necessarily subject to numerous assumptions, risks and uncertainties, which change over time.

The forward-looking statements in this presentation are qualified by the factors affecting forward-looking statements identified in the more detailed Cautionary Statement included in the Appendix, which is included in the version of the presentation materials posted on our corporate website at www.pnc.com/investorevents. We provide greater detail regarding these factors in our 2007 Form 10-K, including in the Risk Factors and Risk Management sections, and in our other SEC reports (accessible on the SEC's website at www.sec.gov and on or through our corporate website at www.pnc.com/secfilings).

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation speak only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following types of adjustments: (1) 2006 and earlier periods reflect the impact of the deconsolidation of BlackRock by adjusting as if we had recorded our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting 2006 periods, as applicable, to exclude the impact of the third quarter 2006 and 2007 periods to exclude the net mark-to-market adjustments on PNC's remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with the company's transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting 2007 periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; (5) adjusting 2007 periods, as applicable, for the fourth quarter 2007 Visa litigation charge; and (6) adjusting, as appropriate, for the impact of these adjusted these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments would not have been similar in magnitude to the amount of the adjustments shown.

In certain discussions, we may also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on taxexempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified therein or in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at www.pnc.com under "About PNC–Investor Relations."

PNC 2

Key Take-Aways

- Delivered solid results
- Posted strong revenue growth despite market volatility
- Created positive operating leverage
- Maintained a well-positioned balance sheet
- Asset quality performing as expected
- Building our tier 1 capital ratio

Despite Market Volatility, PNC's Ability to Execute Yielded Positive Results.

> PNC 3

Business Segment Highlights

Retail

- Effectively grew net checking relationships organically
- Investments in acquired branches produced excellent results
- Asset quality performing as expected

Corporate & Institutional

- Acquisitions and client demand helped drive loan and deposit growth
- Strong year over year net interest income growth
- > Treasury management and capital markets posted excellent results

PFPC

- Solid servicing revenue growth year over year
- Albridge and Coates acquisitions transforming the model
- Total fund assets serviced grew to \$2.6 trillion

BlackRock

- Posted another strong quarter of core earnings
- Assets under management now at \$1.4 trillion

Execution in PNC's Segments Leaves Us Well-Positioned for the Future.

Cautionary Statement Regarding Forward-Looking Information Appen

We make statements in this presentation, and we may from time to time make other statements, regarding our outlook or expectations for earnings, revenues, expenses and/or other matters regarding or affecting PNC that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements are typically identified by words such as "believe," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "will," "project" and other similar words and expressions. "intend,"

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made. We do not assume any duty and do not undertake to update our forward-looking statements. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those that we anticipated in our forward-looking statements, and future results could differ materially from our historical performance.

Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding some of these factors in our Form 10-K for the year ended December 31, 2007, including in the Risk Factors and Risk Management sections of that report, and in our other SEC reports. Our forward-looking statements may also be subject to other risks and uncertainties, including those that we may discuss elsewhere in this presentation or in our filings with the SEC, accessible on the SEC's website at www.sec.gov and on or through our corporate website at www.pnc.com/secfilings.

•Our businesses and financial results are affected by business and economic conditions, both generally and specifically in the principal markets in which we operate. In particular, our businesses and financial results may be impacted by: •Changes in interest rates and valuations in the debt, equity and other financial markets.

- •Disruptions in the liquidity and other functioning of financial markets, including such disruptions in the markets for real estate and other assets Distributions in the inducts, and other conversion of the dobal financial products.
 Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.
 Changes in our customers', suppliers' and other counterparties' performance in general and their creditworthiness in particular.
 Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors.

•A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly by affecting our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally. •Given current economic and financial market conditions, our forward-looking financial statements are subject to the risk that these conditions will

be substantially different than we are currently expecting. These statements are based on our current expectations that interest rates will remain low through 2008 with continued wide market credit spreads and that national economic conditions currently point toward a mild recession. •Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock long-term incentive plan ("LTIP") programs, as our LTIP liability is adjusted quarterly ("marked-to-market") based on changes in BlackRock's common stock price and the number of remaining committed shares, and we recognize gain or loss on such shares at such times as shares are transferred for payouts under the LTIP programs.

Under the LTP programs.
Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or results of operations or our competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention, our ability to attract and retain management, liquidity, and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of legal proceedings or regulatory and other governmental inquiries; (b) increased litigation risk from recent regulatory and other governmental developments; (c) the results of the regulatory examination process, our failure to satisfy the requirements of agreements with governmental agencies, and regulators' future use of supervisory and enforcement tools; (d) legislative and regulatory reforms, including because to have needed by an endoted by a context or a context of a context or a context. changes to laws and regulations involving tax, pension, education lending, and the protection of confidential customer information; and (e) changes in accounting policies and principles.

Cautionary Statement Regarding Forward-Looking

Information (continued)

•Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through the effective use of third-party insurance, derivatives, and capital management techniques.

•The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual property claimed by others, can impact our business and operating results.

•Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs and to meet competitive demands.

•Our ability to implement our business initiatives and strategies could affect our financial performance over the next several years. •Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, which can affect market share, deposits and revenues.

•Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities, either as a result of the impact on the economy and capital and other financial markets generally or on us or on our customers, suppliers or other counterparties specifically.

counterparties specifically. •Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance relating to our equity interest in BlackRock, Inc. are discussed in more detail in BlackRock's filings with the SEC, including in the Risk Factors sections of BlackRock's reports. BlackRock's SEC filings are accessible on the SEC's website and on or through BlackRock's website at www.blackrock.com.

We grow our business from time to time by acquiring other financial services companies. Acquisitions in general present us with risks in addition to those presented by the nature of the business acquired. In particular, acquisitions may be substantially more expensive to complete (including as a result of costs incurred in connection with the integration of the acquired company) and the anticipated benefits (including anticipated cost savings and strategic gains) may be significantly harder or take longer to achieve than expected. In some cases, acquisitions involve our entry into new businesses or new geographic or other markets, and these situations also present risks resulting from our inexperience in these new areas. As a regulated financial institution, our pursuit of attractive acquisition opportunities could be negatively impacted due to regulatory delays or other regulatory issues. Regulatory and/or legal issues related to the pre-acquisition operations of an acquired business may cause reputational harm to PNC following the acquisition of the acquired business into ours and may result in additional future costs arising as a result of those issues. Our recent acquisition of Sterling Financial Corporation ("Sterling") presents regulatory and litigation risk, as a result of financial financial finance subsidiary, that may impact our financial results.

Any annualized, proforma, estimated, third party or consensus numbers in this presentation are used for illustrative or comparative purposes only and may not reflect actual results. Any consensus earnings estimates are calculated based on the earnings projections made by analysts who cover that company. The analysts' opinions, estimates or forecasts (and therefore the consensus earnings estimates) are theirs alone, are not those of PNC or its management, and may not reflect PNC's or other company's actual or anticipated results.
