Item 7.01. Regulation FD Disclosure.

In its Annual Report on Form 10-K (2016 Form 10-K) for the year ended December 31, 2016, The PNC Financial Services Group, Inc. (the "Corporation") reported its financial results through six business segments: Retail Banking, Corporate & Institutional Banking, Asset Management Group, Residential Mortgage Banking, BlackRock and Non-Strategic Assets Portfolio.

Effective for the first quarter of 2017, as a result of changes to how the Corporation manages its businesses, it realigned its segments and, accordingly, has changed the basis of presentation of its segments, resulting in four reportable business segments: Retail Banking, Corporate & Institutional Banking, Asset Management Group and BlackRock.

The changes in business segment presentation resulting from the realignment included the following:

- The Residential Mortgage Banking segment was combined into Retail Banking as a result of the Corporation's strategic initiative to transform the home lending process by integrating mortgage and home equity lending to enhance product capability and speed of delivery for a better customer experience and to improve efficiency. In conjunction with this shift, residential mortgages previously reported within the "Other" category were also moved to Retail Banking.
- The Non-Strategic Assets Portfolio segment was eliminated, reflecting the cumulative liquidation of the acquired portfolios previously reported in that segment. The segment's consumer assets were moved to the "Other" category as they are discontinued portfolios, while its commercial assets were transferred to Corporate & Institutional Banking in order to continue the relationships with those customers.
- A portion of business banking clients was moved from Retail Banking to Corporate & Institutional Banking to facilitate enhanced product offerings to meet the financial needs of business banking clients.

In addition, the Corporation made certain adjustments to its internal funds transfer pricing methodology primarily relating to weighted average lives of certainnon-maturity deposits. This change in methodology affected business segment results, primarily adversely impacting net interest income for Corporate & Institutional Banking and Retail Banking, offset by increased net interest income in the "Other" category.

The information contained in this Form 8-K is being furnished to assist investors in understanding how the Corporation's business segment results would have been presented in previously filed reports had such results been reported to reflect the segment realignment and the change in internal funds transfer pricing methodology discussed above. These revisions did not affect the Consolidated Statement of Income or Consolidated Balance Sheet. The Corporation's First Quarter 2017 Form 10-Q and subsequent filings that include segment information will reflect these revisions.

Revised Supplemental Information to reflect the revisions discussed above is attached hereto as Exhibit 99.1. This Revised Supplemental Information is being furnished pursuant to Item 7.01, and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall the Revised Supplemental Information be deemed incorporated by reference into any filings under the Securities Act of 1933, as amended.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits. The exhibit listed on the Exhibit Index accompanying this Form8-K is furnished herewith.

REVISED SUPPLEMENTAL QUARTERLY SEGMENT INFORMATION – 2016 QUARTERLY INFORMATION (Unaudited)

Business Segment Descriptions (Unaudited)

Retail Banking provides deposit, lending, brokerage, investment management and cash management products and services to consumer and small business customers within our primary geographic markets. Our customers are serviced through our branch network, ATMs, call centers, online banking and mobile channels. The branch network is located primarily in Pennsylvania, Ohio, New Jersey, Michigan, Illinois, Maryland, Indiana, Florida, North Carolina, Kentucky, Washington, D.C., Delaware, Virginia, Georgia, Alabama, Missouri, Wisconsin and South Carolina. Deposit products include checking, savings and money market accounts and certificates of deposit. Lending products include residential mortgages, home equity loans and lines of credit, auto loans, credit cards, education loans and personal loans and lines of credit. The residential mortgage loans are directly originated within our branch network and nationwide, and are typically underwritten to government agency and/or third-party standards, and either sold, servicing retained, or held on our balance sheet. Our mortgage servicing operation performs all functions related to servicing residential mortgage loans for investors and for loans we own. Brokerage, investment management and cash management products and services include managed accounts, education accounts, retirement accounts and trust and estate services.

Corporate & Institutional Banking provides lending, treasury management, and capital markets-related products and services to mid-sized and large corporations, government and not-for-profit entities. Lending products include secured and unsecured loans, letters of credit and equipment leases. Treasury management services include cash and investment management, receivables management, disbursement services, funds transfer services, information reporting and global trade services. Capital markets-related products and services include foreign exchange, derivatives, securities, loan syndications, mergers and acquisitions advisory and equity capital markets advisory related services. We also provide commercial loan servicing and technology solutions for the commercial real estate finance industry. Products and services are generally provided within our primary geographic markets, with certain products and services offered nationally and internationally.

Asset Management Group includes personal wealth management for high net worth and ultra high net worth clients and institutional asset management. Wealth management products and services include investment and retirement planning, customized investment management, private banking, tailored credit solutions, and trust management and administration for individuals and their families. Our Hawthorn unit provides multi-generational family planning including wealth strategy, investment management, private banking, tax and estate planning guidance, performance reporting and personal administration services to ultra high net worth families. Institutional asset management provides advisory, custody administration and retirement administration services. The business also offers PNC proprietary mutual funds and investment strategies. Institutional clients include corporations, unions, municipalities, non-profits, foundations and endowments, primarily located in our geographic footprint.

BlackRock, in which we hold an equity investment, is a leading publicly traded investment management firm providing a broad range of investment and risk management services to institutional and retail clients worldwide. Using a diverse platform of active and index investment strategies across asset classes, BlackRock develops investment outcomes and asset allocation solutions for clients. Product offerings include single- and multi-asset class portfolios investing in equities, fixed income, alternatives and money market instruments. BlackRock also offers an investment and risk management technology platform, risk analytics and advisory services and solutions to a broad base of institutional investors. Our equity investment in BlackRock provides us with an additional source of noninterest income and increases our overall revenue diversification. BlackRock is a publicly traded company, and additional information regarding its business is available in its filings with the Securities and Exchange Commission (SEC). At December 31, 2016, our economic interest in BlackRock was 22%.

(a) Our business information is presented based on our internal management reporting practices. Net interest income in business segment results reflects PNC's internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors. We periodically refine our internal methodologies as management reporting practices are enhanced. In the first quarter of 2017, we made certain adjustments to our internal funds transfer pricing methodology primarily relating to weighted average lives of certain non-maturity deposits. This change in methodology affected business segment results, primarily adversely impacting net interest income for Corporate & Institutional Banking and Retail Banking, offset by increased net interest income in Other.

(b) Other includes residual activities that do not meet the criteria for disclosure as a separate reportable business, such as gains or losses related to BlackRock transactions, integration costs, asset and liability management activities including net securities gains or losses, other-than-temporary impairment of investment securities and certain trading activities, exited businesses, non-strategic consumer loan portfolios, private equity investments, intercompany eliminations, most corporate overhead, tax adjustments that are not allocated to business segments and differences between business segment performance reporting and financial statement reporting (GAAP), including the presentation of net income attributable to noncontrolling interests as the segments' results exclude their portion of net income attributable to noncontrolling interests.
