Explanation of Responses:

1. Represents the weighted average price of shares sold in multiple transactions with prices ranging from \$255.82 to \$255.90, inclusive. The reporting person undertakes to provide to the staff of the Securities and Exchange Commission, The PNC Financial Services Group, Inc. ("PNC") or any security holder of PNC, upon request, full information regarding the number of shares sold at each separate price.
2. This amount represents the number of shares of PNC common stock indirectly held for the account of the reporting person under The PNC Incentive Savings Plan (the "ISP"), a defined contribution 401(k) plan, and reflects shares indirectly acquired in transactions exempt from reporting that occurred after the date of the reporting person's most recent filing on Form 4. Shares of PNC common stock are not directly allocated to ISP participants, but instead are held in a unitized fund (the "ISP fund"), the majority of which consists of PNC common stock, and the remainder of which is invested in a money market fund. The percentage of assets in the ISP fund that are deemed to be invested in PNC common stock fluctuates from time to time and is not the result of volitional or discretionary actions of the reporting person.
