From Bill Demchak, PNC Chairman and Chief Executive Officer:

"PNC achieved strong results in 2024 while continuing to invest in the future of the franchise. We grew customers, deepened relationships, and continued to support all of our constituents. We generated record revenue and strengthened our capital levels. At the same time, we maintained our disciplined approach to expenses and delivered positive operating leverage. As we enter 2025, I have never been more excited about the opportunities in front of us to grow our franchise and deliver value for our stakeholders."

Income Statement Highlights

Fourth quarter 2024 compared with third quarter 2024

- Total revenue of \$5.6 billion increased \$135 million due to higher net interest income and noninterest income.
 - Net interest income of \$3.5 billion increased \$113 million, or 3%, driven by lower funding costs and the continued repricing of fixed rate assets.
 - Net interest margin of 2.75% increased 11 basis points.
 - Fee income of \$1.9 billion decreased \$84 million, or 4%, due to elevated third quarter residential mortgage and capital markets activity.
 - Other noninterest income of \$175 million increased \$106 million reflecting lower negative Visa derivative adjustments.
- Noninterest expense of \$3.5 billion increased \$179 million, or 5%, and included \$97 million of asset impairments primarily related to technology investments, and the benefit of an \$18 million FDIC special assessment reduction. The combined impact of these items was \$62 million after tax. The remaining increase was largely attributable to seasonality and higher marketing spend.
- Provision for credit losses was \$156 million in the fourth quarter, reflecting improved macroeconomic factors and portfolio activity. The third quarter provision
 for credit losses was \$243 million.
- The effective tax rate was 14.6% for the fourth quarter and 19.2% for the third quarter. The fourth quarter included the resolution of certain tax matters which
 resulted in \$60 million of income tax benefits.
- Net income of \$1.6 billion increased \$122 million, or 8%.

Balance Sheet Highlights

Fourth quarter 2024 compared with third quarter 2024 or December 31, 2024 compared with September 30, 2024

- Average loans of \$319.1 billion were stable, including average commercial loans of \$218.6 billion and average consumer loans of \$100.4 billion.
- Credit quality performance:
 - Delinquencies of \$1.4 billion increased \$107 million, or 8%, primarily due to higher commercial loan delinquencies.
 - Total nonperforming loans of \$2.3 billion decreased \$0.3 billion, or 10%, driven by lower commercial and industrial nonperforming loans.
 - Net loan charge-offs of \$250 million decreased \$36 million primarily due to lower commercial net loan charge-offs, including lower commercial real estate net loan charge-offs.
 - The allowance for credit losses of \$5.2 billion decreased \$0.1 billion. The allowance for credit losses to total loans was 1.64% at December 31, 2024 and 1.65% at September 30, 2024.
- Average investment securities of \$143.9 billion were stable.
- Average Federal Reserve Bank balances of \$37.5 billion decreased \$7.4 billion, or 16%, reflecting lower borrowed funds outstanding.
- Average deposits of \$425.3 billion increased \$3.1 billion due to growth in interest-bearing commercial deposits, partially offset by a decline in consumer deposits, reflecting lower brokered time deposits. Noninterest-bearing deposits as a percentage of total average deposits remained stable at 23%.
- Average borrowed funds of \$67.2 billion decreased \$8.9 billion, or 12%, primarily due to lower Federal Home Loan Bank advances.
- PNC maintained a strong capital and liquidity position:

- On January 3, 2025, the PNC board of directors declared a quarterly cash dividend on common stock of \$1.60 per share to be paid on February 5, 2025 to shareholders of record at the close of business January 15, 2025.
- PNC returned \$0.9 billion of capital to shareholders, reflecting more than \$0.6 billion of dividends on common shares and more than \$0.2 billion of common share repurchases.
- The Basel III common equity Tier 1 capital ratio was an estimated 10.5% at December 31, 2024 and was 10.3% at September 30, 2024.
- PNC's average LCR for the three months ended December 31, 2024 was 107%, exceeding the regulatory minimum requirement throughout the quarter.

Noninterest income for the fourth quarter of 2024 increased \$22 million compared with the third quarter of 2024. Asset management and brokerage decreased \$9 million, reflecting lower annuity sales, partially offset by the benefit from higher average equity markets. Capital markets and advisory revenue declined \$23 million primarily due to elevated third quarter underwriting activity. Card and cash management fees decreased \$3 million reflecting the impact of credit card origination incentives, partially offset by higher treasury management product revenue. Lending and deposit services increased \$10 million and included increased customer activity. Residential and commercial mortgage revenue decreased \$59 million driven by elevated third quarter residential mortgage revenue, partially offset by higher commercial mortgage revenue. Other noninterest income increased \$106 million due to lower negative Visa derivative adjustments. Visa derivative adjustments were negative \$23 million in the fourth quarter of 2024 compared to negative \$128 million in the third quarter of 2024.

Noninterest income for the fourth quarter of 2024 increased \$86 million from the fourth quarter of 2023. Fee income increased \$49 million driven by business growth across the franchise, partially offset by lower residential mortgage revenue. Other noninterest income increased \$37 million and included lower negative Visa derivative adjustments. Visa derivative adjustments were negative \$100 million in the fourth quarter of 2023.

Noninterest expense for the fourth quarter of 2024 increased \$179 million compared to the third quarter of 2024 and included \$97 million of asset impairments primarily related to technology investments, and the benefit of an \$18 million FDIC special assessment reduction. The combined impact of these items was \$62 million after tax. The remaining increase was largely attributable to seasonality and higher marketing spend.

Noninterest expense for the fourth quarter of 2024 decreased \$568 million compared with the fourth quarter of 2023. The fourth quarter of 2023 included \$515 million related to the FDIC special assessment as well as \$150 million of workforce reduction charges.

The effective tax rate was 14.6% for the fourth quarter of 2024, 19.2% for the third quarter of 2024 and 16.3% for the fourth quarter of 2023. The fourth quarter of 2024 included the resolution of certain tax matters which resulted in \$60 million of income tax benefits.

CONSOLIDATED BALANCE SHEET REVIEW

Average total assets were \$564.1 billion in the fourth quarter of 2024, stable in comparison to both the third quarter of 2024 and the fourth quarter of 2023.

Average Loans					Change	Change

Average investment securities of \$143.9 billion in the fourth quarter of 2024 were stable compared to the third quarter of 2024 and increased \$6.5 billion from the fourth quarter of 2023. In both comparisons, net purchase activity of available-for-sale securities more than offset paydowns and maturities of held-tomaturity securities. The duration of the investment securities portfolio was estimated at 3.4 years as of December 31, 2024, 3.3 years as of September 30, 2024 and 4.2 years as of December 31, 2023.

Net unrealized losses on available-for-sale securities were \$3.6 billion at December 31, 2024, \$2.3 billion at September 30, 2024 and \$3.6 billion at December 31, 2023. The increase in net unrealized losses from September 30, 2024 reflected the impact of interest rate movements.

Average Federal Reserve Bank balances for the fourth quarter of 2024 were \$37.5 billion, decreasing \$7.4 billion from the third quarter of 2024 and \$4.7 billion from the fourth quarter of 2023 primarily due to lower borrowed funds outstanding.

Average deposits for the fourth quarter of 2024 of \$425.3 billion increased \$3.1 billion compared to the third quarter of 2024. Average commercial deposits grew \$5.5 billion reflecting growth in interest-bearing deposit balances. Average consumer deposits declined \$2.4 billion due to lower brokered time deposits. Compared to the fourth quarter of 2023, average deposits increased \$1.3 billion.

Noninterest-bearing deposits as a percentage of total average deposits were 23% for the fourth quarter of 2024, stable from the third quarter of 2024 and down 2% from the fourth quarter of 2023.

PNC maintained a strong capital position. Common shareholders' equity at December 31, 2024 decreased \$0.7 billion from September 30, 2024, due to a decline in accumulated other comprehensive income, dividends paid and share repurchases, partially offset by net income.

As a Category III institution, PNC has elected to exclude accumulated other comprehensive income related to both available-for-sale securities and pension and other post-retirement plans from CET1 capital. Accumulated other

comprehensive income of negative \$6.6 billion at December 31, 2024 declined from negative \$5.1 billion at September 30, 2024 and improved from negative \$7.7 billion at December 31, 2023. In both comparisons, the change reflected the impact of interest rate movements as well as paydowns and maturities of securities and swaps.

In the fourth quarter of 2024, PNC returned \$0.9 billion of capital to shareholders, including more than \$0.6 billion of dividends on common shares and more than \$0.2 billion of common share repurchases. Consistent with the Stress Capital Buffer (SCB) framework, which allows for capital return in amounts in excess of the SCB minimum levels, our board of directors has authorized a repurchase framework under the previously approved repurchase program of up to 100 million common shares, of which approximately 42% were still available for repurchase at December 31, 2024.

First quarter 2025 share repurchase activity is expected to approximate recent quarterly average share repurchase levels. PNC may adjust share repurchase activity depending on market and economic conditions, as well as other factors.

PNC's SCB for the four-quarter period beginning October 1, 2024 is the regulatory minimum of 2.5%.

On January 3, 2025, the PNC board of directors declared a quarterly cash dividend on common stock of \$1.60 per share to be paid on February 5, 2025 to shareholders of record at the close of business January 15, 2025.

At December 31, 2024, PNC was considered "well capitalized" based on applicable U.S. regulatory capital ratio requirements. For additional information regarding PNC's Basel III capital ratios, see Capital Ratios in the Consolidated Financial Highlights.

Provision for credit losses was \$156 million in the fourth quarter of 2024, reflecting improved macroeconomic factors and portfolio activity. The third quarter of 2024 provision for credit losses was \$243 million.

Net loan charge-offs were \$250 million in the fourth quarter of 2024, decreasing \$36 million compared to the third quarter of 2024 primarily due to lower commercial net loan charge-offs, including lower commercial real estate net loan charge-offs. Compared to the fourth quarter of 2023, net loan charge-offs increased \$50 million primarily due to higher commercial real estate net loan charge-offs.

The allowance for credit losses was \$5.2 billion at December 31, 2024, \$5.3 billion at September 30, 2024 and \$5.5 billion at December 31, 2023. The allowance for credit losses as a percentage of total loans was 1.64% at December 31, 2024, 1.65% at September 30, 2024 and 1.70% at December 31, 2023.

Delinquencies at December 31, 2024 were \$1.4 billion, increasing \$107 million from September 30, 2024, primarily due to higher commercial loan delinquencies. Compared to December 31, 2023, delinquencies were stable.

Nonperforming loans at December 31, 2024 were \$2.3 billion, decreasing \$0.3 billion from September 30, 2024, driven by lower commercial and industrial nonperforming loans. Compared to December 31, 2023, nonperforming loans increased \$146 million primarily due to higher commercial real estate nonperforming loans.

The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax. Net interest margin is the total yield on interest-earning assets minus the total rate on interest-bearing liabilities and includes the benefit from use of noninterest-bearing sources. To provide more meaningful comparisons of net interest margins, we use net interest income on a taxable-equivalent basis in calculating average yields used in the calculation of net interest margin by increasing the interest income earned on tax-exempt assets to make it fully (c) equivalent is interest income earned on taxable investments. This adjustment is not permitted under generally accepted accounting principles (GAAP) in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended December 31, 2024, September 30, 2024 and December 31, 2023 were \$30 million, \$33 million and \$36 million, respectively. The taxable-equivalent adjustments to net interest income for the twelve months ended December 31, 2024 and December 31, 2023 were \$131 million and \$147 million, respectively.

(d) Calculated as noninterest expense divided by total revenue.

CAPITAL RATIOS

PNC's regulatory risk-based capital ratios in 2024 are calculated using the standardized approach for determining risk-weighted assets. Under the standardized approach for determining credit risk-weighted assets, exposures are generally assigned a pre-defined risk weight. Exposures to high volatility commercial real estate, past due exposures and equity exposures are generally subject to higher risk weights than other types of exposures.

PNC elected a five-year transition provision effective March 31, 2020 to delay until December 31, 2021 the full impact of the CECL standard on regulatory capital, followed by a three-year transition period. Effective for the first quarter of 2022, PNC entered a three-year transition period, and the full impact of the CECL standard on regulatory capital, tollowed by a three-year transition period. Effective for the first quarter of 2022, PNC entered a three-year transition period, and the full impact of the CECL standard was phased-in to regulatory capital through December 31, 2024. In the first quarter of 2025, CECL will be fully reflected in regulatory capital. See the table below for the September 30, 2024, December 31, 2023 and estimated December 31, 2024 ratios. For the full impact of PNC's adoption of CECL, which excludes the benefits of the five-year transition provision, see the December 31, 2024 and September 30, 2024 (Fully Implemented) estimates presented in the table below.

NON-GAAP MEASURES

Fee Income (non-GAAP)	Three months ended				Year	d

Other income	175		69		711		619
Total noninterest income	\$ 2,044	\$	2,022	\$	8,056	\$	7,574

Fee income is a non-GAAP measure and is comprised of noninterest income in the following categories: asset management and brokerage, capital markets and advisory, card and cash management, lending and deposit services, and residential and commercial mortgage. We believe this non-GAAP measure serves as a useful tool for comparison of noninterest income related to fees.

Pretax Pre-Provision Earnings (non-GAAP)	Three months ended

Pretax pre-provision earnings (non-GAAP)	\$	2,061	\$	2,105	\$	8,031	\$	7,478

Pretax pre-provision earnings is a non-GAAP measure and is based on adjusting income before income taxes and noncontrolling interests to exclude provision for credit losses. We believe that pretax, pre-provision earnings is a useful tool to help evaluate the ability to provide for credit costs through operations and provides an additional basis to compare results between periods by isolating the impact of provision for credit losses, which can vary significantly between periods.

Period-end common shares outstanding (In millions)		396		397	398
Tangible book value per common share (non-GAAP)	\$	95.33	\$	96.98	\$ 85.08

Tangible book value per common share is a non-GAAP measure and is calculated based on tangible common shareholders' equity divided by period-end common shares outstanding. We believe this non-GAAP measure serves as a useful tool to help evaluate the strength and discipline of a company's capital management strategies and as an additional, conservative measure of total company value.

Net interest income (Fully Taxable-Equivalent - FTE) (non-GAAP)	\$	3,553	\$	3,443	\$	13,630	\$	14,063	

The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of net interest income, we use interest income on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP. Taxable-equivalent net interest income is only used for calculating net interest margin. Net interest income shown elsewhere in this presentation is GAAP net interest income.

- Impacts of sanctions, tariffs and other trade policies of the U.S. and its global trading partners,
- Impacts of changes in federal, state and local governmental policy, including on the regulatory landscape, capital markets, taxes, infrastructure spending and social programs,
- Our ability to attract, recruit and retain skilled employees, and
- Commodity price volatility.
- Our forward-looking financial statements are subject to the risk that economic and financial market conditions will be substantially different than those we are currently expecting and do not take into account potential legal and regulatory contingencies. These statements are based on our views that:
- The labor market remains strong, and job and income gains will continue to support consumer spending growth in the near term. PNC's baseline forecast is for continued expansion, but slower economic growth in 2025 than in 2024. High interest rates remain a drag on the economy, consumer spending growth will slow to a pace more consistent with household income growth, and government's contribution to economic growth will be smaller.
- Real GDP growth this year and next will be close to trend at around 2%, and the unemployment rate will remain somewhat above 4% throughout 2025 and into 2026. Inflation will continue to gradually ease as wage pressures abate, but with anticipated higher tariffs, inflation will remain above the Federal Reserve's 2% objective throughout 2025.
- With slowing inflation, PNC expects two additional federal funds rate cuts of 25 basis points each in the first half of 2025, one in March and one in June. The federal funds rate will be in a range between 3.75% and 4.00% at mid-year, and remain in that range into 2026.
- PNC's ability to take certain capital actions, including returning capital to shareholders, is subject to PNC meeting or exceeding minimum capital levels, including a stress capital buffer established by the Federal Reserve Board in connection with the Federal Reserve Board's Comprehensive Capital Analysis and Review (CCAR) process.
- PNC's regulatory capital ratios in the future will depend on, among other things, PNC's financial performance, the scope and terms of final capital
 regulations then in effect and management actions affecting the composition of PNC's balance sheet. In addition, PNC's ability to determine, evaluate
 and forecast regulatory capital ratios, and to take actions (such as capital distributions) based on actual or forecasted capital ratios, will be dependent at
 least in part on the development, validation and regulatory review of related models and the reliability of and risks resulting from extensive use of such
 models.

Cautionary Statement Regarding Forward-Looking Information (Continued)

- Legal and regulatory developments could have an impact on our ability to operate our businesses, financial condition, results of operations, competitive position, reputation, or pursuit of attractive acquisition opportunities. Reputational impacts could affect matters such as business generation and retention, liquidity, funding, and ability to attract and retain employees. These developments could include:
- Changes to laws and regulations, including changes affecting oversight of the financial services industry, changes in the enforcement and interpretation of such laws and regulations, and changes in accounting and reporting standards.
- Unfavorable resolution of legal proceedings or other claims and regulatory and other governmental investigations or other inquiries resulting in monetary losses, costs, or alterations in our business practices, and potentially causing reputational harm to PNC.
- Results of the regulatory examination and supervision process, including our failure to satisfy requirements of agreements with governmental agencies.
- Costs associated with obtaining rights in intellectual property claimed by others and of adequacy of our intellectual property protection in general.
- Business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through effective use of systems and controls, third-party insurance, derivatives, and capital management techniques, and to meet evolving regulatory capital and liquidity standards.
- Our reputation and business and operating results may be affected by our ability to appropriately meet or address environmental, social or governance targets, goals, commitments or concerns that may arise.
- We grow our business in part through acquisitions and new strategic initiatives. Risks and uncertainties include those presented by the nature of the business acquired and strategic initiative, including in some cases those associated with our entry into new businesses or new geographic or other markets and risks resulting from our inexperience in those new areas, as well as risks and uncertainties related to the acquisition transactions themselves, regulatory issues, the integration of the acquired businesses into PNC after closing or any failure to execute strategic or operational plans.
- Competition can have an impact on customer acquisition, growth and retention and on credit spreads and product pricing, which can affect market share, deposits and revenues. Our ability to anticipate and respond to technological changes can also impact our ability to respond to customer needs and meet competitive demands.
- Business and operating results can also be affected by widespread manmade, natural and other disasters (including severe weather events), health
 emergencies, dislocations, geopolitical instabilities or events, terrorist activities, system failures or disruptions, security breaches, cyberattacks,
 international hostilities, or other extraordinary events beyond PNC's control through impacts on the economy and financial markets generally or on us or
 our counterparties, customers or third-party vendors and service providers specifically.

We provide greater detail regarding these as well as other factors in our 2023 Form 10-K and in our subsequent Form 10-Qs, including in the Risk Factors and Risk Management sections and the Legal Proceedings and Commitments Notes of the Notes To Consolidated Financial Statements in those reports, and in our other subsequent SEC filings. Our forward-looking statements may also be subject to other risks and uncertainties, including those we may discuss elsewhere in this news release or in our SEC filings, accessible on the SEC's website at www.sec.gov and on our corporate website at www.pnc.com/secfilings. Includes Visa derivative fair value adjustments of \$(23) million, \$(128) million, \$(116) million, \$(7) million and \$(100) million for the quarters ended December 31, 2024, September 30, 2024, June 30, 2024, March 31, 2024 and December 31, 2023, and \$(274) million and \$(279) million for the welve months ended December 31, 2024 and December 31, 2023, respectively. These adjustments are primarily related to escrow funding and the extension of anticipated litigation resolution timing. Dividends are payable quarterly, other than Series S preferred stock, which is payable semiannually. The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax. (a)

(a) Calculated using average daily balances.

Nonaccrual loans are included in loans, net of unearned income. The impact of financial derivatives used in interest rate risk management is included in the interest income/expense and average yields/rates of the related assets (b) and liabilities. Basis adjustments related to hedged items are included in noninterest-earning assets and noninterest-bearing liabilities. Average balances of securities are based on amortized historical cost (excluding adjustments to fair value, which are included in other assets). A verage balances for certain loans and borrowed funds accounted for at fair value are included in noninterest-earning assets and noninterest-bearing liabilities, with changes in fair value recorded in Noninterest income. Amounts include average balances held with the Federal Reserve Bank of \$37.5 billion, \$44.9 billion, \$40.7 billion, \$47.8 billion and \$42.2 billion for the three months ended December 31, 2024, September 30, 2024, June 30,

(c) 2024, March 31, 2024 and December 31, 2023 and \$42.7 billion and \$36.1 billion for the twelve months ended December 31, 2024 and December 31, 2023, respectively.

(a) Yields and rates are calculated using the applicable annualized interest income or interest expense divided by the applicable average earning assets or interest-bearing liabilities. Net interest margin is the total yield on interest-earning assets minus the total rate on interest-bearing liabilities and includes the benefit from use of noninterest-bearing sources. To provide more meaningful comparisons of net interest margins, we use net interest income on a taxable-equivalent basis in calculating average yields used in the calculation of net interest margin by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under GAAP in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended December 31, 2024, September 30, 2024, June 30, 2024, March 31, 2024 and December 31, 2023 were \$30 million, \$34 million and \$36 million, respectively. The taxable-equivalent adjustments to net interest income for the twelve months ended December 31, 2023 were \$131 million and \$147 million.

(b) Represents the positive effects of investing noninterest-bearing sources in interest-earning assets.

Business Segment Descriptions (Unaudited)

Retail Banking provides deposit, lending, brokerage, insurance services, investment management and cash management products and services to consumer and small business customers who are serviced through our coast-to-coast branch network, digital channels, ATMs, or through our phone-based customer contact centers. Deposit products include checking, savings and money market accounts and time deposits. Lending products include residential mortgages, home equity loans and lines of credit, auto loans, credit cards, education loans and personal and small business loans and lines of credit. The residential mortgage loans are directly originated within our branch network and nationwide, and are typically underwritten to agency and/or third-party standards, and either sold, servicing retained or held on our balance sheet. Brokerage, investment management and cash management products and services include managed, education, retirement and trust accounts.

Corporate & Institutional Banking provides lending, treasury management, capital markets and advisory products and services to mid-sized and large corporations and government and notfor-profit entities. Lending products include secured and unsecured loans, letters of credit and equipment leases. The Treasury Management business provides corporations with cash and investment management services, receivables and disbursement management services, funds transfer services and access to online/mobile information management and reporting services. Capital markets and advisory includes services and activities primarily related to merger and acquisitions advisory, equity capital markets advisory, asset-backed financing, loan syndication, securities underwriting and customer-related trading. We also provide commercial loan servicing and technology solutions for the commercial real estate finance industry. Products and services are provided nationally.

Glossary of Terms

<u>Allowance for credit losses (ACL)</u> – A valuation account that is deducted from or added to the amortized cost basis of the related financial assets to present the net carrying value at the amount expected to be collected on the financial asset.

Amortized cost basis – Amount at which a financial asset is originated or acquired, adjusted for applicable accretion or amortization of premiums, discounts and net deferred fees or costs, collection of cash, charge-offs, foreign exchange and fair value hedge accounting adjustments.

Basel III common equity Tier 1 (CET1) capital (Tailoring Rules) – Common stock plus related surplus, net of treasury stock, plus retained earnings, less goodwill, net of associated deferred tax liabilities, less other disallowed intangibles, net of deferred tax liabilities and plus/less other adjustments. Investments in unconsolidated financial institutions, as well as mortgage servicing rights and deferred tax assets, must then be deducted to the extent such items (net of associated deferred tax liabilities) individually exceed 25% of our adjusted Basel III common equity Tier 1 capital.

Basel III common equity Tier 1 capital ratio - Common equity Tier 1 capital divided by period-end risk-weighted assets (as applicable).

Basel III Tier 1 capital – Common equity Tier 1 capital, plus qualifying preferred stock, plus certain trust preferred capital securities, plus certain noncontrolling interests that are held by others and plus/less other adjustments.

Basel III Tier 1 capital ratio - Tier 1 capital divided by period-end risk-weighted assets (as applicable).

Basel III Total capital – Tier 1 capital plus qualifying subordinated debt, plus certain trust preferred securities, plus, under the Basel III transitional rules and the standardized approach, the allowance for loan and lease losses included in Tier 2 capital and other.

Basel III Total capital ratio - Basel III Total capital divided by period-end risk-weighted assets (as applicable).

<u>Charge-off</u> – Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred from portfolio holdings to held for sale by reducing the loan carrying amount to the fair value of the loan, if fair value is less than carrying amount.

Common shareholders' equity - Total shareholders' equity less the liquidation value of preferred stock.

Credit valuation adjustment - Represents an adjustment to the fair value of our derivatives for our own and counterparties' non-performance risk.

<u>Criticized commercial loans</u> – Loans with potential or identified weaknesses based upon internal risk ratings that comply with the regulatory classification definitions of "special mention," "substandard" or "doubtful."

<u>Current Expected Credit Loss (CECL)</u> – Methodology for estimating the allowance for credit losses on in-scope financial assets held at amortized cost and unfunded lending related commitments which uses a combination of expected losses over a reasonable and supportable forecast period, a reversion period and long run average credit losses for their estimated contractual term.

Discretionary client assets under management – Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Earning assets - Assets that generate income, which include: interest-earning deposits with banks; loans held for sale; loans; investment securities; and certain other assets.

Effective duration – A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and offbalance sheet positions.

Efficiency - Noninterest expense divided by total revenue.

Fair value - The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fee income – Refers to the following categories within Noninterest income: Asset management and brokerage, Capital markets and advisory, Card and cash management, Lending and deposit services, and Residential and commercial mortgage.

GAAP - Accounting principles generally accepted in the United States of America.

Leverage ratio - Basel III Tier 1 capital divided by average quarterly adjusted total assets.

Nondiscretionary client assets under administration – Assets we hold for our customers/clients in a nondiscretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Nonperforming assets – Nonperforming assets include nonperforming loans, OREO and foreclosed assets. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans – Loans accounted for at amortized cost whose credit quality has deteriorated to the extent that full collection of contractual principal and interest is not probable. Interest income is not recognized on nonperforming loans. Nonperforming loans exclude certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest, loans held for sale and loans accounted for under the fair value option.

<u>Operating leverage</u> – The period to period dollar or percentage change in total revenue less the dollar or percentage change in noninterest expense. A positive variance indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative variance implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

Other real estate owned (OREO) and foreclosed assets – Assets taken in settlement of troubled loans primarily through deed-in-lieu of foreclosure or foreclosure. Foreclosed assets include real and personal property. Certain assets that have a government-guarantee which are classified as other receivables are excluded.

<u>Risk-weighted assets</u> – Computed by the assignment of specific risk-weights (as defined by the Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

Servicing rights – Intangible assets or liabilities created by an obligation to service assets for others. Typical servicing rights include the right to receive a fee for collecting and forwarding payments on loans and related taxes and insurance premiums held in escrow.

Supplementary leverage ratio - Basel III Tier 1 capital divided by Supplementary leverage exposure.

Tailoring Rules – Rules adopted by the federal banking agencies to better tailor the application of their capital, liquidity, and enhanced prudential requirements for banking organizations to the asset size and risk profile (as measured by certain regulatory metrics) of the banking organization. Effective January 1, 2020, the agencies' capital and liquidity rules classify all BHCs with \$100 billion or more in total assets into one of four categories (Category I, Category II, Category II).

<u>Taxable-equivalent interest income</u> – The interest income earned on certain assets that is completely or partially exempt from federal income tax. These tax-exempt instruments typically yield lower returns than taxable investments.

Unfunded lending related commitments – Standby letters of credit, financial guarantees, commitments to extend credit and similar unfunded obligations that are not unilaterally, unconditionally, cancelable at PNC's option.
